**Making Music** William C. Allsbrook Jr., 2023-06-23 The banjo has been emblematic of the Southern Appalachian Mountains since the late twentieth century. *Making Music: The Banjo in a Southern Appalachian County* takes a close look at the instrument and banjo players in Haywood County, North Carolina. Author William C. Allsbrook Jr. MD presents the oral histories of thirty-two banjo players, all but two of whom were born in Haywood County. These talented musicians recount in their own words their earliest memories of music and of the banjo, as well as the appeal of the banjo. They also discuss learning to play the instrument, including what it feels like playing the banjo, many describing occasional flow states. In the book, Allsbrook explores an in-home musical folkway that developed along the colonial frontier. By the mid-1800s, frontier expansion had ceased in Haywood County due to geographic barriers, but the in-home musical tradition, including the banjo, survived in largely isolated areas. Vestiges of that tradition remain to this day, although the region has undergone significant changes over the lifetimes of the musicians interviewed. As a result, the survival of the in-home tradition is not guaranteed. Readers are invited into the private lives of the banjo players and asked to consider the future of the banjo in the face of contemporary trends. The future will be shaped by how this remarkable mountain culture continues to adapt to these challenges. Still, this thriving community of banjo players represents the vibrant legacy of the banjo in Haywood County and the persistence of tradition in the twenty-first century.

**Making Waves** Frederick Lau, Christine R. Yano, 2018-02-28 Musical sounds are some of the most mobile human elements, crossing national, cultural, and regional boundaries at an ever-increasing pace in the twentieth and twenty-first centuries. Whole musical products travel easily, though not necessarily intact, via musicians, CDs, and earlier cassettes, satellite broadcasting, digital downloads, and streaming. The introductory chapter by the volume editors develops two framing metaphors: traveling musics and making waves. The wave-making metaphor illuminates the ways that traveling musics traverse flows of globalization and migration, initiating change and generating energy of their own. Each of the nine contributors further examines music, its songs, makers, instruments, aurality, aesthetics, and images as it crosses oceans, continents, and islands. In the process of landing in new homes, music interacts with older, established cultural environments, sometimes in unexpected ways and with surprising results. They see these traveling musics in Hawai'i, Asia, and the Pacific as making waves that are not only riding flows of globalism but instigating ripples of change. What is the nature of those ripples? What constitutes some of the infrastructure for the wave itself? What are some of the effects of music landing on, transported to, or appropriated from distant shores? How does the Hawai'i/Asia/Pacific context itself shape and get shaped by these musical waves? The two poetic and evocative metaphors allow the individual contributors great leeway in charting their own

course while simultaneously referring back to the influence of their mentor and colleague Ricardo D Trimillos whom they identify as the wave maker The volume attempts to position music as at once ritual and entertainment esoteric and exoteric tradition and creativity within the cultural geographies of Hawai i Asia and the Pacific In doing so they situate music at the very core of global human endeavors *Balloon Faces* Brian Way,1977 *Making Music in Japan's Underground* Jennifer Milioto Matsue,2008-07-15 Grounded in the fields of Ethnomusicology Anthropology Popular Music Studies and Japanese Studies this book explores the underground Tokyo hardcore scene ultimately asking what play as resistance through performance of the scene tells us about Japanese society in general Matsue highlights the complicated positioning of young adult Japanese in contemporary Japan as they negotiate both increasing social demands and increasing problems in society at large Further drawing on theories of play identity building and the construction of gender all informed by the increasingly influential field of Performance Studies the book offers a highly interdisciplinary look at the importance of musical scenes for expressing resistance at the turn of the 21st century Within the underground Tokyo hardcore scene this resistance is expressed through play with individual and collective identity in intimate and potentially illicit spaces with an arguably challenging sound and performance style **Japan's Musical Tradition** Miyuki Yoshikami,2020-03-06 What makes
