**Re-Covering Modernism** David M Earle, 2016-03-03

In the first half of the twentieth century modernist works appeared not only in obscure little magazines and books published by tiny exclusive presses but also in literary reprint magazines of the 1920s tawdry pulp magazines of the 1930s and lurid paperbacks of the 1940s In his nuanced exploration of the publishing and marketing of modernist works David M Earle questions how and why modernist literature came to be viewed as the exclusive purview of a cultural elite given its availability in such popular forums As he examines sensational and popular manifestations of modernism as well as their reception by critics and readers Earle provides a methodology for reconciling formerly separate or contradictory materialist cultural visual and modernist approaches to avant garde literature Central to Earle's innovative approach is his consideration of the physical aspects of the books and magazines covers dust wrappers illustrations cost which become texts in their own right Richly illustrated and accessibly written Earle's study shows that

modernism emerged in a publishing ecosystem that was both richer and more complex than has been previously documented

Domestic Modernism, the Interwar Novel, and E.H. Young Chiara Briganti, 2006 This book provides an analytical model for reading a large body of modernist works by women The authors document the publication and reception history of E H Young's novels make a significant contribution to the field of homeculture and show that the fictional embodiment of home in Young Virginia Woolf Elizabeth Bowen Ivy Compton Burnett Lettice Cooper E M Delafield Stella Gibbons Storm Jameson and E Arnot Robertson epitomizes the symbiosis between architecture and literature or between the house and the novel The Politics of Musical Identity Annegret Fauser, 2017-07-05 This volume explores the way in which composers performers and critics shaped individual and collective identities in music from Europe and the United States from the 1860s to the 1950s Selected essays and articles engage with works and their reception by Richard Wagner Georges Bizet in an American incarnation Lili and Nadia Boulanger William Grant Still and Aaron Copland and with performers such as Wanda Landowska and even Marilyn Monroe Ranging in context from the opera house through the concert hall to the salon and from establishment cultures to counter cultural products the main focus is how music permits new ways of considering issues of nationality class race and gender These essays three presented for the first time in English translation reflect the work in both musical and cultural studies of a distinguished scholar whose international career spans the Atlantic and beyond

*The Worlds of American Intellectual History* Joel Isaac, James T. Kloppenberg, Michael O'Brien, Jennifer Ratner-Rosenhagen, 2016-11-15 The essays in this book demonstrate the breadth and vitality of American intellectual history Their core theme is the diversity of both American intellectual life and of the frameworks that we must use to make sense of that diversity The Worlds of American Intellectual History has at its heart studies of American thinkers Yet it follows these thinkers and their ideas as they have crossed national institutional and intellectual boundaries The volume explores ways in which American ideas have circulated in different cultures It also examines the multiple sites from social movements museums and courtrooms to popular and scholarly books and periodicals in which people have articulated and deployed ideas within and beyond the borders of the United States At these cultural frontiers the authors demonstrate multiple interactions have occurred some friendly and mutually enriching others laden with tension misunderstandings and conflict The same holds for other kinds of borders such as those within and between scholarly disciplines or between American history and the histories of other cultures The richness of contemporary American intellectual history springs from the variety of worlds with which it must engage Intellectual historians have always relished being able to move back and forth between close readings of particular texts and efforts to make sense of broader cultural dispositions That range is on display in this volume which includes essays by scholars as fully at home in the disciplines of philosophy literature economics sociology political science education science religion and law as they are in history It includes essays by prominent historians of European thought attuned to the transatlantic conversations in which Europeans and Americans have been engaged since

the seventeenth century and American historians whose work has carried them not only to different regions in North America but across the North Atlantic to Europe across the South Atlantic to Africa and across the Pacific to South Asia
