Alter, 1996-05-22 a thoughtful and important treatment of the international tensions of the period as they were embodied in theatre practice It is the only book of its kind on the subject and a valuable source of production information Theatre Journal an excellent discussion of the aesthetics of theater Choice The escalation of the war in Vietnam in the mid 1960s unleashed worldwide protest Playwrights grappled with the complexities of post imperialist politics and with the problems of creating effective political theatre in the television age The ephemeral theatre these writers created today little known and rarely studied provides an important window on a complex moment in culture and history      *We Few* Nick Brokhausen, 2018-04-03 A Green Beret s gripping memoir of American Special Forces in Southeast Asia during the Vietnam War In 1970 on his second tour to Vietnam Nick Brokhausen served in Recon Team Habu CCN Officially it was known as the Studies and Observations group In fact this Special Forces squad which Brokhausen calls an unwashed profane ribald joyously alive fraternity undertook some of the most dangerous and suicidal reconnaissance missions ever in the enemy controlled territory of Cambodia and Laos But they didn t infiltrate the jungles alone They fought alongside the Montagnards oppressed minorities from the mountain highlands trained by the US military in guerilla tactics armed accustomed to the wild and fully engaged in a war against the North Vietnamese Together this small unit formed the backbone of ground reconnaissance in the Republic of Vietnam racking up medals for valor but at a terrible cost In colorful military jargon laced prose leavened by gallows humor Brokhausen pulls few punches describing what it was like to navigate remote jungle terrain under the constant threat of enemy fire A smartly written insider s view of one rarely seen Vietnam War battleground Booklist An exceptionally raw look at the Vietnam War just at the apex of its unpopularity This battle scarred memoir is an excellent tribute to the generation that fought laughed and died in Southeast Asia New York Journal of Books      Moult and Ageing of European Passerines Lukas Jenni, Raffael Winkler, 2020-01-23 THE BTO BRITISH BIRDS BOOK OF THE YEAR 2020 A brand new completely revised second edition of Jenni and Winkler s classic guide updated and improved for the next generation of ringers and professional ornithologists The

moult strategies of birds exert an important influence on their behaviour and energetics and also provide the basis of valuable tools for study. A proper understanding of how feathers are replaced and the precise differences in the appearance of the various feather generations can allow ringers, scientists and keen birdwatchers to age individual birds and to distinguish between first year and adult birds. Understanding the moult strategy of a species also provides insights into its general and migration ecology and allows detailed studies of many aspects of its population dynamics. Lukas Jenni and Raffael Winkler have studied moult across a wide range of bird species for decades and in this book bring their observations together to produce a valuable reference for both professional ornithologists and bird ringers. This second edition has been completely updated and revised with 16 new species accounts added bringing the total covered to 74. The first part of the book provides an up to date summary of the moult strategies and moult sequences of European passerines and discusses the ecological consequences of moult. Throughout the book the authors draw on the enormous amount of data on moult that they have collected over 40 years of study and which combined with data from the literature allow them to present a thorough synthesis of the subject. The second part is of particular value to ringers. Following a general introduction to ageing, detailed moult profiles are given for 74 European passerine species illustrating all of the major moult strategies and including useful summary statistics, schematic diagrams of the extent of moult and indications of the variation within each species. The main moult strategies are illustrated with schematic graphs and the moult strategies and extent of moult of every European passerine species are summarised in tabular form. The crowning feature of this book is its collection of more than 600 full colour photographs of extended wings which show the entire range of moult patterns and plumage ageing criteria. An appendix gives supplementary information on ageing birds by the degree of pneumatisation of the skull. Large in format, packed with high quality photography and lavish in production specifications, this second edition of *Moult and Ageing in European Passerines* is both a major reference for ornithologists, zoologists, bird ringers and dedicated birdwatchers and a work of great scholarship and beauty.
