Investigative Journalism Hugo de Burgh, 2013-01-11 Investigative Journalism is a critical and reflective introduction to the traditions and practices of investigative journalism Beginning with a historical survey the authors explain how investigative journalism should be understood within the framework of the mass media They discuss how it relates to the legal system the place of ethics in investigations and the influence of new technologies on journalistic practices

Broadcasting Pluralism and Diversity Lesley Hitchens, 2006-10-31 Broadcasting Pluralism and Diversity is a study of the policy and regulatory measures relating to the promotion of media diversity in three jurisdictions the United Kingdom the United States and Australia A central focus of the book is regulation of media ownership and control and taking an historical approach the book argues that early policy and regulatory decisions continue to have a significant influence on current reforms Whilst policy and reform debates focus on ownership and control measures the book also argues that such measures can not be considered in isolation from other regulatory instruments and that a holistic regulatory approach is required As such content regulation and competition regulation are also considered Underlying the study is the contention that much of the policy informing pluralism and diversity regulation although making reference to the importance of the media s role in the democratic process has also been skewed by a futile focus on the different regulatory treatment of

the press and broadcasting which is adversely influencing current policy debates The book argues that a different approach using the public sphere concept needs to be adopted and used as a measure against which regulatory reform in the changing media environment can be assessed *Perspectives on Radio and Television* F. Leslie Smith, David H. Ostroff, John W. Wright, 2023-05-31 This textbook describes the field of radio and television in the United States presents the material in a manner the reader can grasp and enjoy and makes the book useful for the classroom teacher Written for adaptation to individual teaching situations the book is divided by subject matter into logical chapter divisions that can be assigned in the order appropriate for specific course students Each chapter stands by itself but the book is also an integrated whole It is easy to understand at first reading by beginning radio television majors or nonmajor elective students alike To give readers a complete picture of the field subjects such as ethics careers and rivals to U S commercial radio and television are included

Trading the Genome Bronwyn Parry, 2004-09-29 In a groundbreaking work that draws on anthropology history philosophy business and law Parry links firsthand knowledge of the operation of the bioprospecting industry to a sophisticated analysis of broader economic regulatory and technological transformations to reveal the complex economic and political dynamics that underpin the new global trade in bio information

Media Freedom as a Fundamental Right Jan Oster, 2015-05-28 Jan Oster develops a coherent theoretical and doctrinal framework for the scope content and limitations of media freedom

Untangling the Web of Hate Brett A. Barnett, 2007 The Internet has provided hate groups with a relatively easy and cost effective way to make their rhetoric of hatred available to an audience of millions Realizing the Internet s communication potential hate groups have posted an increasing number of online hate sites websites containing content that disparages a particular class of people As the number of Internet hate sites has increased the U S government has been called upon to ban these controversial websites This comprehensive study explores whether there is a First Amendment basis for regulating U S based hate sites It identifies the various First Amendment tests developed by the federal courts for

assessing the constitutionality of both non mass mediated hateful speech and Internet content then examines a sample of U S based hate sites to ascertain whether they contain constitutionally proscribable content under those standards The study is unique in that it examines websites maintained by several different kinds of U S based hate groups Ku Klux Klan neo Nazi racist Skinhead Christian Identity Black separatist neo Confederate White conservative and pro Jewish Untangling the Web of Hate Are Online Hate Sites Deserving of First Amendment Protection is a valuable resource for anyone seeking to learn more about the content and constitutionality of Internet hate sites European and International Media Law Perry Keller,2011-05-12 Over the past half century western democracies have lead efforts to entrench the economic and political values of liberal democracy into the foundations of European and international public order As this book details the relationship between the media and the state has been at the heart of those efforts In that relationship often framed in constitutional principles the liberal democratic state has celebrated the liberty to publish information and entertainment content while also forcefully setting the limits for harmful or offensive expression It is thus a relationship rooted in the state s need for security authority and legitimacy as much as liberalism s powerful arguments for economic and political freedom In Europe this long running endeavour has yielded a market based liberal democratic regional order that has profound consequences for media law and policy in the member states This book examines the economic and human rights aspects of European media law which is not only comparatively coherent but also increasingly restrictive rejecting alternatives that are well within the traditions of liberalism Parallel efforts in the international sphere have been markedly less successful In international media law the division between trade and human rights remains largely unabridged and in the latter field liberal democratic concepts of free speech are influential but rarely decisive In the international sphere states are moreover quick to assert their rights to autonomy Nonetheless the current communications revolution has overturned fundamental assumptions about the media and the state around the world eroding the boundaries between domestic and foreign media as well as mass and personal communication European and International Media Law sets legal and policy developments in the context of this fast changing globalized media and communications sector **Handbook of New Media** Leah A Lievrouw,Sonia M. Livingstone,2006-01-17 Thoroughly revised and updated this Student Edition of the successful Handbook of New Media has been abridged to showcase the best of the hardback edition This Handbook sets out boundaries of new media research and scholarship and provides a definitive statement of the current state of the art of the field Covering major problem areas of research the Handbook of New Media includes an introductory essay by the editors and a concluding essay by Ron Rice Each chapter written by an internationally renowned scholar provides a review of the most significant social research findings and insights **Journalism Ethics and Regulation** Chris Frost,2014-05-12 Technology and the democratising of news gathering continue to change traditional journalistic practice making the path through ethical and regulatory frameworks tough to negotiate As high profile celebrity cases such as Max Mosley s vividly illustrate conflicts

between the law ethics and the public's right and desire to be informed are not easily resolved This comprehensive volume addresses the ethical considerations dilemmas and challenges the practising journalist faces each minute every day Providing context and practical advice it explores an area of crucial importance for the 21st century thoroughly equipping the reader with the information and tools to negotiate this challenging area knowledgeably practically and responsibly This book has been written for students and trainee journalists working journalists and editors and indeed for any student of the media

Law and the Media Tom Crone, 2013-07-31 Tom Crone's classic text has been thoroughly revised by an impressive team of legal experts It provides an essential source of reference for the key legal issues encountered by those who work in the media such as journalists editors and producers as well as media lawyers Topics covered include Protection of Reputation Copyright and Rights Clearance New Media Breach of Confidence and Privacy The Data Protection Act 1998 Reporting Restrictions Contempt of Court
The Taming of the Press Elliot Rothenberg, 1999-09-30 Cohen v Cowles Media Company changed the course of First Amendment media law After a quarter century of decisions interpreting the First Amendment to give media organizations preferential treatment the Supreme Court ruled in 1991 that the Constitution did not give the press immunity from the laws ordinary citizens must obey The American Bar Association quarterly Communications Lawyer Spring 1998 calls Cohen a media law hall of fame case The author who was the plaintiff's sole attorney in all phases of the case provides detailed analysis of the complexities of constitutional litigation and the strategic and tactical considerations involved in formulating constitutional arguments in the Supreme Court and other courts This is a classic David v Goliath story of a lone lawyer who worked out of his basement taking on media and legal giants and winning Scores of attorneys from major law firms around the country represented the Minneapolis and St Paul newspaper defendants and their allies in court in a case where experts were confident that the press could never lose The Cohen decision has revolutionized the law regarding accountability for wrongdoing by media organizations and many federal and state courts have relied upon the Cohen case in holding media organizations liable for their actions This lively account will interest not only legal and media scholars but all readers interested in correcting injustice
Routledge Handbook of Media Law Monroe Price, Stefaan Verhulst, Libby Morgan, 2013-01-04 Featuring specially commissioned chapters from experts in the field of media and communications law this book provides an authoritative survey of media law from a comparative perspective The handbook does not simply offer a synopsis of the state of affairs in media law jurisprudence rather it provides a better understanding of the forces that generate media rules norms and standards against the background of major transformations in the way information is mediated as a result of democratization economic development cultural change globalization and technological innovation The book addresses a range of issues including Media Law and Evolving Concepts of Democracy Network neutrality and traffic management Public Service Broadcasting in Europe Interception of Communication and Surveillance in Russia State secrets leaks and the media A variety of rule making institutions are

considered including administrative and judicial entities within and outside government but also entities such as associations and corporations that generate binding rules The book assesses the emerging role of supranational economic and political groupings as well as non Western models such as China and India where cultural attitudes toward media freedoms are often very different Monroe E Price is Director of the Center for Global Communication Studies at the Annenberg School for the University of Pennsylvania and Joseph and Sadie Danciger Professor of Law and Director of the Howard M Squadron Program in Law Media and Society at the Cardozo School of Law Stefaan Verhulst is Chief of Research at the Markle Foundation Previously he was the co founder and co director with Professor Monroe Price of the Programme in Comparative Media Law and Policy PCMLP at Oxford University as well as senior research fellow at the Centre for Socio Legal Studies Libby Morgan is the Associate Director of the Center for Global Communication Studies at the Annenberg School for the University of Pennsylvania

Media Now Joseph D. Straubhaar, Robert LaRose, 2000 This introductory text known for its innovative coverage of technology and convergence now offers a more streamlined narrative and an expanded table of contents The text addresses the main media channels in our society their interdependency in light of emergent technologies and foundation theories and traditional concepts The new edition has been revised to offer increased coverage to media effects and ethics and traditional media newspaper film and TV
