*The Polyphonic Mass in Early Lutheran Central Europe* DR. ALANNA. ROPCHOCK TIERNO, 2024-09-24 Investigates the reception and performance history of the polyphonic mass in Lutheran Central Europe from ca 1540 1600 The five movement polyphonic Mass Ordinary emerged from the cultural and liturgical practices of medieval Roman Catholicism and became the pre eminent large scale musical genre of early modern Europe By the end of the sixteenth century the polyphonic mass remained a core musical genre among Catholics despite gaining widespread popularity within a new institution fundamentally opposed to the Catholic Church and best known for its cultivation of vernacular liturgical music the Lutheran church This book investigates the reception and performance history of the polyphonic mass in Lutheran Central Europe from ca 1540 1600 Through careful source analysis this study presents examples of polyphonic masses composed in both Lutheran and Catholic contexts that contradict the conventional conception of the Mass Ordinary as a fixed five movement cycle with unaltered Latin texts The book draws on sixteenth century liturgical documents such as Lutheran church orders and hundreds of primary printed and manuscript sources of polyphonic masses some of these items are well known in Renaissance musicology source studies while others have received little to no scholarly attention The book s findings invite reconsideration of how the Mass Ordinary genre is defined allow for a discussion whether the polyphonic mass should be considered a bi confessional genre and present a cohesive examination of early modern liturgical music in the Germanic and western Slavic regions It offers interesting reading to scholars and students of European Renaissance and religious music as well as Reformation studies more generally

**Jan Dismas Zelenka** Janice B. Stockigt, 2000 Only in the latter half of the twentieth century did the star of Jan Dismas Zelenka begin to ascend Why did

this major Bohemian composer of the Baroque era who was known to and esteemed by Johann Sebastian Bach remain in the shadows for so long Although most of Zelenka's music was composed to serve the Catholic liturgy he left a handful of secular compositions including six remarkable chamber sonatas When these were first published in the 1960s the resurrection of the almost forgotten Zelenka was heralded Drawing upon surviving musical materials contemporary accounts and Jesuit documentation this volume presents insights into Zelenka's life and his music and the brilliant context in which he worked the Dresden court during the reigns of the Kings of Poland and Electors of Saxony Friedrich August I and II A catalogue of Zelenka's compositions is also included *Missa Paschalis* Winfred Douglas, 1916 **Canons and Canonic Techniques, 14th-16th Centuries** Katelijne Schiltz, Bonnie J. Blackburn, 2007 Although canons pervade music of the Middle Ages and the Renaissance they have not received proportionate attention in the musicological literature The contributions in this book shed light on canons and canonic techniques from a wide range of perspectives such as music theory and analysis compositional and performance practice palaeography and notation as well as listening expectations and strategies Especially in the case of riddle canons insights from other disciplines such as literature theology iconography emblematics and philosophy have proved crucial for a better understanding and interpretation of how such pieces were created The essays extend from the early period of canonic writing to the seventeenth century ending with three contributions concerned with the reception history of medieval and Renaissance canons in music and writings on music from the Age of Enlightenment to the present This book was awarded the Special Citation by the Society for Music Theory in November 2008 **Catalog of Copyright Entries** Library of Congress. Renaissance By limiting its scope to the 120 years which witnessed perhaps the most dramatic expansion of our musical heritage the book responds in the 1990s to the tremendous increase in specialised research and public awareness of that period Three of the four main Parts I II IV describe the development of polyphony and its cultural contexts in many European countries from the successors of Machaut d 1377 to the achievements of Josquin des Prez and his contemporaries working in Renaissance Italy around 1500 Part III by contrast illustrates the musical life of the institutions and musical practices outside the realm of composed polyphony that were traditional and common all over Europe The book proposes fresh views in each chapter discussing dozens of musical examples adducing well known and hitherto unknown documents and referring to and evaluating the most recent scholarship in the field
