**Luther** Martin Luther, 1987-10-05      Luther Martin Luther,      **Realist Ethics** Valerie Morkevičius, 2018-01-25 Just war thinking and realism are commonly presumed to be in opposition If realists are seen as war mongering pragmatists just war thinkers are seen as naïve at best and pacifistic at worst Just war thought is imagined as speaking truth to power forcing realist decision makers to abide by moral limits governing the ends and means of the use of force Realist Ethics argues that this oversimplification is not only wrong but dangerous Casting just war thought to be the alternative to realism makes just war thinking out to be what it is not and cannot be a mechanism for avoiding war A careful examination of the evolution of just war thinking in the Christian Islamic and Hindu traditions shows that it is no stranger to pragmatic politics From its origins just war thought has not aimed to curtail violence but rather to shape the morally imaginable uses of force deeming some of them necessary and even obligatory Morkevičius proposes here a radical recasting of the relationship between just war thinking and realism      On Politics: A History of Political Thought: From Herodotus to the Present Alan

Ryan, 2012-10-22 Finally in a one volume paperback edition On Politics is one of the most ambitious and hugely readable histories of political philosophy in nearly a century Praised widely upon hardcover publication Alan Ryan's masterpiece David Ulin Los Angeles Times blends history and philosophy to examine three thousand years of political thought Drawing on three decades of research Ryan insightfully traces the origins of political philosophy from the ancient Greeks to the present and evokes the lives and minds of our greatest thinkers in a way that makes reading about them a remarkable experience Jeremy Waldron New York Review of Books Whether writing about Plato or Augustine Tocqueville or Jefferson Ryan illuminates John Dewey's dictum that the role of philosophy is less to see truth than to enhance life With this epic John Keane Financial Times tour de force Ryan affirms his place as one of the most influential political philosophers of our time      **Just War Thinkers**

**Revisited** Daniel R. Brunstetter, Cian O'Driscoll, 2024-11-25 This book comprises essays that focus on a range of thinkers who challenge the boundaries of the just war tradition The ethics of war scholarship has become a rigid and highly disciplined activity closely associated with a very particular canon of thinkers This volume moves beyond this by presenting thinkers not typically regarded as part of that canon but who have interesting and potentially important things to say about the ethics of war The book presents 20 profile essays on an eclectic cast of heretics humanists and radicals from ancient Greece to the twenty first century who lived through and theorized about violence The book asks how ethics of war scholars might benefit from engaging with them Some of these thinkers engage directly with to augment or criticize the just war tradition while others contribute to military thinking across the ages pushing the boundaries of what was acceptable in war Many proffer alternative moral frameworks regarding the legitimacy of political violence The present volume thus invites scholars to reconsider the ethics of war in a way that challenges the standard delineation between just war theory realism and pacifism and to reflect on how those positions might inform our own approach to these matters This book will be of much interest to

students of just war theory ethics of war war studies and International Relations      **Transfiguring Luther** Vitor Westhelle, 2017-02-23 Luther's theology has inspired many since 1517 when he nailed his ninety-five theses to the door of the Castle Church. It was the trigger for the Reformation, a change in the very fabric of Christianity that is still studied extensively to this day. Much of this work, however, has been conducted from either a European or North American perspective. With Lutheranism becoming more and more common in the southern hemisphere, new interpretations of Luther's theology are needed for these emergent and different contexts. In *Transfiguring Luther*, Vitor Westhelle offers a reading of Luther and his legacy that goes beyond the traditional geopolitics of Luther research, exploring realities where the Reformer's reception and the latent promise of his theology receive unsuspected appraisal. Westhelle provides both a revisitation of the past and an invitation to a new orientation. By establishing a texture rather than a rigid actuality, Westhelle allows the reader to reach their own conclusions about these seldom-examined aspects of Luther's theology.      *Religion, War, and Ethics* Gregory M. Reichberg, Henrik Syse, 2014-05-26 *Religion, War, and Ethics* is a collection of primary sources from the world's major religions on the ethics of war. Each chapter brings together annotated texts, scriptural, theological, ethical, and legal from a variety of historical periods that reflect each tradition's response to perennial questions about the nature of war: when, if ever, is recourse to arms morally justifiable? What moral constraints should apply to military conduct? Can a lasting earthly peace be achieved? Are there sacred reasons for waging war and special rewards for those who do the fighting? The religions covered include Sunni and Shiite Islam, Judaism, Roman Catholic, Eastern Orthodox, and Protestant Christianity, Theravada Buddhism, East Asian religious traditions, Confucianism, Shinto, Japanese and Korean Buddhism, Hinduism, and Sikhism. Each section is compiled by a specialist recognized within his or her respective religious tradition who has also written a commentary on the historical and textual context of the passages selected.      Christianity and the Political Order Himes, Kenneth R., 2014-04-10 A must-read and indispensable guide for those concerned with the bread and butter issues of church and state relations. Peter C. Phan. The breadth of historical development, the depth of theological and ethical analysis, and the clarity of thought and expression by Kenneth Himes make *Christianity and the Political Order* an excellent textbook. Charles Curran. Beyond electoral campaigns and government structures, the relationship between the political realm and Christianity has always involved the important questions of how we ought to live together and how we should organize and govern our common life. As the author notes, politics and the political choices we make must be guided by considerations of national and global justice and peace, and for Christians by the teachings of Jesus as interpreted by tradition. Himes examines the relationship between Christianity and politics from the teachings of the Old and New Testaments through the patristic and medieval eras and from the age of reform to the age of revolution and throughout the twentieth century into the third millennium. He takes on questions of the role of the church in politics, responsible voting, concerns of globalization, and issues of human rights and war and peace. With discussion questions and suggestions for further reading, *Christianity and the Political Order* is a timely and

compelling review of the relationship between Christian faith and the political realm both past and present in a classroom friendly text     Theological Anthropology, 500 Years after Martin Luther ,2021-07-19 Theological Anthropology 500 years after Martin Luther gathers contributions on the theme of the human being and human existence from the perspectives of Orthodox and Protestant theology These two traditions still have much to learn from each another five hundred years after Martin Luther s Reformation Taking Martin Luther s thought as a point of reference and presenting Orthodox perspectives in connection with and in contradistinction to it this volume seeks to foster a dialogue on some of the key issues of theological anthropology such as human freedom sin faith the human as created in God s image and likeness and the ultimate horizon of human existence The present volume is one of the first attempts of this kind in contemporary ecumenical dialogue

**Devotion** Constance M. Furey,Sarah Hammerschlag,Amy Hollywood,2021-12-10 What brings religious scholars Constance Furey Sarah Hammerschlag and Amy Hollywood together in Devotion is a shared conviction that reading helps us live with and through the unknown For them the nature of reading raises questions fundamental to how we think about our political futures and modes of human relation Each essay suggests different ways to characterize the object of devotion and the stance of the devout subject before it Furey writes about devotion in terms of vivification energy and artifice Hammerschlag in terms of commentary mimicry and fetishism and Hollywood in terms of anarchy antinomianism and atopia They are interested in literature not as providing models for ethical political or religious life but as creating the site in which the possible and the impossible transport the reader enabling new forms of thought habits of mind and modes of life Ranging from German theologian Martin Luther to French Jewish philosopher Sarah Kofman to American poet Susan Howe this volume is not just a reflection on forms of devotion it is also an enactment of devotion itself     **The Anabaptists and**

**Contemporary Baptists** Malcolm B. Yarnell,2013 Scholars and pastors Paige Patterson Rick Warren etc offer essays on sixteenth century Anabaptists Balthasar Hubmaier Leonhard Schiemer Hans Denck etc proposing to recover the Anabaptist vision among Baptists as a means of restoring New Testament Christianity     **Christianity and Constitutionalism**

Nicholas Aroney,Ian Leigh,2022 The first volume of its kind Christianity and Constitutionalism explores the contribution of Christianity to constitutional law and constitutionalism as viewed from the perspectives of history law and theology The authors examine a wide range of key figures including Augustine Thomas Aquinas Moses Martin Luther and Roger Williams offering innovative and thoughtful analyses of the relationship between religious thought and constitutional law Part I features contributions from historians and is focused on the historical influence of Christianity on constitutionalism recounting how the relationship between the Christian faith and fundamental ideas about law justice and government has evolved from era to era Part II offers the analyses of constitutional lawyers focusing on the normative implications of Christianity for particular themes or topics in constitutional law The chapters in this section orbit around several central doctrines and principles of this field including sovereignty the rule of law democracy the separation of powers human rights

conscience and federalism evaluating them from a range of Christian perspectives Part III rounds out the study with theologians focused on particular Christian doctrines exploring their constructive and sometimes critical implications for constitutionalism As a whole Christianity and Constitutionalism breaks new ground by offering wide ranging interdisciplinary contributions to the study of the relationship between the Christian religion and constitutional law     **Uncivil**

**Disobedience** David M. Gides,2022-12-13 This book addresses the need for theological reflection on uncivil disobedience Existing scholarship in theology and politics mostly treats church state relations theoretically with studies in non violent resistance or civil disobedience or in other ways largely assuming traditional forms of governance and means of protest all while paying little to no attention to post modern political philosophies Recent eruptions of uncivil disobedience oftentimes involving violence like we have seen with Antifa Black Lives Matter protests the storming of the U S Capitol Building and in the actions of other right wing leftist and religious groups assume new ways of protesting and new forms of organizing or mobilizing Additionally these groups and their activities are often informed by post modern philosophies These new political dynamics present an opportunity for theologians to produce scholarship in response After establishing philosophical underpinnings related to uncivilly disobedient action the contributors cover traditional historical and theological responses to political unrest as a foundation for considering or evaluating attempts to address theologically present day manifestations of uncivil disobedience     The History of Evil from the Mid-Twentieth Century to Today Jerome Gellman,2018-06-14 This sixth

volume of The History of Evil charts the era 1950 2018 with topics arising after the atrocities of World War II while also exploring issues that have emerged over the last few decades It exhibits the flourishing of analytic philosophy of religion since the War as well as the diversity of approaches to the topic of God and evil in this era Comprising twenty one chapters from a team of international contributors this volume is divided into three parts God and Evil Humanity and Evil and On the Objectivity of Human Judgments of Evil The chapters in this volume cover relevant topics such as the evidential argument from evil skeptical theism free will theodicy continental philosophy religious pluralism the science of evil feminist

theorizations terrorism pacifism realism and relativism This outstanding treatment of the history of evil will appeal to those with particular interests in the ideas of evil and good     Rescuing the Gospel Erwin W. Lutzer,2016-05-03 The Riveting

Story of the Reformation and Its Significance Today The Reformation unfolded in the cathedrals and town squares of Europe in Wittenberg Worms Rome Geneva and Zurich and it is a stirring story of courage and cowardice of betrayal and faith The story begins with the Catholic Church and its desperate need for reform The dramatic events that followed are traced from John Wycliffe in England to the burning of John Hus at the stake in Prague to the rampant sale of indulgences in the cities and towns of Germany to Martin Luther nailing the Ninety Five Theses to the door of the Castle Church in 1517 to John Calvin s reform of Geneva Erwin Lutzer captures the people places and big ideas that fueled the Reformation and explains its lasting influence on the church and Western Civilization     *Theology and Globalisation* Rowan Gill,2005 This book is a

critique and commentary on globalisation from a theological perspective Drawing on the works of theologians such as Augustine Rahner Luther Newbigin Moe Lobeda McFague Jesnon Wainwright de Chardin McCaughey and Kung the author critiques globalisation and those who espouse it defend and promote it For Gill globalisation is an economic phenomenon with political ramifications whereby economic and political aspects of the world become predicated of the whole world itself Central to it is a spirit of competition by which the world is globalised and results in a sense of one globe For the author following Milbank the response to globalisation needs to be a theological one based on the new city of God the Kingdom of God The author is a Minister of the Word in the Uniting Church in Australia who studied theology in Melbourne and undertook post graduate studies in Boston USA
