Lukundoo and Other Stories Edward Lucas White, 2016-04-12 1 Lukundoo It stands to reason said Twombly that a man must accept the evidence of his own eyes and when eyes and ears agree there can be no doubt He has to believe what he has both seen and heard Not always put in Singleton softly Every man turned toward Singleton Twombly was standing on the hearth rug his back to the grate his legs spread out with his habitual air of dominating the room Singleton as usual was as much as possible effaced in a corner But when Singleton spoke he said something We faced him in that flattering spontaneity of expectant silence which invites utterance I was thinking he said after an interval of something I both saw and heard in Africa Now if there was one thing we had found impossible it had been to elicit from Singleton anything definite about his African experiences As with the Alpinist in the story who could tell only that he went up and came down the sum of Singleton's revelations had been that he went there and came away His words now riveted our attention at once Twombly faded from the hearth rug but not one of us could ever recall having seen him go The room readjusted itself focused on Singleton and there was some hasty and furtive lighting of fresh cigars Singleton lit one also but it went out immediately and he never relit it

**Supernatural Horror in Literature** H. P. Lovecraft,2013-06-10 Originally published in 1927 in a small circulation amateur magazine spanning the period from antiquity until the 1930s and covering both the Anglo American world and Continental Europe Lovecraft s essay remains unparalleled as a survey of horror literature in our hemisphere Said literature s emergence as a genre coincided with the institutional establishment of liberalism which represents a diametrically opposed worldview This would suggest that horror literature even if inadvertently or subconsciously represents an attempt at escaping the limitations of the secular materialist rationalist Weltanschauung of liberal modernity as well as a desire for meaning in a world rendered meaningless through liberation from hierarchies folk traditions the occult and the supernatural Also of interest is the fact that the aesthetics of Gothic horror are invariably and luxuriantly beautiful if in a dark way whereas the logical extreme of rationality utilitarianism standardisation is inherently anti aesthetic Would this not indicate then that the Age of Reason marked the beginning of a process that concluded in late modernity with the wholesale destruction of beauty except where it or the counterfeiting of it was dictated by economic necessity If so we may view Lovecraft s essay not merely as a resource for those seeking entertainment within a genre of literature but also a map for those seeking to escape and begin to transcend the despair engendered by a worldview that pronounced itself dead when someone spoke of the end of history      *Science-fiction, the Early Years* Everett Franklin Bleiler,1990 In this volume the author describes more than 3000 short stories novels and plays with science fiction elements from earliest times to 1930 He includes imaginary voyages utopias Victorian boys books dime novels pulp magazine stories British scientific romances and mainstream work with science fiction elements Many of these publications are extremely rare surviving in only a handful of copies and most of them have never been described before
