[A Medieval Life](#)

Graham Fairclough,2025-04-17 Offers a biographical and archaeological exploration of William de Felton builder of Edlingham Castle A Medieval Life William de Felton and Edlingham Castle 1260 1327 is a biography of a little known man living in late thirteenth and early fourteenth century Britain William s precise birth and death dates are unrecorded his place of origin has for a long time been unclear and his parentage is still uncertain Although somewhat wealthy and privileged William does not represent either the high aristocracy or the great and the good of his time and a central theme of this book is how to write a biography of someone relatively anonymous in the Middle Ages There are plenty of books about kings queens and battles this book offers a different perspective Its origin lies in archaeological excavations between 1978 and 1982 at Edlingham Northumberland The first house here which grew to be called a castle was built in the years around 1300 It was abandoned before the 1660s after less than four centuries of habitation and nearly three centuries before it was uncovered by excavation This book is not an excavation report however nor an architectural survey but an attempt to excavate the buried and concealed life of the castle s founder and to understand the unusual building he created It is a biographical approach to history framed by archaeological and landscape perspectives the biography of one man which illuminates the lives of those around him and serves as a biography of a place and landscape William de Felton s story can be told because he was unexpectedly well documented His career as a middle ranking servant in the royal households of Edward I and Edward II combined with the bureaucratic habits of the king s clerks has bequeathed to historians two hundred documents that mention him These documents are often individually banal but taken together and with other documentary evidence for William s family neighbours friends and colleagues they enable a reconstruction of his life They show us William as husband and father as a landowner and as a traveller moving with the king s armies and household from his native Shropshire widely around England into Wales France Flanders and Scotland perhaps slightly contrary to the idea that medieval people travelled little William began his career as an usher in the king s bedchamber and for many years was a

soldier during Edward I's reign was the early attempt to create by force a single nation on the British islands. He was an administrator or governor of occupied territories in Wales and Scotland and later a local official in his adopted Northumberland. He was also a builder notably for the king in Gascony and other places but also in his own right at Edlingham Castle the centre piece of this book now an English Heritage public property.

Bibliography of the History of Medicine , From British Peasants to Colonial American Farmers Allan Kulikoff, 2014-02-01 With this book Allan Kulikoff offers a sweeping new interpretation of the origins and development of the small farm economy in Britain's mainland American colonies. Examining the lives of farmers and their families he tells the story of immigration to the colonies traces patterns of settlement analyzes the growth of markets and assesses the impact of the Revolution on small farm society. Beginning with the dispossession of the peasantry in early modern England Kulikoff follows the immigrants across the Atlantic to explore how they reacted to a hostile new environment and its Indian inhabitants. He discusses how colonists secured land built farms and bequeathed those farms to their children. Emphasizing commodity markets in early America Kulikoff shows that without British demand for the colonists' crops settlement could not have begun at all. Most important he explores the destruction caused during the American Revolution showing how the war thrust farmers into subsistence production and how they only gradually regained their prewar prosperity.
