BOOK JACKET Historical Dictionary of Lutheranism Günther Gassmann, Duane H. Larson, Mark W. Oldenburg, 2001-04-04 This historical dictionary examines the development of Lutheranism from its inception in the 16th century to its place as one of the largest and most influential Protestant churches in the modern world. It covers the basic theological convictions of the Lutheran tradition and their interpretation through the centuries; eminent Lutherans from the sixteenth through the twentieth centuries; the broad social and cultural impact of Lutheranism; Lutheran participation in the great religious and intellectual movements of the last four centuries; and portrayals of the members of the world-wide family of Lutheran churches. Truly a reference book for a wide audience and an informative tool for theological scholars and teachers.

The Encyclopedia of Christianity Erwin Fahlbusch, Geoffrey William Bromiley, 1999 The Encyclopedia of Christianity is the first of a five-volume English translation of the third revised edition of Evangelisches Kirchenlexikon. Its German articles have been tailored to suit an English readership and articles of special interest to English readers have been added. The encyclopedia describes Christianity through its 2000-year history within a global context, taking into account other religions and philosophies. A special feature is the statistical information dispersed throughout the articles on the continents and over 170 countries. Social and cultural coverage is given to such issues as racism, genocide, and armaments, while historical content shows the development of biblical and apostolic traditions. This comprehensive work, while scholarly, is intended for a wide audience and will set the standard for reference works on Christianity.
