Lyndon B Johnson Portrait Of A President:

Lyndon B. Johnson Robert Dallek, 2005 This superb one volume biography of Lyndon Baines Johnson is by the bestselling author of *An Unfinished Life* John F Kennedy 1917 1963 **Lyndon B. Johnson: Portrait of a President** Robert Dallek, 2004-01-08 Robert Dallek's brilliant two volume biography of Lyndon Johnson has received an avalanche of praise Michael Beschloss in *The Los Angeles Times* said that it succeeds brilliantly *The New York Times* called it rock solid and *The Washington Post* hailed it as invaluable And Sidney Blumenthal in *The Boston Globe* wrote that it was dense with astonishing incidents Now Dallek has condensed his two volume masterpiece into what is surely the finest one volume biography of Johnson available Based on years of research in over 450 manuscript collections and oral histories as well as numerous personal interviews this biography follows Johnson the human dynamo from the Texas hill country to the White House We see LBJ in the House and the Senate whirl his way through sixteen and eighteen hour days talking urging demanding reaching for influence and power in an uncommonly successful congressional career Then in the White House we see Johnson as the visionary leader who worked his will on Congress like no president before or since enacting a range of crucial legislation from Medicare and environmental protection to the most significant advances in civil rights for black Americans ever achieved And we see the depth of Johnson's private anguish as he became increasingly ensnared in Vietnam In these pages Johnson emerges as a man of towering intensity and anguished insecurity of grandiose ambition and grave self doubt a man who was brilliant crude intimidating compassionate overbearing driven A tornado in pants Gracefully written and delicately balanced this singular biography reveals both the greatness and the tangled complexities of one of the most extravagant characters ever to step onto the presidential stage *Lyndon B. Johnson: Portrait of a President* Robert Dallek, 2004-01-08 Robert Dallek's brilliant two volume biography of Lyndon Johnson has received an avalanche of praise Michael Beschloss in *The Los Angeles Times* said that it succeeds brilliantly *The New York Times* called it rock solid and *The Washington Post* hailed it as invaluable And Sidney Blumenthal in *The Boston Globe* wrote that it was dense with astonishing incidents Now Dallek has condensed his two volume masterpiece into what is surely the finest one volume biography of Johnson available Based on years of research in over 450 manuscript collections and oral histories as well as numerous personal interviews this biography follows Johnson the human dynamo from the Texas hill country to the White House We see LBJ in the House and the Senate whirl his way through sixteen and eighteen hour days talking urging demanding reaching for influence and power in an uncommonly successful congressional career Then in the White House we see Johnson as the visionary leader who worked his will on Congress like no president before or since enacting a range of crucial legislation from Medicare and environmental protection to the most significant advances in civil rights for black Americans ever achieved And we see the depth of Johnson's private anguish as he became increasingly ensnared in Vietnam In these pages Johnson emerges as a man of towering intensity and anguished insecurity of grandiose ambition and grave self doubt a man who was brilliant crude

intimidating compassionate overbearing driven A tornado in pants Gracefully written and delicately balanced this singular biography reveals both the greatness and the tangled complexities of one of the most extravagant characters ever to step onto the presidential stage

Constructing Presidential Legacy Cullinane Michael Patrick Cullinane, 2018-11-14 What do we remember about US Presidents and how do we come to commemorate their legacies Few personalities loom larger than the President of the United States Their accomplishments and failures are forensically documented and their personal lives are under constant scrutiny from the media But how does a president's legacy emerge and how do we come to commemorate it In *Constructing Presidential Legacy* world leading experts take a multi disciplinary approach to explore how presidents are remembered They look at multiple presidents including Washington Jefferson Lincoln the Roosevelts Kennedy Lyndon Johnson Eisenhower Reagan Obama and Trump Discover how presidential legacies are constructed during and after a President's time in the Whitehouse and how they are portrayed in media such as film museums public art political invocations pop culture literature and evolving technological advancements

The Black Presidential Nightmare Christopher Brian Booker, 2017-03-31 The *Black Presidential Nightmare* is the only book that discusses the major events and social and political forces impacting each American president from the perspective of African American interests Biographies of all the American presidents are presented within the context of the history that shaped their actions The *Black Presidential Nightmare* answers many long standing questions of black history including the following What president has done the most to advance the rights and interest of black people Which presidents had the most liberal racial attitudes toward African Americans When and under what circumstances did blacks switch allegiance from the Republican Party of Lincoln to the Democratic Party Which antebellum presidents were slave owners and how did they square that with their other views on human rights and justice Long standing controversies among historians such as Abraham Lincoln's views on slavery race and civil rights and Theodore Roosevelt's role in the Brownsville Affair are illuminated

The Presidents Club Nancy Gibbs, Michael Duffy, 2013-02-12 Over the years that followed and to this day the presidents relied on misunderstood sabotaged and formed alliances with one another that changed history The world's most exclusive fraternity is a complicated place its members are bound forever because they sat in the Oval Office and know its secrets yet they are immortal rivals for history's favour Some presidents needed their predecessors to keep their secrets others needed them to disappear Truman enlisted Hoover to help him save Europe Kennedy turned to Ike on Cuba Nixon sought Johnson's advice on getting re-elected but then tried to blackmail him Ford and Carter couldn't stand each other until they saw what they had in common Reagan and Clinton relied on Nixon as an emissary to Russia Bush put Clinton and his father to work and they became like father and son and Obama and Clinton became quiet rivals for the same crown The Presidents Club will change the way we think about the presidency for the club itself is an instrument of presidential power

The Presidents vs. the Press Harold Holzer, 2020-08-25 An award winning presidential historian offers an authoritative account of American presidents' attacks on our freedom of the press The

FAKE NEWS media Donald Trump has tweeted is not my enemy it is the enemy of the American People Has our free press ever faced as great a threat Perhaps not but the tension between presidents and journalists is as old as the republic itself Every president has been convinced of his own honesty and transparency every reporter who has covered the White House beat has believed with equal fervency that his or her journalistic rigor protects the country from danger Our first president George Washington was also the first to grouse about his treatment in the newspapers although he kept his complaints private Subsequent chiefs like John Adams Abraham Lincoln Woodrow Wilson and Barack Obama were not so reticent going so far as to wield executive power to overturn press freedoms and even to prosecute journalists Theodore Roosevelt was the first president to actively manage the stable of reporters who followed him doling out information steering coverage and squashing stories that interfered with his agenda It was a strategy that galvanized TR s public support but the lesson was lost on Woodrow Wilson who never accepted reporters into his inner circle Franklin Roosevelt transformed media relations forever holding more than a thousand presidential press conferences and harnessing the new power of radio at times bypassing the press altogether John F Kennedy excelled on television and charmed reporters to hide his personal life while Richard Nixon was the first to cast the press as a public enemy From the days of newsprint and pamphlets to the rise of Facebook and Twitter each president has harnessed the media whether intentional or not to imprint his own character on the office In this remarkable new history acclaimed scholar Harold Holzer examines the dual rise of the American presidency and the media that shaped it From Washington to Trump he chronicles the disputes and distrust between these core institutions that define the United States of America revealing that the essence of their confrontation is built into the fabric of the nation

The New Encyclopedia of Southern Culture Charles Reagan Wilson, 2014-02-01 Providing a chronological and interpretive spine to the twenty four volumes of The New Encyclopedia of Southern Culture this volume broadly surveys history in the American South from the Paleoindian period approximately 8000 B C E to the present In 118 essays contributors cover the turbulent past of the region that has witnessed frequent racial conflict a bloody Civil War fought and lost on its soil massive in and out migration major economic transformations and a civil rights movement that brought fundamental change to the social order Charles Reagan Wilson s overview essay examines the evolution of southern history and the way our understanding of southern culture has unfolded over time and in response to a variety of events and social forces not just as the opposite of the North but also in the larger context of the Atlantic World Longer thematic essays cover major eras and events such as early settlement slave culture Reconstruction the New Deal and the rise of the New South Brief topical entries cover individuals including figures from the Civil War the civil rights movement and twentieth century politics and organizations such as the Southern Christian Leadership Conference Daughters of the Confederacy and Citizens Councils among others Together these essays offer a sweeping reference to the rich history of the region *The Prague Spring and the Warsaw Pact Invasion of Czechoslovakia in 1968* Günter Bischof, Stefan Karner, Peter

Ruggenthaler,2010-01-01 On August 20 1968 tens of thousands of Soviet and East European ground and air forces moved into Czechoslovakia and occupied the country in an attempt to end the Prague Spring reforms and restore an orthodox Communist regime The leader of the Soviet Communist Party Leonid Brezhnev was initially reluctant to use military force and tried to pressure his counterpart in Czechoslovakia Alexander Dubcek to crack down But during the summer of 1968 after several months of careful deliberations the Soviet Politburo finally decide that military force was the only option left A large invading force of Soviet Polish Hungarian and Bulgarian troops received final orders to move into Czechoslovakia within 24 hours they had established complete military control of Czechoslovakia bringing an end to hopes for socialism with a human face Dubcek and most of the other Czechoslovak reformers were temporarily restored to power but their role from late August 1968 through April 1969 was to reverse many of the reforms that had been adopted In April 1969 Dubcek was forced to step down for good bringing a final end to the Prague Spring Soviet leaders justified the invasion of Czechoslovakia by claiming that the fate of any socialist country is the common affair of all socialist countries and that the Soviet Union had both a right and a sacred duty to defend socialism in Czechoslovakia The invasion caused some divisions within the Communist world but overall the use of large scale force proved remarkably successful in achieving Soviet goals The United States and its NATO allies protested but refrained from direct military action and covert operations to counter the Soviet led incursion into Czechoslovakia The essays of a dozen leading European and American Cold War historians analyze this turning point in the Cold War in light of new documentary evidence from the archives of two dozen countries and explain what happened behind the scenes They also reassess the weak response of the United S **Family Values** Isabel

Heinemann,2023-10-04 Clashes over the American family and its values have always implicitly or explicitly addressed issues of gender and highlighted the significance of present and future families to American society This is the insight underpinning Isabel Heinemann s groundbreaking study which traces over the course of the twentieth century debates on the family and its role the relationship between the individual and society and individual decision making rights as well as their denial or curtailment Unpacking these issues in a vivid and innovative analysis the book recounts the prehistory of current conflicts over the family and gender while illuminating the relationship between social change normative shifts and the counter movements spawned in response to them Lyndon Johnson Remembered Thomas W. Cowger, Sherwin Markman,2003 In Lyndon Johnson Remembered An Intimate Portrait of a Presidency Thomas W Cowger and Sherwin J Markman bring together essays by Johnson administration insiders reflecting on his personality domestic agenda and legacy The Political Blame Game in American Democracy Mark Hickson III, Larry Powell,2017-10-06 The Political Blame Game in American Democracy looks at the forces that have developed over the past fifty plus years and created a dysfunctional political system in the United States It argues that the current level of partisan polarization is actually the culmination of a number of forces at work during the past few decades These include a perception by each party that the other is using unfair political tactics the

subsequent creation of a culture of blame with each party blaming the other for the dysfunction a decline in political norms leading to childlike behavior by politicians and political candidates and a culture of payback in which the opposition argues that their opponents are responsible for the decline These four factors culminated in the 2016 presidential campaign where they were exemplified by Donald Trump and have continued to have a significant ongoing impact on the political landscape of the United States

LBJ: The Mastermind of the JFK Assassination Phillip F. Nelson, 2013-07-01 LBJ aims to prove that Vice President Johnson played an active role in the assassination of President Kennedy and that he began planning his takeover of the U S presidency even before being named the vice presidential nominee in 1960 Lyndon B Johnson s flawed personality and character traits formed as a child grew unchecked for the rest of his life as he suffered severe bouts of manic depressive illness He successfully hid this disorder from the public as he bartered stole and finessed his way through the corridors of power on Capitol Hill though it s recorded that some of his aides knew of his struggle with bipolar disorder After years of researching Johnson and the JFK assassination Phillip F Nelson conclusively shows that LBJ had an active role in JFK s assassination and he includes newly uncovered photographic evidence proving that Johnson knew when and where Kennedy s assassination would take place Nelson s careful and meticulous research has led him to uncover secrets from one of the greatest unsolved mysteries in our country s history

Gods in America Charles L. Cohen, Ronald L. Numbers, 2013-07-29 Religious pluralism has characterized America almost from its seventeenth century inception but the past half century or so has witnessed wholesale changes in the religious landscape including a proliferation of new spiritualities the emergence of widespread adherence to Asian traditions and an evangelical Christian resurgence These recent phenomena important in themselves as indices of cultural change are also both causes and contributions to one of the most remarked upon and seemingly anomalous characteristics of the modern United States its widespread religiosity Compared to its role in the world s other leading powers religion in the United States is deeply woven into the fabric of civil and cultural life At the same time religion has from the 1600s on never meant a single denominational or confessional tradition and the variety of American religious experience has only become more diverse over the past fifty years Gods in America brings together leading scholars from a variety of disciplines to explain the historical roots of these phenomena and assess their impact on modern American society

America's Urban History Lisa Krissoff Boehm, Steven H. Corey, 2023-07-26 In this second edition America s Urban History now includes contemporary analysis of race immigration and cities under the Trump administration and has been fully updated with new scholarship on early urbanization mass incarceration and cities the Great Society the diversification of the suburbs and environmental justice The United States is one of the most heavily urbanized places in the world and its urban history is essential to understanding the fundamental narrative of American history This book is an accessible overview of the history of American cities including Indigenous settlements colonial America the American West the postwar metropolis and the present day landscape of suburban sprawl and an urbanized population It examines the ways in which

urbanization is connected to divisions of society along the lines of race class and gender but it also studies how cities have been sources of opportunity hope and success for individuals and the nation Images maps tables and a guide to further reading provide engaging accompaniment to illustrate key concepts and themes Spanning centuries of America s urban past this book s depth and insight make it an ideal text for students and scholars in urban studies and American history

Presidential Framing in the 21st Century News Media Jennifer Rose Hopper,2017-01-20 The Patient Protection and Affordable Care Act came into existence at a time when the president s ability to lead the public was in question political polarization had intensified and the media environment appeared ever more fragmented fast moving and resistant to control Under such circumstances how can contemporary American presidents such as Barack Obama build and maintain support for themselves and their policies particularly as controversies arise Using case studies of major contests over how key elements of the Affordable Care Act would be framed and analysis of how those frames fared in influential and popular U S news sources Hopper examines the conditions under which the president can effectively shape public debates today She argues that despite the difficult political and communications context the president retains substantial advantages in framing major controversial issues for the media and the public These presidential framing advantages are conditional however and Hopper explores the factors that help make presidential frames more or less likely to gain hold in the news today More so than in the past an element of unpredictability in this news environment means that in pursuing favorable messaging the president and his surrogates may also generate some unintentional consequences in how issues are portrayed to the public Presidential frames can evolve with unfolding events to take on new meanings and applications a process facilitated alternately by supporters opponents and media actors Still media figures and political opponents remain largely reactive to presidential communications even as some seek to publicize and exploit weaknesses in the administration s narratives A close look at these recent cases casts new light on the scholarly debate surrounding the president s ability to persuasively communicate and challenges conventional wisdom that the 21st century media largely present an unmanageable news environment for the White House Presidential Framing in the 21st Century News Media engages with current events in American politics focusing on the Obama Administration and the Affordable Care Act while also reflecting upon the state of the American presidency the news media and the public in ways that have substantial implications for all of these actors not merely in the present but into the future making it a compelling read for scholars of Political Science Media Studies Communication Studies and Public Policy

Congress A to Z Charles McCutcheon,2022-06 Explains key aspects of the national legislature its organization processes personalities major legislation and history Includes entries covering congressional events of recent years

Presidents and the American Environment Otis L. Graham, Jr.,2015-06-23 In 1891 Benjamin Harrison the first president engaged in conservation had to have this new area of public policy explained to him by members of the Boone and Crockett Club This didn t take long as he was only asked to sign a few papers setting aside federal timberland But from such

small moments great social movements grow and the course of natural resource protection policy through 22 presidents has altered Americans relationship to the natural world in then almost unimaginable ways Presidents and the American Environment charts this course Exploring the ways in which every president from Harrison to Obama has engaged the expanding agenda of the Nature protection impulse the book offers a clear close up view of the shifting and nation shaping mosaic of both green and brown policy directions over more than a century While the history of conservation generally focuses on the work of intellectuals such as Muir Leopold and Carson such efforts could only succeed or fail on a large scale with the involvement of the government and it is this side of the story that Presidents and the American Environment tells On the one hand we find a ready environmental engagement as in Theodore Roosevelt s establishment of Pelican Island bird refuge upon being informed that the Constitution did not explicitly forbid it On the other hand we have leaders like Calvin Coolidge playing hide and seek games in the Oval Office while ignoring reports of coastal industrial pollution The book moves from early cautious sponsors of the idea of preserving public lands to crusaders like Theodore Roosevelt from the environmental implications of the New Deal to the politics of pollution in the boom times of the forties and fifties from the emergence of environmentalism to recent presidential detractors of the cause From Harrison s act which established the American system of National Forests to Barack Obama s efforts on curbing climate change presidents have mattered as they resisted or used the ever changing tools and objectives of environmentalism In fact with a near even split between browns and greens over those 22 administrations the role of president has often been decisive How and how much distinguished historian Otis L Graham Jr describes in in full for the first time in this important contribution to American environmental history

American Caesars Nigel Hamilton,2010-09-07 An insightful portrait of U S presidents from Franklin D Roosevelt to George W Bush Hamilton examines their unique characters their paths to Pennsylvania Avenue their effectiveness as global leaders and their lessons in governance both good and bad

In Sickness and In Power David Owen,2022-03-17 In *Sickness and In Power* looks at illness in heads of government business and military leaders between 1901 and 2007 It considers how illness and therapy both physical and mental affect the decision making of heads of government engendering folly in the sense of foolishness stupidity or rashness Owen is particularly interested in leaders who were not ill in the conventional sense whose cognitive faculties functioned well but who developed a hubristic syndrome that powerfully affected their performance and their actions As we learn here they suffer a loss of capacity and become excessively self confident and contemptuous of advice that runs counter to what they believe or sometimes of any advice at all Long fascinated with the inter relationship between politics and medicine David Owen uses his deep knowledge of both to look at sickness in political leaders Owen expertly scrutinises such diverse political personalities as Sir Anthony Eden at the time of Suez in 1956 John F Kennedy and the Bay of Pigs fiasco in 1961 the last Shah of Iran and President Mitterrand of France who suffered from prostate cancer The author also devotes a chapter to the hubristic behaviour and relationship between

President Bush and Prime Minister Blair The book ends by outlining some of the safeguards that society needs to address as a consequence of illness in heads of government Revised and Updated Edition for 2016 including a new chapter entitled Hubris Syndrome in the Military

Whispering the Secrets of Language: An Mental Journey through **Lyndon B Johnson Portrait Of A President**

In a digitally-driven earth where monitors reign great and quick communication drowns out the subtleties of language, the profound strategies and mental subtleties concealed within phrases usually move unheard.
