Making Of Brazil Portuguese Roots 1500 1:

Emigration and the Sea Malyn Newitt, 2015-01-07 Noted historian of the Lusophone world Malyn Newitt offers an expansive account of how exploration imperialism and migration shaped the Portuguese and their global diaspora The Evolution of the Portuguese Atlantic: Essays in Honour of Ursula Lamb Timothy J. Coates, 2009-09-30 This special issue volume of the Portuguese Studies Review in honor of Ursula Lamb 1914 1996 presents studies by Timothy Coates A J R Russell Wood Ivana Elbl Alberto Vieira Martin Malcolm Elbl Gerardo A Lorenzino C sar Braga Pinto Geraldo Pieroni Jana na Amado Mark Cooper Emerson Ernst Pijning and Kirsten Shultz The studies explore the themes of settlement colonization ethnogenesis banishment and exile the intellectual and political construction of colonial identities cross cultural urbanism and regulation of commerce The volume also includes a bibliography of Ursula Lamb s works *The Making of Brazil* Norman Pemberton Macdonald, 1996 **The Struggle for the South Atlantic: The Armada of the Strait, 1581-84** Carla Rahn Phillips, 2017-07-14 This book contains the annotated translation of an account of Spain s Armada of the Strait which traveled to Brazil and the Strait of Magellan under Don Diego Flores de Vald s in 1581 84 Pedro de Rada the official scribe of the armada kept a detailed neutral chronicle of the venture which remained in private hands until 1999 but is now held in the Henry E Huntington Library in San Marino California It is published here for the first time The voyage came at a crucial juncture in global politics when Philip II of Spain had claimed the throne of Portugal and its empire and Francis Drake s daring peacetime raids had challenged the dominance of Spain and Portugal in the Americas *Portuguese Jews and New Christians in Colonial Brazil, 1500-1822* Alan P. Marcus, 2024-11-15 The diaspora of Portuguese Jews and New Christians known as Gente da Na o People of the Nation is considered the largest European diaspora of the early modern period Portuguese Jews not only founded the first congregations and synagogues in Brazil Recife and Olinda but when they left Brazil they played an imperative role in establishing the first Jewish communities in Suriname throughout the Caribbean and in North America Portuguese Jews and New Christians and their descendants were deeply involved in the colonial enterprise in Brazil They were among the New World s first sugarcane industry experts skilled laborers merchants rabbis calligraphists playwrights poets writers pharmacists medical doctors real estate brokers and geographers a fact that remains largely unknown in most public and academic spheres Drawing on nearly twenty thousand digitized dossiers of the Portuguese Inquisition this volume offers a comprehensive critical overview informed by both relatively inaccessible secondary sources and a significant body of primary sources China Goes to Sea Andrew S. Erickson, Lyle J Goldstein, Carnes Lord, 2009-07-01 In modern history China has been primarily a land power dominating smaller states along its massive continental flanks But China s turn toward the sea is now very much a reality as evident in its stunning rise in global shipbuilding markets its vast and expanding merchant marine the wide offshore reach of its energy and minerals exploration companies its growing fishing fleet and indeed its increasingly modern navy Yet for all these achievements there is still profound skepticism regarding

China's potential as a genuine maritime power Beijing must still import the most vital subcomponents for its shipyards maritime governance remains severely bureaucratically challenged and the navy evinces at least as of yet little enthusiasm for significant blue water power projection capabilities This volume provides a truly comprehensive assessment of prospects for China's maritime development by situating these important geostrategic phenomena within a larger world historical context China is hardly the only land power in history to attempt transformation by fostering sea power Many continental powers have elected or been impelled to transform themselves into significant maritime powers in order to safeguard their strategic position or advance their interests We examine cases of attempted transformation from the Persian Empire to the Soviet Union and determine the reasons for their success or failure Too many works on China view the nation in isolation Of course China's history and culture are to some extent exceptional but building intellectual fences actually hinders the effort to understand China's current development trajectory Without underestimating the enduring pull of China's past as it relates to threats to the country's internal stability and its landward borders this comparative study provides reason to believe that China has turned the corner on a genuine maritime transformation If that proves indeed to be the case it would be a remarkable if not singular event in the history of the last two millennia *Latin American Political History* Ronald M. proposed and rejected Finally he shows that the surge of Atlantic trade predicated on the murderous toil of the plantations made a decisive contribution to both the Industrial Revolution and the rise of the West
