Making And Remaking Of Christian Doctrine:

The Making and Remaking of Christian Doctrine Sarah Coakley, David Arthur Pailin, 1993 Maurice Wiles was Regius Professor of Divinity at the University of Oxford from 1970 1991 To celebrate his seventieth birthday a group of distinguished friends and colleagues have written this important series of original and perceptive essays on the twin themes of making and remaking Christian doctrine The topics covered in this thought provoking collection range from the notion of divine action in Hebrew Wisdom literature to reflections on the nature of the ministry from the concept of God and the doctrines of Christology and of the Trinity to the character of theological reflection and from revelation and tradition to the *lex orandi* the nature of interpretation in religion and the historical basis of theological understanding

The Formation of Christian Doctrine Malcolm B. Yarnell, Malcolm B. Yarnell, III, 2007 The Formation of Christian Doctrine is an advanced academic study of how Christian doctrine develops distinguishing in particular between scholarly term *inventio* and less revelatory process of invention

The Life of Christian Doctrine Mike Higon, 2020-07-09 The lives of Christian churches are shaped by doctrinal theology That is they are shaped by practices in which ideas about God and God's ways with the world are developed discussed and deployed This book explores those practices and asks why they matter for communities seeking to follow Jesus Taking the example of the Church of England this book highlights the embodied affective and located reality of all doctrinal practices and the biases and exclusions that mar them It argues that doctrinal theology can in principle help the church know God better even though doctrinal theologians do not know God better than their fellow believers It claims that it can help the church to hear in Scripture challenges to its life including to its doctrinal theology It suggests that doctrinal disagreement is inevitable but that a better quality of doctrinal disagreement is possible And finally it argues that by encouraging attention to voices that have previously been ignored doctrinal theology can foster the ongoing discovery of God's surprising work

The Nature of Christian Doctrine Alister E. McGrath, 2024 Alister E McGrath provides a fresh and engaging account of the origins development and abiding importance of Christian doctrine The book explores why Christianity developed doctrines in the first place and why doctrines continue to be vital to the present and future of Christian communities

Doing Theology Today Schubert M. Ogden, 2006-07-01 Here is an essential handbook for all those who would do theology today written by one of America's most distinguished theologians The book is divided into four parts Theology of Theology which extends deepens and renders more persuasive the author's lines of thought on theological prolegomena Theology and Christology which argues that to do theology today one must be concerned above all with the fundamental questions of God and Jesus Theology of Religions which implies that to do theology today is to do it in a truly global context in the presence of the plurality of ways of being human including those represented by non Christian religions Theology in Conversation which claims that to do theology today is to enter into close and sustained conversation with others who either are or have been engaged in the same task of critical reflection

Covenant of Redemption in the Trinitarian Theology of Jonathan Edwards Reita Yazawa, 2019-10-11 Recently the immanent Trinity God as in himself has been criticized as abstract and impractical as opposed to the economic Trinity God in relation to the world Many scholars argue that the immanent Trinity is detached from the real life of believers and God's economic work of redemption and thus abstract and impractical But is this assumption itself really true What if the blueprint of God's work of redemption is already located in the immanent Trinity as the divine idea What if Jonathan Edwards arguably the American greatest theologian expounds this doctrine as a vital driving force in his theology Rediscovering the doctrine of the covenant of redemption will help us to see that the immanent Trinity actually is not abstract but highly practical simply because the redemption of the believers hinges on the divine plan located there This study is a fruit of the recent convergence of the resurging doctrine of the Trinity and the renaissance of studies of Jonathan Edwards

The Tradition of Liberal Theology Michael Langford,2014-01-20 Describes and defends a long standing tradition that maintains a proper balance between religious faith and human rationality Many of the early apologists including Justin Martyr and Origen presented a defense of the Christian faith that sought to combine the message of the Gospels with respect for the kind of rationality associated with Socrates and his followers Michael Langford argues that despite many misunderstandings the term liberal theology can properly be used to describe this tradition Langford s Tradition of Liberal Theology begins with a historical and contemporary definition of liberal theology and identifies eleven typical characteristics such as a nonliteralist approach to interpreting Scripture a rejection of original guilt and the joint need for faith and works Langford then gives vignettes of thirteen historical Christian figures who personify the liberal tradition Finally he explores some contemporary alternatives to liberal theology fundamentalism the Catholic magisterium Karl Barth s theology and presents a rational defense of the tradition of liberal theology

Maximus the Confessor Paul M. Blowers,2016-02-04 This study contextualizes the achievement of a strategically crucial figure in Byzantium s turbulent seventh century the monk and theologian Maximus the Confessor 580 662 Building on newer biographical research and a growing international body of scholarship as well as on fresh examination of his diverse literary corpus Paul Blowers develops a profile integrating the two principal initiatives of Maximus s career first his reinterpretation of the christocentric economy of creation and salvation as a framework for expounding the spiritual and ascetical life of monastic and non monastic Christians and second his intensifying public involvement in the last phase of the ancient christological debates the monothelete controversy wherein Maximus helped lead an East West coalition against Byzantine imperial attempts doctrinally to limit Jesus Christ to a single divine activity and will devoid of properly human volition Blowers identifies what he terms Maximus s cosmo politeian worldview a contemplative and ascetical vision of the participation of all created beings in the novel politeia or reordered existence inaugurated by Christ s new theandric energy Maximus ultimately insinuated his teaching on the christoformity and cruciformity of the human vocation with his rigorous explication of the precise constitution of Christ s own composite person In outlining this cosmo politeian theory Blowers additionally sets forth a theo dramatic reading of Maximus inspired by Hans Urs von Balthasar which depicts the motion of creation and history according to the christocentric plot or interplay of divine and creaturely freedoms Blowers also amplifies how Maximus s cumulative

achievement challenged imperial ideology in the seventh century the repercussions of which cost him his life and how it generated multiple recontextualizations in the later history of theology **The Remaking of Christian Doctrine** Maurice Wiles, 1974 Theology and Contemporary Critical Theory Graham Ward, 1996-09-06 Graham Ward examines the core skills approaches and concepts employed in the study of theology and relates them to the work of relevant critical theorists Distinguishing theology's concern with representation history ethics and the experience of transcendence the book then reviews the work of two or three particular postmodern thinkers whose ideas challenge the traditional ways theology has handled these concerns The book suggests the way in which the study of theology may be transformed through a developed engagement with contemporary critical theory **Novel Theology** Darren J. N. Middleton, 2000 Literature and theology constantly deconstruct each other Suggesting that this deconstructive assignment is one that cannot but be in process itself Middleton returns to it throughout his study
