

Safe Motherhood

Making Motherhood Safe

Wendy B. Jacobson

Making Motherhood Safe:

Making Motherhood Safe Anne G. Tinker, 1993-01-01 This collection reviews national policies that critically influence economic performance in developing countries It describes principles that shape good economic policy and illustrates them with case studies In an overview that draws together insights from the essays the volume editor explains why poor countries need sound government policies to offset unfavorable conditions including scant natural resources adverse problems that occur with monetary and exchange rate policies and financial sector reform The basic rules for monetary policy in an open economy are developed along with the different ways in which financial reform and financial repression affect an economy Practical ways to deal with foreign exchange markets are described They include such arrangements as multiple exchange rates for commercial transactions and dual rates that separate commercial and financial transactions Also examined are the ways in which trade liberalization and trade restrictions impede economic development Advice is given on developing a uniform structure that balances the administration of taxes with the efficiency of a tax structure The book examines the relationship between budget deficits and money creation and suggests management strategies for developing sound economic policy that include advice on inflation control international trade import restrictions income tax rates and price and wage controls Published for the World Bank by Oxford University Press

Managing Motherhood, Managing Risk Denise Allen, 2009-10-22 In *Managing Motherhood Managing Risk* Denise Roth Allen persuasively argues that development interventions in the Third World often have unintended and unacknowledged consequences Based on twenty two months of fieldwork in the Shinyanga Region of west central Tanzania this rich and engaging ethnography of women s fertility related experiences highlights the processes by which a set of seemingly well intentioned international maternal health policy recommendations go awry when implemented at the local level An exploration of how threats to maternal health have been defined and addressed at the global national and local levels *Managing Motherhood Managing Risk* presents two contrasting and oftentimes competing definitions of risk those that form the basis of international recommendations and national maternal health policies and those that do not The effect that these contrasting definitions of risk have on women s fertility related experiences at the local level are explored throughout the book This study employs an innovative approach to the analysis of maternal health risk one that situates rural Tanzanian women s fertility related experiences within a broader historical and sociocultural context Beginning with an examination of how maternal health risk was defined and addressed during the early years of British colonial rule in Tanganyika and moving to a discussion of an internationally conceived maternal health initiative that was launched on the world stage in the late 1980s the author explores the similarities in the language used and solutions proposed by health development experts over time This set of official maternal health risks is then compared to an alternative set of risks that emerge when attention is focused on women s experiences of pregnancy and childbirth at the local level Although some of these latter risks are often spoken about as deriving from spiritual or

supernatural causes the case studies presented throughout the second half of the book reveal that the concept of risk in the context of pregnancy and childbirth is much more complex involving the interplay of spiritual physical and economic aspects of everyday life

Making Safe Blood Available in Africa United States. Congress. House. Committee on International Relations. Subcommittee on Africa, Global Human Rights, and International Operations, 2006

SAFE MOTHERHOOD AND ITS SIGNIFICANCE IN THE CONTEMPORARY PERSPECTIVE Prof. (Dr.) Subhasish Chatterjee, Ms. Paunami Dey, Mrs. Irene Darlong, Prof. (Dr.) Ranabir Pal, 2024-02-28

Women and Reproductive Health explores women's reproductive health focusing on cultural educational and socio economic aspects It begins with Early Marriage and Pregnancy discussing the impact of early unions on women's health The book then delves into menopause emphasising the importance of support networks and healthcare services It also discusses menstrual hygiene antenatal care postnatal care contraceptive techniques and anaemia during pregnancy The book aims to understand the complexities of women's reproductive health and appreciate the resilience and diversity of women worldwide

Making Sense of Motherhood Beth M. Stovell, 2016-02-02

Motherhood provides a crucial place for exploring human life and its meaning Within motherhood lies a deep tension between the pain crisis and association with death in motherhood and the joy transformation and life in motherhood Few metaphors in Scripture or in life stand so firmly between life and death love and loss and joy and deep pain After all motherhood's meaning in part comes again and again at these crucial crossroads Thus motherhood has powerful implications for our biblical and theological understanding Bringing together Jewish and ecumenical Christian scholars from North America Oceania and South America this edited volume provides biblical and theological perspectives on understanding motherhood The authors reflect upon a selection of biblical texts systematic theologians and Christian spiritual traditions to dialogue with the experience of maternity in its diverse manifestations The purpose of the book is to provide essays that through these biblical and theological lenses engage the question of motherhood today from the experience of pregnancy and birth to raising children to losing children and coping with grief In this way this volume helps to make sense of the complexity of motherhood

Unsafe Motherhood Nicole S. Berry, 2010-10-01

Sheds light not only on the obstacles to making motherhood safer but to improving the health of poor populations in general Social Anthropology Since 1987 when the global community first recognized the high frequency of women in developing countries dying from pregnancy related causes little progress has been made to combat this problem This study follows the global policies that have been implemented in Solol Guatemala in order to decrease high rates of maternal mortality among indigenous Mayan women The author examines the diverse meanings and understandings of motherhood pregnancy birth and birth related death among the biomedical personnel village women their families and midwives These incongruous perspectives in conjunction with the implementation of such policies threaten to disenfranchise clients from their own cultural understandings of self The author investigates how these policies need to meld with the everyday lives of these women and how the failure to do so will lead to a failure to decrease

maternal deaths globally From the Introduction An unspoken effect of reducing maternal mortality to a medical problem is that life and death become the only outcomes by which pregnancy and birth are understood The specter of death looms large and limits our full exploration of either our attempts to curb maternal mortality or the phenomenon itself Certainly women s survival during childbirth is the ultimate measure of success of our efforts Yet using pregnancy outcomes and biomedical attendance at birth as the primary feedback on global efforts to make pregnancy safer is misguided *Preparing for Motherhood* Bernarr Macfadden,1923 Safe from the Start Wendy B. Jacobson,2000 *Women-Centered Care in Pregnancy and Childbirth* Sara Shields,Lucy Candib,2023-01-06 A woman centered approach to pregnancy must be flexible enough to address the variety of women s experiences around the world encompassing medical conditions cultures and family structures It must also include women who choose not to carry a pregnancy or experience a miscarriage This unique woman centered text explores all these issues and more **Makers of Nursing History** Meta Rutter Pennock,1928

Mental Health Aspects of Women's Reproductive Health World Health Organization,2009 This book has reviewed the research undertaken on a broad range of reproductive health issues and their mental health determinants consequences over the last 15 years from both high and low income countries Evidence from peer reviewed journals has been used wherever possible but has been augmented with results of a specific survey initiated to gather state of the art information on reproductive and mental health issues from a variety of researchers and interested parties Valuable data from consultant reports national programme evaluations and postgraduate research work was also compiled analyzed and synthesized

Human Rights in Developing Countries, Yearbook 1994 Peter R. Baehr,Hilde Hey,Jacqueline Smith,Theresa Swinehart,2024-01-15 Since 1985 seven Yearbooks have appeared containing articles on recent developments with regard to human rights in developing countries Besides topical information on current issues and trends that pertain to these countries in general the Yearbook describes the current situation in a selected group of developing countries The Yearbook 1994 contains national reports on Angola China Ghana Honduras Pakistan Sri Lanka and Tanzania The authors and editors of the Yearbook use a broad definition of human rights meaning not merely civil and political rights but economic social and cultural rights as well This broad and modern perspective on the issue is reflected in the contents of the national reports and in the thematic studies in the first part of the book covering a wide range of issues relevant to human rights in the developing world Among the topics covered by the thematic studies this year are the Convention on the Rights of the Child the influence of recognized human rights standards in the national politics of Eastern Europe the social cost of adjustment and human rights protection and an evaluation of recent positive measures taken in the sphere of North South cooperation The Yearbook is an initiative of human rights institutes in Austria Denmark Norway Sweden and the Netherlands with the purpose of reaching a wide audience interested in both human rights and development aid issues **Modern Print Activism in the United States** Rachel Schreiber,2016-04-15 The explosion of print culture that occurred in the United States at the turn of

the twentieth century activated the widespread use of print media to promote social and political activism Exploring this phenomenon the essays in *Modern Print Activism in the United States* focus on specific groups individuals and causes that relied on print as a vehicle for activism They also take up the variety of print forms in which calls for activism have appeared including fiction editorials letters to the editor graphic satire and non periodical media such as pamphlets and calendars As the contributors show activists have used print media in a range of ways not only in expected applications such as calls for boycotts and protests but also for less expected aims such as the creation of networks among readers and to the legitimization of their causes At a time when the golden age of print appears to be ending *Modern Print Activism in the United States* argues that print activism should be studied as a specifically modernist phenomenon and poses questions related to the efficacy of print as a vehicle for social and political change *Investing for Life: Making the Link Between Public Spending and the Reduction of Maternal Mortality* , *Children, the Magazine for Parents* ,1927 **Parents' Magazine & Better Homemaking** ,1928 America s 1 family magazine *Human Rights and the Unborn Child* Rita Joseph,2009 This challenging volume gathers a selection of the mass of material available from the major human rights instruments from first drafts legislative histories and contemporary commentaries from more recent scholarship as well as from the General Comments and Concluding Observations and Recommendations of the various treaty monitoring bodies relating to the topic of the unborn child Contemporary reinterpretations of these documents are held up to the searchlight of historical context including a reminder of the original purpose and meaning and the philosophical foundation of modern international human rights law *International Handbook on Gender and Demographic Processes* Nancy E. Riley,Jan Brunson,2018-05-02 This handbook presents a comprehensive and up to date overview of gender in demography addressing the many different influences of gender that arise from or influence demographic processes It collects in one volume the key issues and perspectives in this area whereby demography is broadly defined The purpose in casting a wide net is to cover the range of work being done within demography but at the same time to open up our perspectives to neighboring fields to encourage better conversations around these issues The chapters in this handbook carefully document definition and measurement issues and take up parts of the demographic picture and focus on how gender plays a role in outcomes In other cases gender often plays a cross cutting role in social processes rather than having a single or easily distinguishable role it often combines with other social institutions and even other statuses and inequalities to affect outcomes Thus a key factor in this volume is how gender interacts with race ethnicity class nationality and sexuality in any demographic setting While each section contains chapters that are broad overviews of the current state of knowledge and behavior the handbook also includes chapters that focus on specific cultures or events in order to examine how gender operates in a particular circumstance **Anthropologies of Global Maternal and Reproductive Health** Lauren J. Wallace,Margaret E. MacDonald,Katerini T. Storeng,2022-01-11 This open access edited book brings together new research on the mechanisms

by which maternal and reproductive health policies are formed and implemented in diverse locales around the world from global policy spaces to sites of practice The authors both internationally respected anthropologists and new voices demonstrate the value of ethnography and the utility of reproduction as a lens through which to generate rich insights into professionals and lay people s intimate encounters with policy Authors look closely at core policy debates in the history of global maternal health across six different continents including Women s use of misoprostol for abortion in Burkina Faso The place of traditional birth attendants in global maternal health Donor driven maternal health programs in Tanzania Efforts to integrate qualitative evidence in WHO maternal and child health policy making Anthropologies of Global Maternal and Reproductive Health will engage readers interested in critical conversations about global health policy today The broad range of foci makes it a valuable resource for teaching in medical anthropology anthropology of reproduction and interdisciplinary global health programs The book will also find readership amongst critical public health scholars health policy and systems researchers and global public health practitioners Practical Talks on the Care of Children Mary E. Bayley,1922
