Teaching English to Japanese Sumako Kimizuka,1968 **English in Japan. Language policies in Education** Elena Agathokleous,2021-03-18 Essay from the year 2019 in the subject English Language and Literature Studies Linguistics grade A language English abstract The paper deals with the English language in Japan specifically language policies in education English has become the language through which the citizens of the globalized community of our world communicate and

collaborate The ability for a person to be able to use the English language to communicate with others is now more important than ever even in countries like Japan which in the past had no significant amount of tourists or immigrants and a rather local mentality of businesses so there was no great need for these people to be proficient in English , *The Role of English Teaching in Modern Japan* Mieko Yamada,2014-09-25 The Role of English Teaching in Modern Japan examines the complex nature of Japan s promotion of English as a Foreign Language EFL In globalized societies where people with different native languages communicate through English multicultural and multilingual interactions are widely created This book takes the opportunity to look at Japan and examines how these multiple realities have affected its English language teaching within the domestic context The myth of Japan s racial and ethnic homogeneity may hinder many Japanese in recognizing realities of its own minority groups such as Ainu Zainichi Koreans and Brazilian Japanese who are in the same EFL classrooms Acknowledging a variety of English uses and users in Japan this book emphasizes the influence of Japan s recent domestic diversity on its EFL curriculum and urges that such changes should be addressed It suggests new directions for incorporating multicultural perspectives in order to develop English language education in Japan and other Asian contexts where English is often taught as a foreign language Chapters include Social cultural and political background of Japan s EFL education Race ethnicity and multiculturalism Representations of diversity in Japanese EFL Textbooks Perceptions of English learning and diversity in Japan The role of EFL education in multicultural Japan **The English Guide For Japanese Students** Thomas Daniels,2024-07-29 Are you a Japanese English student Do you make the same mistakes in English when trying to communicate If you are please keep reading Because This book will show you how to learn English faster so you can start communicating better in weeks even if you have been struggling to learn the language for years Let me tell you something That s really the biggest problem that you are facing Your lack of communication skills in English By the way This is why I wrote the book I m tired of seeing Japanese learn the language for elementary school until college and still not be able to make a simple complete sentence Okay now Here are some things that this book will teach YOU How to learn faster by reading faster How to start communicating better in English Since communication is the key to interacting with native English speakers This book will give you tips and hacks on how to do it better and this will then have you speaking more fluently in months But That s not all This book will show you how to teach yourself English Then You can save yourself a lot of money in the future Because You won t have to waste it on the bad English schools here in Japan Yes Teaching English is big business here And it s also a big scam on the people Sorry Just want to be honest with you guys These schools charge expensive lesson fees then they use unqualified teachers Honestly It s really sad and that is why I wrote the book My main goal is to help Japanese English students learn English the right way so they can communicate with native English speakers better You should also know that I have taught for more than 12 years here So You are getting all that experience from teaching all levels and ages and MORE when you read the book Okay Hope this gets your attention Imagine
