*Home-Based Care Ministry* Judy Mathers, 2019-08-06 We live in a broken world with broken people Often it is easy to ignore the needs of the people around us But what would God want us to do In His ministry here on earth Jesus reached out to the most hurt most abused and most reviled members of His community He healed not only their bodies but their spirits Should we do any less The Seventh day Adventist Church has a unique opportunity to serve the hurting in their community through a Home Based Care ministry With our mission to love serve and teach and with the numerous church resources already available we can do what many others cannot be the safe haven of health and healing that God intends His church to be While this book focuses on ministry to individuals and their families dealing with HIV and AIDS the principles found here can be applied to anyone with a terminal illness who finds himself herself on the other side of accepted society It shows us that instead of being critical we should accept where people and their choices have led them doing our best to minister with the love and care of Jesus

**Warning Signs of Genocide** E.N. Anderson, Barbara A. Anderson, 2013 Genocide occurs when a government attempts to exterminate systematically a large percentage of its own citizens or subjects simply because they fall into a particular group defined by religion ethnicity political affiliation or rarely other group identification ranging from occupation to gender status Genocide has been a major cause of death worldwide over the last 100 years or more and is far from being eliminated Through examining available cases *Warning Signs of Genocide An Anthropological Perspective* shows that genocide becomes a live danger when group hatreds especially religious ethnic and political are exploited by political regimes as major ways of seizing and maintaining power Genocide is actually invoked however only when such regimes feel they are threatened usually either because they are new and not consolidated in power or because they are challenged by local rebellions civil war or less often international war or major economic decline Knowing these warning signs should make the international community take note that genocide is virtually certain to occur and take action to stop it This book joins others in noting that the international community has rarely intervened in time and in the hope that these findings will encourage more prompt action
