narratives and illegitimacy The case studies which Maclean examines fall into four groups those which stress alternative family structures and female genealogies those which pair female illegitimacy and revolution those which question the deliberate refusal of the name of the father by the legitimate those which study the revenge of genius on the society which excludes it Skilfully interweaving feminist theory French literary criticism social and cultural history deconstruction and psychoanalytic theory Maclean traces the place of these personal narratives of illegitimacy in history and their use in theory from Elizabeth I to Freud Sartre and Derrida The Name of the Mother will be of vital interest and importance to any student of critical theory feminist philosophy French or cultural studies *Paranoia: A Study in Diagnosis* A. Agassi,2012-12-06 There is a curious parallel between the philosophy of science and psychiatric theory The so called demarcation question which has exercised philosophers of science over the last decades posed the problem of distinguishing science proper from non science in particular from metaphysics from pseudo science from the non rational or irrational or from the untestable or the empirically meaningless In psychiatric theory the demarcation question appears as a problem of distinguishing the sane from the insane the well from the mentally ill The parallelism is interesting when the criteria for what fails to be scientific are seen to be congruent with the criteria which define those psychoses which are marked by cognitive failure In this book Dr Yehuda Fried and Professor Joseph Agassi a practicing psychiatrist and a philosopher of science respectively focus on an extreme case of psychosis paranoia as an essentially intellectual disorder that is as one in which there is a systematic and chronic delusion which is sustained by logical means They write Paranoia is an extreme case by the very fact that paranoia is by definition a quirk of the intellectual apparatus a logical delusion p 2 **Current Catalog** National Library of Medicine (U.S.),1993 First multi year cumulation covers six years 1965 70 1 Homme Et 3 Siecles, American Paranoia ,2007 *Psychopathologie* Michel Delbrouck,2019-09-16 Indispensable au clinicien comme au th rapeute cet

work within the American avant garde of the 1970s European anti naturalism feminism and the post modern aesthetics While offering an in depth analysis of her multi faceted film style it also stresses the social and ethical dimension of her work especially as regards her representation of marginal groups and her exploration of exilic and diasporic identities Particular attention is given to the inscription of the Holocaust and of Jewish memory in her films **Toxicomanie et devenir de**

ou moins grand sur l'évolution psychique d'un individu. Il n'est pas rare que dans une thérapie son vocation interprétative d'enclenche d'abord une prise de conscience et ensuite le dépasement de cette problématique et de ses séquelles. Cependant un avant-propos précise galement les limites d'une telle analyse. Loin de tout jargon académique le texte se veut avant tout un récit permettant aux lecteurs une identification passant par un de ces héros et partant de là peut-être une meilleure connaissance d'eux-mêmes. Chaque chapitre consacre telle ou telle constellation fraternelle débouchant sur une brève synthèse et une série de propositions destinées avant tout aux futurs parents qui se veulent éclairés. L'ouvrage se termine par un Plaidoyer pour la fraternité passant en revue les acquis d'une expérience fraternelle quand tout se passe bien.

The History and Theory of Fetishism Alfonso Maurizio Iacono, 2016-04-08 The History and Theory of Fetishism the expanded version of Iacono's enduring classic *Teoría del feticismo* and available for the first time in English aims to provide the historical context necessary to understanding the concept of fetishism and offers an overview of the ideologies, prejudices and critical senses that shaped the Western observer's view of otherness and of his own world. Iacono examines the moment when the Western observer turned his colonizing and evangelizing gaze to continents such as Africa and the Americas while attempting to simultaneously destabilize and look at his own world critically.

34m2 Louise Mey, 2025-03-05 Il y a deux heures ou peut-être mille ans Juliette s'est réveillée. Elle a effectué les gestes qu'elle répète tous les jours : couler le souffle de sa fille de huit mois, la prendre dans ses bras, chauffer le biberon et attendre. Clare, la voisine qui toque chaque matin, Juliette ouvre la porte, seulement ce n'est pas Clare, c'est lui. Pour les amateurs de roman noir, Louise Mey est désormais une référence incontournable.

Causette : Introduction à la Poésie Orale Paul Zumthor, 1990 In his comprehensive treatment Zumthor, emeritus U of Montreal, discusses general issues concerning oral poetry from primary to mechanized orality, including the setting of text to music, the forms of oral poetry, the epic in the West, Africa and other parts of the globe, the oral poet's text performance in its manifold styles across the world, roles played in oral poetry and oral ritual actions from archaic times to the present, Homer to Bob Dylan. De Cervantes à Dalí Ana María Leyra, 2006 *Children of Lucifer* Ruben van Luijk, 2016-05-02 If we are to believe sensationalist media coverage, Satanism is at its most benign the purview of people who dress in black, adorn themselves with skull and pentagram paraphernalia and listen to heavy metal. At its most sinister, its adherents are worshippers of evil incarnate and engage in violent and perverse secret rituals, the details of which mainstream society imagines with a fascination verging on the obscene. *Children of Lucifer* debunks these facile characterizations by exploring the historical origins of modern Satanism. Ruben van Luijk traces the movement's development from a concept invented by a Christian church eager to demonize its internal and external competitors to a positive, anti-religious identity embraced by various groups in the modern West. Van Luijk offers a comprehensive intellectual history of this long and unpredictable trajectory. This story involves Romantic poets, radical anarchists, eccentric esotericists, Decadent writers and schismatic

exorcists among others and culminates in the establishment of the Church of Satan by carnival entertainer Anton Szandor LaVey Yet it is more than a collection of colorful characters and unlikely historical episodes The emergence of new attitudes toward Satan proves to be intimately linked to the ideological struggle for emancipation that transformed the West and is epitomized by the American and French Revolutions It is also closely connected to secularization that other exceptional historical process which saw Western culture spontaneously renounce its traditional gods and enter into a self imposed state of religious indecision Children of Lucifer makes the case that the emergence of Satanism presents a shadow history of the evolution of modern civilization as we know it Offering the most comprehensive account of this history yet written van Luijk proves that in the case of Satanism the facts are much more interesting than the fiction *Figurations of Exile in Hitchcock and Nabokov* Barbara Straumann, 2008-12-16 This book makes an important contribution to cultural analysis by opening up the work of two canonical authors to issues of exile and migration Barbara Straumann's close reading of selected films and literary texts focuses on *Speak Memory* *Lolita* *The Real Life of Sebastian Knight* *Suspicion* *North by Northwest* and *Shadow of a Doubt* and explores the connections between language imagination and exile Invoking psychoanalysis as the principal discourse of dislocation the book not only uses concepts such as screen memory family romance fantasy and the uncanny as hermeneutic foils it also argues that in their own ways the arch parodists Hitchcock and Nabokov are remarkably in tune with the images and tropes developed by Freud
