

A young child with curly hair, wearing a white shirt and tan overalls, is climbing a wooden play structure. The structure is made of light-colored wood and features a peaked roof with a small square window at the top. Inside the structure, there is a black, scalloped-edge fabric or screen. The child is on a wooden ramp that has a decorative scalloped edge. The background is a plain, light-colored wall.

Making Children's Furniture And Play Structures:

Making Children's Furniture and Play Structures Bruce Palmer, 1974 Shows how to make a variety of stools chairs tables desks beds storage units play structures tents domes geoshapes habitats vehicles and other apparatuses using inexpensive easily obtained materials *The Design of Childhood* Alexandra Lange, 2018-06-12 From building blocks to city blocks an eye opening exploration of how children's playthings and physical surroundings affect their development Parents obsess over their children's playdates kindergarten curriculum and every bump and bruise but the toys classrooms playgrounds and neighborhoods little ones engage with are just as important These objects and spaces encode decades even centuries of changing ideas about what makes for good child rearing and what does not Do you choose wooden toys or plastic or increasingly digital What do youngsters lose when seesaws are deemed too dangerous and slides are designed primarily for safety How can the built environment help children cultivate self reliance In these debates parents educators and kids themselves are often caught in the middle Now prominent design critic Alexandra Lange reveals the surprising histories behind the human made elements of our children's pint size landscape Her fascinating investigation shows how the seemingly innocuous universe of stuff affects kids behavior values and health often in subtle ways And she reveals how years of decisions by toymakers architects and urban planners have helped and hindered American youngsters' journeys toward independence Seen through Lange's eyes everything from the sandbox to the street becomes vibrant with buried meaning The Design of Childhood will change the way you view your children's world and your own **Index to Handicraft Books, 1974-1984** Carnegie Library of Pittsburgh. Science and Technology Department, 1986 *Designing the Creative Child* Amy F. Ogata, 2013-04-21 The postwar American stereotypes of suburban sameness traditional gender roles and educational conservatism have masked an alternate self image tailor made for the Cold War The creative child an idealized future citizen was the darling of baby boom parents psychologists marketers and designers who saw in the next generation promise that appeared to answer the most pressing worries of the age Designing the Creative Child reveals how a postwar cult of childhood creativity developed and continues to this day Exploring how the idea of children as imaginative and naturally creative was constructed disseminated and consumed in the United States after World War II Amy F Ogata argues that educational toys playgrounds small middle class houses new schools and children's museums were designed to cultivate imagination in a growing cohort of baby boom children Enthusiasm for encouraging creativity in children countered Cold War fears of failing competitiveness and the postwar critique of social conformity making creativity an emblem of national revitalization Ogata describes how a historically rooted belief in children's capacity for independent thinking was transformed from an elite concern of the interwar years to a fully consumable and aspirational ideal that persists today From building blocks to Gumby playhouses to Playskool trains Creative Playthings to the Eames House of Cards Crayola fingerpaint to children's museums material goods and spaces shaped a popular understanding of creativity and Designing the
