Retooling Study Abroad Carmen Granda, 2023-11-02 Study abroad is the ideal option for world language students to immerse themselves in the target language and culture However circumstances beyond control may make travel challenging even impossible Technology has the potential to engage students and provide an opportunity for linguistic and cultural immersion from home In addition to immersing students in the target language and culture Carmen Granda shows that technology can be implemented in all world language courses to foster connections and comparisons and most importantly create community in and outside of the classroom She demonstrates that digital tools have the power to make language learning inclusive of and accessible to all students fulfilling diversity equity and inclusion DEI goals of higher education

The Routledge Handbook of German Language Teaching Ruth Whittle, 2024-09-16 The Routledge Handbook of German Language Teaching evaluates and addresses multifaceted multilevel needs of students and teachers within teaching German as a foreign as well as a second language through taking a transcultural approach Each contribution starts with the author situating themselves in the geographical and institutional context in which they teach as well as the way in which they teach for example in person or online This acknowledges the Handbook's internationally widespread contributors from countries with different histories in terms of cultural linguistic and educational diversity more generally and the teaching of German in particular The chapters reflect their voices and consider language learners as people who have their own identities Material such as plays poems short literary texts rap singing and drawing are discussed in this book as being influential for language learners from beginner level and beyond This book proposes that learning happens by both the teachers and the learners going on a journey and both changing the outlook on

each other and themselves along that journey. Alongside this, questions are asked with respect to curricula and the relation between speaking German and belonging in a German speaking country. This Handbook will primarily appeal to teachers and instructors of German as well as those training to become German language instructors. Moreover, the book will appeal to researchers interested in the linguistic and theoretical aspects of German language teaching. *Making a Difference*

Honglin Chen, Ken Cruickshank, 2009-01-23

The rapid worldwide growth in migration, asylum seekers and refugees and reactions to this, the expansion of media and technology, political and economic changes at international and local levels are both challenges and opportunities for research in applied linguistics. This book presents 23 articles by key researchers exploring the ways in which applied linguistics can play a role making a difference in people's lives. It is a timely publication when access to powerful discourses is increasingly an issue for many of the world's populations. The book showcases the contribution of applied linguists working in such areas as language teaching and learning, policy development, discourse analysis, language assessment, language development and bilingualism in the UK, Asia and Australasia. The book is aimed at teachers, teacher educators, undergraduate and postgraduate students who are working in the areas of the applied linguistics and language education but also to anyone with an interest in language and the impact that it has on our lives. The whole idea is that so many of us live our lives applying linguistics and yet we don't even think about it.
