History as Literature in Byzantium Ruth Macrides, 2016-12-05 Although perceived since the sixteenth century as the most impressive literary achievement of Byzantine culture historical writing nevertheless remains little studied as literature Historical texts are still read first and foremost for nuggets of information as main sources for the reconstruction of the events of Byzantine history Whatever can be called literary in these works has been considered as external and

detachable from the facts The classical tradition inherited by Byzantine writers the features that Byzantine authors imitated and absorbed are regarded as standing in the way of understanding the true meaning of the text and furthermore of contaminating the reliability of the history Chronicles whose language and style are anything but classicizing have been held in low esteem for they are seen as providing a mere chronological exposition of events This book presents a set of articles by an international cast of contributors deriving from papers delivered at the 40th annual Spring Symposium of Byzantine Studies They are concerned with historical and visual narratives that date from the sixth to the fourteenth century and aim to show that literary analyses and the study of pictorial devices far from being tangential to the study of historical texts are preliminary to their further study exposing the deeper structures and purposes of these texts Theophylact of Ochrid
Margaret Mullett, 2016-12-05 Few works exist on Byzantine literature as literature and still fewer studies of individual texts This reading of the letter collection c 1090 c 1110 of Theophylact of Ochrid employs a variety of approaches to characterise a work which is both a literary artefact in a long Greek tradition and the only trace of a complex network of friends colleagues patrons and clients within Byzantine Bulgaria and also within the empire as a whole These letters are of great importance from the point of view of local economic or ecclesiastical history relations with the Slavs the arrival of the First Crusade but have not hitherto been studied as an example of Byzantine letter writing This was a genre taken seriously by Byzantines offering us unique insight into the mentality of the Byzantine elite but also into what the Byzantines regarded as literature This book is important as an attempt to raise the status of the study of Byzantine literature and of letters within that literature It is a first attempt to place an epistolary text in a succession of literary and historical contexts its aim too is to probe the reliability of any rhetorical text for straightforward biography especially at the time of the revival fiction in Byzantium At the heart of the book is an analysis of the personal network of Theophylact as presented in the collection with further methodological discussion of network analysis in medieval texts Letters, Literacy and Literature in Byzantium
Margaret Mullett, 2023-06-09 These studies look at general problems of reading Byzantine literature at literacy practices and the literary process but also at individual texts The past thirty years have seen a revolution in the way Byzantine literature has been viewed no longer is it considered a decadent form of classical literature or a turgid precursor of modern Greek literature There are still prejudices to overcome that there was no literary public or that Byzantium had no drama or humour but Byzantine texts are now read as literature in the social context of literacy and book culture One genre is treated here more fully the letter Derrida said that letters represent all literature In these studies epistolography is examined from the point of view of genre of originality of communication and as evidence for political history Other genres touched on include the novel historiography parainesis panegyric and hagiography The section on literary process includes essays on genre patronage and rhetoric and the section on literacy practices deals with both writing and reading The collection includes one unpublished lecture which acts as introduction and additional notes and comments **Sanctity and Pilgrimage in**

H. Jordan, Rosemary Morris, 2016-03-03 This book forms part of the Evergetis Project which aims to investigate all surviving texts associated with the Monastery of the Theotokos Evergetis founded in 1049 near Constantinople A book length introduction sets out the historical significance of the house for the development of Byzantine monasticism and discusses its administration liturgy and way of life An English translation of the Hypotyposis the monastery's foundation document is provided accompanied by detailed notes Previous scholarship on the authorship of the Hypotyposis and the evolution of the text is discussed and linguistic analysis used to suggest that traces of the original foundation document by Paul Evergetinos can be identified within it The Hypotyposis was widely used as a model for later Byzantine and Slavonic typika and the precise relationship of these documents one to the other is demonstrated in detail The volume also includes prosopographical material on the known patrons of the monastery a discussion of its library English translations of later Greek and Latin texts referring to the monastery and a suggested reconstruction of Paul Evergetinos original foundation document *Sacred Space: Shrine, City, Land* Benjamin Z. Kedar, R.J. Zwi Werblowsky, 2016-07-27 Sacred Space Shrine City Land a collection of articles that deal with Holy Places from Antiquity to the present from the lands of the Fertile Crescent to Europe India Japan and Mexico from mountains and seas to temples cities and countries from the construction perception and functioning of sacred sites to the psychotic breakdowns they bring on some visitors [The Social History of Byzantium](#) John Haldon, 2016-07-29 With original essays by leading scholars this book explores the social history of the medieval eastern Roman Empire and offers illuminating new insights into our knowledge of Byzantine society Provides interconnected essays of original scholarship relating to the social history of the Byzantine empire Offers groundbreaking theoretical and empirical research in the study of Byzantine society Includes helpful glossaries of sociological theoretical terms and Byzantine medieval terms **The Ashgate Research Companion to Byzantine Hagiography** Professor Stephanos Efthymiadis, 2013-07-28 Hagiography is the most abundantly represented genre of Byzantine literature and it offers crucial insight to the development of religious thought and practice social and literary life and the history of the empire It emerged in the fourth century with the pioneering Life of St Antony and continued to evolve until the end of the empire in the fifteenth century and beyond The appeal and dynamics of this genre radiated beyond the confines of Byzantium and it was practised also in many Oriental and Slavic languages within the orbit of the broader Byzantine world This companion is the work of an international team of specialists and represents the first comprehensive survey ever produced in this field It consists of two volumes and is addressed to both a broader public and the scholarly community of Byzantinists Medievalists historians of religion and theorists of the narrative This first volume covers the authors and texts of the four distinctive periods during which Greek Byzantine hagiography developed as well as

the hagiography produced in Oriental and Slavic languages and in geographical milieux around the periphery of the empire from Italy to Armenia Volume II addresses questions of genres and the social and other contexts of Byzantine hagiography

The Cult of Saints in Late Antiquity and the Early Middle Ages James Howard-Johnston, Paul Antony Hayward, 2000-01-07

This book contains eleven essays prefaced by a general introduction on a set of related themes the characteristic traits and diverse functions of holy men the fashioning of saints out of a small minority of holy men and a number of other individuals of high social status but with more dubious spiritual credentials the literary processes involved in the construction of hagiographical texts the role of hagiography in the creation and diffusion of cults and the worldly interests and other purposes which were served by hagiographical texts and the cults which they propagated These themes are explored across a wide range of social and cultural milieux extending from the late antique east Mediterranean through the early medieval Frankish world and Byzantium to Russia and Islam in the high middle ages The work of Peter Brown in particular his article *The Rise and Function of the Holy Man in Late Antiquity* first published in 1971 forms a constant point of reference acknowledged by the contributors as having irradiated the whole field with fresh provocative and illuminating ideas *Isaac Komnenos Porphyrogennetos* Valeria Flavia Lovato, 2024-10-01 Twelfth century Byzantium is characterized by a striking artistic vitality and profound socio political changes The Constantinopolitan elites led by the Komnenian dynasty initiated by Alexios I were the driving force behind the renewed intellectual landscape and power dynamics of the century Despite the wealth of studies devoted to the Komnenians the sebastokrator Isaac 1093 after 1152 has received limited attention in modern scholarship Yet Isaac is a fascinating figure at the crossroads of different worlds He was an intellectual the author of the first running commentary on the Iliad ever written in Byzantium He was a patron sponsoring magnificent buildings and supporting artists in and outside the capital He was a would be usurper attempting to seize the throne several times He was a shrewd diplomat forging alliances with Armenian Turkish and Latin rulers Modern scholars have so far failed to see the interplay between Isaac's multiple personae Isaac the scholar is rarely brought into conversation with Isaac the usurper Isaac the patron or Isaac the world traveller Bringing together experts from a range of disciplines this book fills a significant gap in the literature As the first comprehensive study of one of the protagonists of the Komnenian era it is essential reading for students of the Byzantine Empire In addition the portrait of Isaac presented here provides scholars of pre modern civilizations with a relevant case study By exposing the permeability of the theoretical and geographical borders we use to conceptualize the past Isaac epitomizes the interconnectedness at the heart of the so called Global Middle Ages
