Maastricht Model A Canadian Perspective On The European Model:

The Maastricht Model Peter M. Leslie, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, Queen's University (Kingston, Ont.). School of Policy Studies, 1996 Leslie provides an accessible and clear description of the complex governing machinery of the European Union as created by the Maastricht Treaty of 1993 underlying dynamics of European integration and applicability of the model to Canada

The Maastricht Model Peter M. Leslie, Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations, 1995

The Secession of Quebec and the Future of Canada Robert Andrew Young, 1998 Based on the premises that Quebecers vote for independence in a referendum and Canada accepts this result *The Secession of Quebec and the Future of Canada* is a timely examination of the implications of separation for Quebec and the rest of Canada

Struggle for Quebec Robert Young, 1999-03-30 In *The Struggle for Quebec* Young updates this work treating new developments and making his analysis accessible to a wider audience He describes the prelude to the 1995 referendum campaign as well as the history of the campaign itself analysing the arguments deployed by federalists and sovereigntists and seeking to explain why the Yes forces gained ground in 1995 and almost won He also suggests what would have happened if the Yes side had actually won the 1995 referendum Young then assesses the fallout of the referendum its impact on the attitudes and behaviour of the public elites and foreign governments and describes how the sovereigntists and federalists are manoeuvring around the prospect of another referendum He considers Lucien Bouchard's policies as well as Ottawa's attempts both to accommodate Quebecers' desires for change Plan A and to demonstrate how difficult secession would be Plan B and analyses the 1997 federal election and the Calgary accord All of this lays the groundwork for prediction and Young provides a set of scenarios about what would happen after a Yes vote in a future referendum on sovereignty *The Struggle for Quebec* is a current thorough and lively book which is indispensable reading for all Canadians concerned with their future

The EU in the Global Political Economy Finn Laursen, 2009 The EU has become an important international actor Its internal policies often have repercussions far beyond its borders It is also increasingly becoming a proactive global actor defending its interests and projecting its norms and values in both bilateral and multilateral external relations This volume has a special focus on external economic relations and includes chapters on the Euro trade policy and competition policy as well as on specific bilateral relationships The section on relations with industrialized countries deals with the United States Canada Russia Japan and China while the section on relations with developing countries has chapters on administrative reform environmental cooperation Cuba Central America and Iran The book thus gives an up to date overview of important aspects of the EU's external relations With a focus on political economy it traces the continuous interplay of economics and politics that has characterized the EU's development of a fully fledged foreign policy What emerges is a picture of a European Union that is better equipped institutionally to deal with economic rather than political issues

European Integration after Amsterdam Karlheinz Neunreither, Antje

Wiener,2000-03-16 European integration is at a turning point with implications for all member states and their citizens The Amsterdam treaty marks a shift towards constitutional issues Integration has involved a continually evolving process of constitution making A group of leading scholars argue that the shift towards constitutional issues is rooted not only in the issues on the European level but also in shifting models of political and economic organisation in the member states Paradoxically however this push towards integration is accompanied by a number of institutional changes and political decisions which challenge the picture of on going integration and indicate a shift towards a new pluralism in the Euro polity The contributors address questions such as what are the likely effects of the Amsterdam treaty changes in comparison with Maastricht how will these changes effect the complex balance among the governing institutions of the EU and what will be the implications for the lingering quest for democracy *Canada* Patrick C. Fafard,Douglas Mitchell Brown,1996 Part of an annual series of essays surveying the state of the Canadian federation the 1996 volume of Canada The State of the Federation explores major developments and new trends in Canadian federalism and intergovernmental relations in 1996

Market Rules Douglas Brown,2003 Federalism is about dividing and sharing government often in complex ways that involve some tasks being done jointly Are federal systems capable of effective joint policy making Is this possible in the fast moving context of globalization In Market Rules Douglas Brown examines these questions through a comparative study of Australia and Canada looking at recent major reforms to the economic union in the two federations and comparing them with the evolving European Union EU Brown argues that internal barriers to trade and competition in these countries were significant obstacles to competition in the global economy and shows that the old market rules were rooted in longstanding political and regional compromises He describes the process of detailed and difficult intergovernmental collaboration required for the EU and now Canada and Australia to produce new market rules The resulting reforms created new regimes that provide deeper and broader national economic integration in Canada and Australia than in the EU The new rules entrench neo liberal values retaining some room for diversity and flexibility for equity goals Built on a careful analysis of the differences and similarities in political economy constitutional design federal culture and history of intergovernmental relations in Canada and Australia Market Rules provides fresh evidence that federal states can be strong and autonomous in the global society while underscoring the conditions for effective collaboration that make this sustainable Rich in detail broad in scope Market Rules makes a significant contribution to knowledge about federalism and economic policy making in the era of globalization Macroeconometric Models and European Monetary Union Ullrich Heilemann,Stephen G. Hall,Peter Pauly,2004-02-02 This volume contains the contributions of a conference dealing with the consequences of the European Monetary Union for the macroeconometric modelling of the Euro area which took place in Essen in 2000 At the end of the conference the participants were convinced that the discussions including a great variety of theoretical methodical and factual aspects from the producers as well as the consumers perspective will not fail to have a certain impact on the future

development of macroeconomic modelling in the Euro area Once more it became clear however that an ideal way to a solution of the problems is still not in sight The future development will be characterized by a plurality of approaches and models Thus trends continue which have had a more or less strong durable or temporary influence on the model landscape since the emergence of the monetarist revolution the rational expectations or the real business cycle models We are still at the beginning of the theoretical and empirical exploration of the macroeconomic development of the Euro area it is not always clearly perceptible what is transitory and what is permanent and this openness should facilitate the reception of the experiences and results which have been presented The idea for this event was developed in the course of the Project LINK One of the highlights of the conference was the participation of the nobel prize winner Professor Dr Lawrence Klein pioneer and Nestor of macroeconomic modelling who as his contribution shows is following up the creation of the European Monetary Union with critical interest

Constitutional Law of Canada: Federalism, Aboriginal Peoples, procedure and remedies Joseph Eliot Magnet, 2001 Globalization, Governance and Identity Guy Lachapelle, John E. Trent, 2000 The International Political Science Association IPSA attempted to seek theoretical explanations for the established and emerging forms of political and economic partnerships This is the result of these efforts following a roundtable organized by IPSA in Quebec City in 1998

Theories of Federalism D. Karmis, W. Norman, 2016-04-30 This project pulls together classic and modern readings and essays that explore theories of federalism Spanning the Seventeenth through Twenty first centuries of European U S and Canadian thinkers this attempts to be a comprehensive reader for students in political theory The emphasis throughout is on the normative argument the advantages or disadvantages of federal and confederal arrangements compared to unitary states and on the relative merits of various proposals to improve particular federations or confederations These also draw on the full range of political science subfields from political sociology political economy and constitutional studies to comparative politics and international relations There are also readings both contemporary and historical that attempt to clarify conceptual issues

The Nation State in a Global/information Era Thomas J. Courchene, John Deutsch Institute for the Study of Economic Policy, 1997 The Nation State in a Global Information Era the fifth volume of the Bell Canada Papers on Economic and Public Policy examines the nature and role of the nation state in an era of globalization and information The essays represent a diverse set of views on the relationship between states and markets domestically and internationally the relevance of the nation state vis vis both international regimes and sub national regions and the nature of the relationship between states and their citizens

A Bibliography on Foreign and Comparative Law, 1955 *Europe at the End of the 90s* Walter Schütze, Jon Bingen, 1996 Comparing Federal Systems Ronald Lampman Watts, 2008 Countries studied include the United States Switzerland Australia Austria and Germany as examples of developed industrial societies India and Malaysia as examples of multilingual and multicultural federations Belgium and Spain as examples of emerging federal systems that illustrate bicomunal and asymmetrical approaches and Czechoslovakia

and Pakistan as examples of bicomunal federations that have failed Watts compares the interaction of social diversity and political institutions distribution of powers and finances processes contributing to flexibility or rigidity in adjustment extent of internal symmetry or asymmetry degree of centralization and decentralization character of representation in federal institutions role of constitutions and courts provisions for constitutional rights and secession and pathology in federations

Membership Directory European Community Studies Association,1997 *The Spending Power in Federal Systems* Ronald Lampman Watts,Queen's University (Kingston, Ont.). Institute of Intergovernmental Relations,Queen's University (Kingston, Ont.). School of Policy Studies,1999 Federalism and Civil Societies Jutta Kramer,Hans-Peter Schneider,1999

Trans-Atlantic Partners Evan H. Potter,1999-11-19 The study concentrates on changes in Canada s approach to European integration after the watershed of 1989 examining the 1990 EC Canada Transatlantic Declaration and the emergence of a Single European Market in 1993 Finally it outlines the choices available to Canadian policy makers in the late 1990s as they sought to widen relations with the EU by proposing a trans Atlantic free trade zone This book details important stages in the evolution of Canada EU economic political and security relations a bilateral relationship that is destined to grow closer in the years ahead
