Willison,1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of *The Cambridge Bibliography of English Literature* The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries      Modernism Melba Cuddy-Keane,Adam Hammond,Alexandra Peat,2014-02-05 Guided by the historical semantics developed in Raymond Williams pioneering study of cultural vocabulary *Modernism Keywords* presents a series of short entries on words used with frequency and urgency in written modernism tracking cultural and literary debates and transformative moments of change Short listed for *The Modernist Studies Association* 2015 Book Prize for an Edition Anthology or Essay Collection Highlights and exposes the salient controversies and changing cultural thought at the heart of modernism Goes beyond constructions of plural modernisms to reveal all modernist writing as overlapping and interactive in a simultaneous and interlocking mix Draws from

a vast compilation of more than a thousand sources ranging from vernacular prose to experimental literary forms Spans the long modernist period from its incipient beginnings c 1880 to its post WWII aftermath Approaches English written modernism in its own terms tempering explanations of modernism often derived from European poets and painters Models research techniques based on digital databases and collaborative work in the humanities **The Mint. A Miscellany of Literature, Art and Criticism. Edited by G. Grigson** Geoffrey Grigson,1946 *The Mannerist Phase in Architecture* Lina Malfona,2025-05-02 This book frames mannerism as an inescapable stage in the creative process The mannerist phase is usually an adolescent stage of language preceding the consolidation of thought It is that period as fertile as it is anguished in which each author engages in a dialogue with his or her past reinterpreting or completely transforming it The mannerist phase is that period when architects design spaces not yet knowing what it means to design places The mannerist condition can be short lived or protracted until it becomes systemic In all cases it is a period of research experienced by architects who are also intellectuals that is architects who operate between the practice of making and the elaboration of a personal design philosophy within a perspective in which history theory and criticism are intertwined In this sense the mannerist condition can also be defined as the style of the academic thought The book explores the work of many authors analyzing their relationship to history and how they managed to emerge from its shadow Of interest to academics scholars and students exploring the theory of architecture this book offers an unconventional transtemporal reading of mannerism where facts events and images belonging to different times and spaces are juxtaposed to generate a series of temporal paradoxes

*Architecture and Ugliness* Wouter Van Acker,Thomas Mical,2020-01-09 Whatever ugliness is it remains a problematic category in architectural aesthetics alternately vilified and appropriated used either to shock or to invert conventions of architecture This book presents sixteen new scholarly essays which rethink ugliness in recent architecture from Brutalism to eclectic postmodern architectural productions and together offer a diverse reappraisal of the history and theory of postmodern architecture and design The essays address both broad theoretical questions on ugliness and postmodern aesthetics as well as more specific analyses of significant architectural examples dating from the last decades of the twentieth century The book attends to the diverse relations between the aesthetic register of ugliness and closely connected aesthetic concepts such as the monstrous the ordinary disgust the excessive the grotesque the interesting the impure and the sublime This volume does not simply document the history of a postmodern anti aesthetic through case studies Instead it aims to shed light on aesthetic problems that have been largely overlooked in the agenda of architectural theory This book answers in detail the questions How did postmodern architects appropriate troublesome contradictions bound to the raw ugliness of the real How have the ugly and the antiaesthetic been a productive force in postmodern architecture How can ugliness be of value to architecture And how can architecture make good use of ugliness *Pevsner: The Complete Broadcast Talks* Stephen Games,2016-04-22 This book brings together the surviving texts of the 113 talks on art and

architecture that we know of given by the art historian Sir Nikolaus Pevsner on radio and television between 1945 1977 It includes the seven texts of the 1955 Reith Lectures in their original broadcast form as well as lectures that Pevsner gave in German for the BBC in London and RIAS in Berlin and on the radio in New Zealand These talks are important as an example of the attempt by the BBC in particular to provide intellectual programming for the mass population The talks are important for what they reveal about changing tastes in the treatment of the arts as a broadcast topic as well as offering a case study of the development of one particular historian's approach to a subject that was gaining ground in universities as a direct result of his popularisation of it They show what topics were thought to be central to the artistic agenda in the mid years of the last century whether from an academic or journalistic perspective and reveal the mode and manner of academic engagement with the public over the period Forty six of these talks were published in 2002 on the centenary of Pevsner's birth in a trade edition At the time his reputation as an active force in architectural thinking had long been eclipsed and interest in him had waned Since then there has been a turn around in tastes and Pevsner's role within his chosen field is now being actively studied and discussed by a new generation for whom he is central to an understanding of the 20th century There is therefore a real need for this book In addition to containing twice the number of talks as the previous volume it is supplemented with explanatory introductions footnotes and citations It also reveals as far as this is possible alternative versions of Pevsner's texts as they appeared at different stages in the original production process As such this edition can be relied on by academics as scholarly and

his complex views on gender and race his relation to philosophy and theology and his idiosyncratic practice of cultural criticism The English Mannerist Poets and the Visual Arts L. E. Semler, 1998 In this study L E Semler begins with a comprehensive historical definition of Mannerism in visual arts from which he derives four key terms that constitute the nucleus of the aesthetic technical precision elegance *grazia* and the *difficulta facilita* formula These principles interwoven with one another and with *maniera* are derived from visual arts but are specifically designed to be transferable to any medium The rest of the book situates the English poets in relation to the visual arts including painting limning gold and silversmithery architecture and garden design and discusses their verse in relation to the key Mannerist principles

**Histories of the Immediate Present** Anthony Vidler, 2008-04-18 How the different narratives of four historians of architectural modernism Emil Kaufmann Colin Rowe Reyner Banham and Manfredo Tafuri advanced specific versions of modernism Architecture at least since the beginning of the twentieth century has suspended historical references in favor of universalized abstraction In the decades after the Second World War when architectural historians began to assess the legacy of the avant gardes in order to construct a coherent narrative of modernism s development they were inevitably influenced by contemporary concerns In *Histories of the Immediate Present* Anthony Vidler examines the work of four historians of architectural modernism and the ways in which their histories were constructed as more or less overt programs for the theory and practice of design in a contemporary context Vidler looks at the historical approaches of Emil Kaufmann Colin Rowe Reyner Banham and Manfredo Tafuri and the specific versions of modernism advanced by their historical narratives Vidler shows that the modernism conceived by Kaufmann was like the late Enlightenment projects he revered one of pure geometrical forms and elemental composition that of Rowe saw mannerist ambiguity and complexity in contemporary design Banham s modernism took its cue from the aspirations of the futurists and the Renaissance modernism of Tafuri found its source in the division between the technical experimentation of Brunelleschi and the cultural nostalgia of Alberti Vidler s investigation demonstrates the inevitable collusion between history and design that pervades all modern architectural discourse and has given rise to some of the most interesting architectural experiments of the postwar period Pevsner: The BBC Years Stephen Games, 2016-03-09 Pevsner *The BBC Years* gives the first full account of Sir Nikolaus Pevsner s engagement with the BBC at a time when both were the dominant institutions in their own fields Pevsner as the most persuasive figure in architecture and art history the BBC as the country s sole broadcaster A German emigr Pevsner was not at first trusted to speak on the air and was only invited to appear at the very end of the war in spite of his growing eminence in academia and publishing With the arrival of the Third Programme in 1946 however he quickly became a broadcasting celebrity and one whom senior BBC figures regarded as essential and novel listening Pevsner *The BBC Years* looks at the sudden rise in Pevsner s standing at the BBC at what he was admired for and at the circumstances surrounding his being commissioned in the mid 1950s to give the first series of Reith Lectures on an arts subject the relationship between visual

expression and national identity The book explains the roles played by Geoffrey Grigson Basil Taylor Anna Kallin and Leonie Cohn in advancing Pevsner's BBC career analyses the literary character of his broadcasting and considers the function of his talks as an extension of European belletrism It also demonstrates the significance of his concurrent editorship of the King Penguin series of books In addition Pevsner The BBC Years documents the unravelling of Pevsner's reputation It shows how he was caught between changing fashions in media culture and damaged by doubts about the safety of his ideas both within the BBC and externally among British conservatives who found him too radical and American radicals who found him too conservative In Pevsner The BBC Years correspondence from the BBC's archives provides a case study of scholarly thought being exposed to independent scrutiny a process with lessons for today

*Hut Pavilion Shrine: Architectural Archetypes in Mid-Century Modernism* Miles David Samson, 2016-03-09 The phase of American architectural history we call mid century modernism 1940 1980 saw the spread of Modern Movement tenets of functionalism social service and anonymity into mainstream practice It also saw the spread of their seeming opposites Temples arcades domes and other traditional types occur in both modernist and traditionalist forms from the 1950s to the 1970s Hut Pavilion Shrine examines this crossroads of modernism and the archetypal and critiques its buildings and theory The book centers on one particularly important and omnipresent type the pavilion a type which was the basis of major work by Louis I Kahn Paul Rudolph Philip Johnson Minoru Yamasaki and other eminent architects While focusing primarily on the architecture culture of the United States it also includes the work of British European Team X and Scandinavian designers and writers Making connections between formal analysis historical context and theory the book continues lines of inquiry which have been pursued by Neil Levine and Anthony Vidler on representation and by Sarah Goldhagen and Alice Friedman on modernism's forbidden elements of the honorific and the visually pleasurable It highlights the significance of pavilionizing mid century designers such as Victor Lundy John Johansen Eero Saarinen and Edward Durrell Stone and shows how frequently essentialist and traditionalist types appeared in the roadside vernacular of drive in restaurants gas stations furniture and car showrooms branch banks and motels The book ties together the threads in mid century architectural theory that addressed aspects of type essential structure and primal humanistic aspects of environment making and discusses how these concerns outlived the mid century moment and in the designs and writings of Aldo Rossi and others they paved the way for Post Modernism
