**The Continuity of Madhyamaka and Yogācāra in Indian Mahāyāna Buddhism** Ian Charles Harris, 2023-11-27 In the past European scholars have tended to treat both Madhyamaka and Yogācāra as separate and fundamentally opposed trends in Mahāyāna Buddhist thought Drawing heavily on early textual evidence this work questions the validity of such a Mahāyāna schools hypothesis By down playing the late commentarial traditions the author attempts a general reappraisal of the epistemological and ontological writings of Nagarjuna Asanga and Vasubandhu He concludes that the overlap in all areas of doctrine is significant but particularly with respect to the teachings on the levels of truth the enlightened and unenlightened states the status of language and the nature of reality It is hoped that such investigations may provide the basis for a new theory on the proliferation of Indian Mahāyāna Buddhism as an organic process of assimilation to new audiences and specific contemporary problems rather than in the more schismatic manner favoured by past researchers

**The Garden of Reality** Roland Faber, 2018-06-20 The Garden of Reality contemplates the relativity of religious truth religious pluralism transreligious discourse postmodern cosmology and multireligious mysticism Its transreligious approach aims at a future multireligious peaceful society in an ecological and cosmic context It proposes that the future of humanity is bound to conviviality with itself and the Earth that the deepest religious motivations of existing together are relative to one another and that transreligious relativity is essential to the conviction of religions that their motivations experiences and conceptualities are meaningful real and true By engaging diverse voices from poststructuralism to Sufism Dzogchen and philosophical Daoism from conceptual frameworks of Christianity and Hinduism to mystical and postmodern cosmology current cosmopolitanism and interreligious and interspiritual discourses but especially understudied contributions of process thought and the Bahā'ī religion this book suggests that multireligious conviviality must listen to the universal relevance of a multiplicity of minority voices Its polyphilic pluralism affirms the mutual immanence and co creative nature of religions and spiritualities with the universal in sistance of divine or ultimate reality in the cosmos Embracing a relativistic and evolutionary paradigm in an infinite cosmos of creative becoming religions must cope with events of novelty that disturb and connect transcend and contrast the continuum of their truth claims but must avoid conflict as religious diversity is enveloped by an ever folding landscape of ultimate reality

**God or the Divine?** Bernhard Nitsche,Marcus Schmücker,2023-03-20 Is there a language of transcendence which does not fall under the well worn categories of monism theism pantheism biblical or pagan monotheism personal or tripersonal God or an impersonal absolute conceived as immanent and or transcendent The present set of studies from different fields of research centers on the question whether it is possible to speak at all of transcendence or a divinity and if it is under what limitations does such speech proceed In current discussion in theology and in philosophy of religion there is a pervasive awareness that the inherited terms and alternatives developed in the western tradition no longer facilitate an adequate understanding of the divine Increasing familiarity with the languages of immanence and transcendence under erasure in Hindu and Buddhist thought has further jumbled our coordinates while holding out the promise of a more subtle and vital engagement with the matter itself of religious inquiry A further long established distinction between personal and impersonal also takes on rich new hues in Asian contexts where the very notion of person may undergo unsettling critiques Transgressing the categories of personal and impersonal points to the mystical depth of religious traditions emphasizes their openness and reintegrates essential elements of both perspectives Advancing with curiosity and caution all the contributors take seriously the diversity of historical religious traditions while nevertheless searching for a fresh language that may connect these traditions and provide a common ground of understanding
