Tamagne, 2006 Outstanding Academic Title 2005 Choice Magazine The period between the two world wars was crucial in the history of homosexuality in Europe It was then that homosexuality first came out into the light of day Just crawling out from under the Victorian blanket Europe was devastated by a gruesome war that consumed the flower of its youth Tamagne examines the currents of nostalgia and yearning euphoria rebellion and exploration in the postwar era and the bonds forged at school and on the battlefield in a scholarly treatise charting the early days of the homosexual and lesbian scene Berlin became the capital of the new culture and the center of a political movement seeking rights and protections for what we now call gays and lesbians In England the struggle was brisk to undermine the structures and strictures of Victorianism whereas in France which was more tolerant over all homosexuality remained more subtle and nonmilitant However the social and political backlash soon became apparent first of all in Germany More conservative attitudes arrested the evolution of the new mores and it was not until the 1960s that the new wave of the sexual revolution once again swept the continent Tamagne's work outlines the long and arduous journey from the shadows toward acceptability as the homosexual and lesbian community sets out to find a new legitimacy at various levels of society She weaves together cultural references from literature songs and theater news stories and private correspondence police reports and government documents to give a rounded picture of the evolving scene The first volume argues that homosexuality a high culture sort enjoyed a golden age consequent upon the Great War's liberalization of morals In volume 2 reaction and repression march through the 1930s A lively read Highly recommended CHOICE Magazine Florence Tamagne holds a PhD from the prestigious Institute of Political Studies in Paris France This is her second book tracing the evolution of homosexuality in Europe **Changing Gay Male Identities**

performance sex class camp race and ethnicity to explore four aspects of identity the role of the body in who we are relationships and communities performing in everyday life reconciling different aspects of our selves such as religion and sexuality In *Changing Gay Male Identities* Andrew Cooper assesses the magnitude of these social and sexual changes He argues that although there are many opportunities for new forms of identity in a changing world the possibilities can be significantly constrained and that this has major implications for the freedoms and choices of individuals in contemporary societies This book will be of interest to students and scholars of sociology sexuality studies gender studies and LGBTQ studies

*Lesbian Teachers* Madiha Didi Khayatt,1992-01-01 Teachers in general are hired to conform with set values of the community which hires them They are expected to reflect conventions which correspond with an ideological model of behavior sanctioned by the state and by the community in which they work In a publicly funded educational system not only are teachers expected to transmit dominant ideologies but as representatives of the state they are assumed to embody the dominant values of the society which hires them The notion of lesbian teachers inevitably contradicts mainstream assumptions about female teachers women whose image stereotypically corresponds with and implicitly conveys traditional female virtues of purity dedication and nurturance Using an analysis that combines feminist concepts of patriarchy with Gramsci s notion of hegemony this book is an institutional ethnography which

begins from the standpoint of lesbian teachers but at the same time locates their experiences in the immediate social organization from which they arise and which gives them meaning Through intensive interviews with nineteen lesbian teachers Khayatt explores these womens lives as they themselves describe them How do they conceal their sexuality How do lesbian teachers cope in the classroom How do they deal with their perceived need to live a double life To whom do they come out Why do they feel unsafe to be out despite the potential protection of legal rights And finally what would they stand to lose if found out
