**Macedonio Fernández: Between Literature, Philosophy, and the Avant-Garde** Federico Fridman,2022-01-13 At Macedonio Fernandez's funeral in 1952 Jorge Luis Borges delivered the following elegy In those years I imitated him to the point of transcription to the point of devout and passionate plagiarism I felt Macedonio is metaphysics Macedonio is literature This is the first book available in English that collects essays by the world's leading scholars on Macedonio Fernandez one of Borges's most important mentors and a still enigmatic thinker of the early 20th century Macedonio's philosophy metaphysics ethics and experimental writing laid the foundations for Borges's own theoretical and literary matrix Nonetheless Borges helped shape a myth of Macedonio as a thinker who could not translate his oratorical geniality into written intelligibility So despite the centrality of Macedonio to Borges's thought his work has remained almost unknown to English speaking readers Contributors to this volume demonstrate however that this myth reduces the complexities of Macedonio's life and creative process as each chapter shines new light on his texts Conceived as both a companion for new readers of Macedonio's writings and an invitation for specialists to revisit his work through new perspectives essays in this volume provide extensive background and bibliographical references as well as English translations of Macedonio's original texts This collection seeks to serve as a catalyst for the continued discovery and rediscovery of Macedonio Fernandez's texts and the ways they might help us to rediscover the singularities of our own present moment      *Macedonio Fernandez : la Escritura en Objeto* G.
