De Nederlandse Staat heeft een belangrijke rol te spelen in het stimuleren van innovatie. Dit kan worden gedaan door het creëren van een innovatie-ecosysteem dat de samenwerking tussen universiteiten, bedrijven en overheden bevordert. Het is belangrijk om te investeren in onderzoek en ontwikkeling, en om de innovatie-activiteit te ondersteunen door middel van subsidies en andere maatregelen. Het is ook belangrijk om de innovatie-activiteit te verspreiden over het hele land, en om de innovatie-activiteit te integreren met de andere beleidsterreinen.

### **Constitutions** Judith

Pryor, 2007-08-09 Bringing a postcolonial perspective to UK constitutional debates and including a detailed and comparative engagement with the constitutions of Britain's ex colonies this book is an original reflection upon the relationship between the written and the unwritten constitution Can a nation have an unwritten constitution While written constitutions both found and define modern nations Britain is commonly regarded as one of the very few exceptions to this rule Drawing on a range of theories concerning writing law and violence from Robert Cover to Jacques Derrida *Constitutions* makes a theoretical intervention into conventional constitutional analyses by problematizing the notion of a written constitution on which they are based Situated within the frame of the former British empire this book deconstructs the conventional opposition between the margins and the centre as well as between the written and unwritten by paying very close detailed attention to the constitutional texts under consideration Pryor argues that Britain's unwritten constitution and immemorial common law only take on meaning in a relation of difference with the written constitutions of its former colonies These texts in turn draw on this pre literate origin in order to legitimize themselves The unwritten constitution of Britain can therefore be located and dislocated in postcolonial written constitutions *Constitutions* is an excellent addition to the bookshelves of all students of the philosophy of law political theory constitutional and administrative law and jurisprudence

### **Ned Kelly as Memory**

**Dispositif** Laura Basu, 2012-12-06 Nineteenth century outlaw Ned Kelly is perhaps Australia's most famous historical figure Ever since he went on the run in 1878 his story has been repeated time and again in every conceivable medium Although the value of his memory has been hotly contested and arguably because of this he remains perhaps the main national icon of Australia Kelly's flamboyant crimes turned him into a popular hero for many Australians during his lifetime and far beyond a symbol of freedom anti authoritarianism anti imperialism a Robin Hood a Jesse James a Che Guevara Others have portrayed him as a villain a gangster a terrorist His latest incarnation has been as WikiLeaks founder and fellow Australian cyber outlaw Julian Assange Despite the huge number of representations of Kelly from rampant newspaper reporting of the events to the iconic Sidney Nolan paintings to a movie starring Mick Jagger to contemporary urban street art this is the first work to take this corpus of material itself as a subject of analysis The fascinating case of this young outlaw provides an important opportunity to further our understanding of the dynamics of cultural memory The book explains the processes by which the cultural memory of Ned Kelly was made and has developed over time and how it has related to formations and negotiations of national identity It breaks new ground in memory studies in the first place by showing that cultural memories are formed and develop through tangles of relations what Basu terms memory dispositifs In introducing the concept of the memory dispositif this volume brings together and develops the work of Foucault Deleuze and Agamben on the dispositif along with relevant concepts from the field of memory studies such as allochronism colonial aphasia and multidirectionality the memory site especially as developed by Ann Rigney and Jan Assmann's figure of memory Secondly this work makes important headway in

our understanding of the relationships between cultural memory and national identity at a time when matters of identity appear to be more urgent and fraught than ever In doing so it shows that national identities are never purely national but are always sub and transnational The Ned Kelly memory dispositif has made complex and conflicting contributions to constructions of national identity Ever since his outlawry the identities invested in Kelly and those invested in the Australian nation have in a two way dynamic fused into and strengthened each other so that Kelly is in many ways a symbol for the national identity Kelly has come to stand for an anti establishment working class subaltern Irish inflected national identity At the same time he has come to represent and enforce the whiteness hyper heterosexual masculinity and violence of Australianess Basu shows that Kelly has therefore always functioned in both radical and conservative ways often both at once a turbulent Janus faced figure

**Labour and the politics of Empire** Neville Kirk, 2017-02-01 This is a pathbreaking comparative and trans national study of the neglected influences of nation empire and race upon the development and electoral fortunes of the Labour Party in Britain and the Australian Labor Party from their formative years of the 1900s to the elections of 2010 Based upon extensive primary and secondary source based research in Britain and Australia over several years it makes a new and original contribution to the fields of labour imperial and British world history The book offers the challenging conclusion that the forces of nation empire and race exerted much greater influence upon Labour politics in both countries than suggested by traditionalists and revisionists alike The book will appeal to undergraduates postgraduates scholars in history and politics and all those interested in and concerned with the past present and future of Labour politics in Britain Australia and more generally

**The Strange Demise of British Canada** C.P. Champion, 2010-05-01 Examining cases such as the introduction of the Maple Leaf to replace the Canadian Red Ensign and Union Jack as the national flag Champion shows that despite what he calls Canada s crisis of Britishness Pearson and his supporters unwittingly perpetuated a continuing Britishness because they and their ideals were the product of a British world Using a fascinating array of personal papers memoirs and contemporary sources this ground breaking study demonstrates the ongoing influence of

*Contrasts in Punishment* John Pratt, Anna Eriksson, 2014-06-03. Why do some modern societies punish their offenders differently to others? Why are some more punitive and others more tolerant in their approach to offending and how can these differences be explained? Based on extensive historical analysis and fieldwork in the penal systems of England, Australia and New Zealand on the one hand and Finland, Norway and Sweden on the other, this book seeks to answer these questions. The book argues that the penal differences that currently exist between these two clusters of societies emanate from their early nineteenth century social arrangements when the Anglophone societies were dominated by exclusionary value systems that contrasted with the more inclusionary values of the Nordic countries. The development of their penal programmes over this two hundred year period, including the much earlier demise of the death penalty in the Nordic countries and significant differences between the respective prison rates and prison conditions of the two clusters, reflects the continuing influence of these values. Indeed, in the early 21st century, these differences have become even more pronounced. John Pratt and Anna Eriksson offer a unique contribution to this topic of growing importance: comparative research in the history and sociology of punishment. This book will be of interest to those studying criminology, sociology, punishment, prison and penal policy as well as professionals working in prisons or in the area of penal policy across the six societies that feature in the book.
