Luminous Debris Reflecting On Vestige In Provence And Lang:

Luminous Debris Gustaf Sobin, 2000-01-11 Interpreting vestige with the eloquence of a poet and the knowledge of a field archaeologist Gustaf Sobin explores his elected terrain the landscapes of Provence and Languedoc Drawing on prehistory protohistory and Gallo Roman antiquity the twenty six essays in this book focus on a particular place or artifact for the relevance inherent in each A Bronze Age earring or the rippling wave pattern in Massiolite ceramic are more than archival curiosities for Sobin Instead they invite inquiry and speculation on existence itself Artifacts are read as realia and history as an uninterrupted sequence of object lessons As much travel writing as meditative discourse *Luminous Debris* is enhanced by a prose that tracks questions and reflects on the materials invoked Sobin engages the reader with precise descriptions of those very materials and the messages to be gleaned from their examination be they existential ethical or political An American expatriate living in Provence for the past thirty five years Gustaf Sobin shares his enthusiasm for his adopted landscape and for a vertical interpretation of its strata In *Luminous Debris* he creates meaning out of matter and celebrates instances of reality past and present

The Riddle of the Rosetta Jed Z. Buchwald, Diane Greco Josefowicz, 2022-05-24 A major new history of the race between two geniuses to decipher ancient Egyptian hieroglyphs set against the backdrop of nineteenth century Europe In 1799 a French Army officer was rebuilding the defenses of a fort on the banks of the Nile when he discovered an ancient stele fragment bearing a decree inscribed in three different scripts So begins one of the most familiar tales in Egyptology that of the Rosetta Stone and the decipherment of Egyptian hieroglyphs This book draws on fresh archival evidence to provide a major new account of how the English polymath Thomas Young and the French philologist Jean François Champollion vied to be the first to solve the riddle of the Rosetta Jed Buchwald and Diane Greco Josefowicz bring to life a bygone age of intellectual adventure Much more than a decoding exercise centered on a single artifact the race to decipher the Rosetta Stone reflected broader disputes about language historical evidence biblical truth and the value of classical learning Buchwald and Josefowicz paint compelling portraits of Young and Champollion two gifted intellects with altogether different motivations Young disdained Egyptian culture and saw Egyptian writing as a means to greater knowledge about Greco Roman antiquity Champollion swept up in the political chaos of Restoration France and fiercely opposed to the scholars aligned with throne and altar admired ancient Egypt and was prepared to upend conventional wisdom to solve the mystery of the hieroglyphs Taking readers from the hushed lecture rooms of the Institut de France to the windswept monuments of the Valley of the Kings *The Riddle of the Rosetta* reveals the untold story behind one of the nineteenth century's most thrilling discoveries

The Best American Poetry 2002 Robert Creeley, David Lehman, 2002 An anthology of contemporary poets presents works that reflect the diversity in American poetry 2002

Archaeology for the People John Cherry, Felipe Rojas, 2016-02-29 In 2014 the Joukowsky Institute for Archaeology and the Ancient World organized an international writing competition calling for accessible and engaging essays about any aspect of archaeology

Nearly 150 submissions from over two dozen countries were received Archaeology for the People gathers the best of those entries Their diverse topics from the destruction of historic urban gardens in contemporary Istanbul to the fall of the ancient Maya city offer a taste of the global reach and relevance of archaeology Their main common trait however is that they prove that archaeology can offer much more to a general audience than Indiana Jones or aliens building pyramids All of the articles collected in this book combine sophisticated analysis of an exciting archeological problem with prose geared at a non specialized audience This book also offers a series of reflections on how and why to engage in dialogues about archaeology with people who are not specialists These include a stunning photo essay that captures the challenges of life at an archaeological site in northern Sudan interviews with a number of leading archaeologists who have successfully written about archaeology for a broad public or who are actively engaged in practicing archaeology beyond academia and a discussion of the experience of teaching a Massive Open Online Course MOOC about archaeology to over 40 000 students This book should be of interest to anyone who has wondered how and why to write about archaeology for people other than archaeologists

Redeeming Words David Michael Kleinberg-Levin, 2013-11-01 Probing study of how literature can redeem the revelatory redemptive powers of language In this probing look at Alfred Döblin's 1929 novel Berlin Alexanderplatz and the stories of W G Sebald Redeeming Words offers a philosophical meditation on the power of language in literature David Kleinberg Levin draws on the critical theory of Benjamin and Adorno the idealism and romanticism of Kant Hegel Herderlin Novalis and Schelling and the nineteenth and twentieth century thought of Nietzsche Heidegger and Derrida He shows how Döblin and Sebald writers with radically different styles working in different historical moments have in common a struggle against forces of negativity and an aim to bring about in response a certain redemption of language Kleinberg Levin considers the fast paced staccato and hard cut sentences of Döblin and the ghostly languorous and melancholy prose fiction of Sebald to articulate how both writers use language in an attempt to recover and convey this utopian promise of happiness for life in a time of mourning
