kinship into samaj fetishized culture Castes are shown to not be homogenous cultural wholes but sites of hegemony where class gender and hierarchy over determine the meanings and materiality of caste Arguing that there exists a new casteism in India akin to a new racism in the USA built less on biology and descent and more on purported cultural differences and their rights to exist the book presents an extended critique and a search for an alternative view of caste and anti casteist politics It is of interest to students and scholars of South Asian culture and society *Report of the Special Committee on the Subjects and Modes of Instruction in the Board's Schools* London (England).
