between how political systems see us and how we see each other The search for people who go missing as a result of war political violence genocide or natural disaster reveals how forms of governance that objectify the person are challenged Contemporary political systems treat persons instrumentally as objects to be administered rather than as singular beings the apparatus of government recognizes categories not people In contrast relatives of the missing demand that authorities focus on a particular person families and friends are looking for someone who to them is unique and irreplaceable In *Missing* Jenny Edkins highlights stories from a range of circumstances that shed light on this critical tension the aftermath of World War II when millions in Europe were displaced the period following the fall of the World Trade Center towers in Manhattan in 2001 and the bombings in London in 2005 searches for military personnel missing in action the thousands of political disappearances in Latin America and in more quotidian circumstances where people walk out on their families and disappear of their own volition When someone goes missing we often find that we didn't know them as well as we thought there is a sense in which we are missing even to our nearest and dearest and even when we are present not absent In this thought provoking book Edkins investigates what this more profound missingness might mean in political terms *Missing* Barry Cummins, 2019-05-25 From 1950 to the present day there have been almost 900 long term missing people in Ireland The equivalent of a vibrant village all gone vanished without a trace Where did they go Are they dead or still alive somewhere How many have been murdered How many killers have got away with their crimes RT journalist Barry Cummins has reported on the unsolved cases of Ireland's missing for decades In this new edition of his bestselling book he examines the latest leads and developments of Ireland's most high profile missing cases including the women who disappeared under eerily similar circumstances in the 1990s and whose bodies have never been found Written with the assistance of the garda and the families concerned *Missing* is a comprehensive and shocking account of the cases that have in turn fascinated puzzled and horrified the Irish public It also examines the possibility that there may be a serial killer out there who has gone to extraordinary lengths to evade justice leaving open the possibility that they could strike again *Lifers* Barry Cummins, 2004-10-26 There have never been so many killers in Irish prisons Nearly 1 in 10 Irish prisoners are serving life sentences for murder and many more are on temporary release Hardened crime reporter Barry Cummins tells the shocking true stories of some of Ireland's most notorious murderers and their horrific crimes *Lifers* covers savage killings going back more than 50 years This book gives a full account of these depraved crimes through the investigation trial and sentencing of the killers to life in prison They include Father of five John Crerar convicted on DNA evidence from a semen sample 23 years after he brutally raped battered and strangled an innocent young woman who had been out Christmas shopping Mark Nash who stabbed a couple to death in a frenzied attack and seriously assaulted another woman in a house where six children lay sleeping Brian Willoughby who jumped and danced on his teenage victim's head while out on bail for three horrific random assaults on men in Dublin city As this harrowing but compelling book shows the criminals may not get away with murder but

it's the victims' families who really suffer a life sentence      *The Grangegorman Murders* Alan Bailey, 2015-07-31 On the morning of 7 March 1997 the bodies of two elderly female patients were discovered in their sheltered accommodation at Grangegorman Psychiatric Hospital in Dublin. It would be a further 16 years before Mark Nash was convicted of the notorious Grangegorman murders but not before Dean Lyons, an innocent man, spent months in prison for a crime he did not commit only to tragically die of a heroin overdose before his name was cleared. Here Alan Bailey, a retired member of the Garda Síochána who worked on the original case and who always insisted Lyons was innocent, recalls the investigation of the most brutal murders in Irish criminal history and how pressure on the Garda Síochána to solve the crime led to one of the greatest miscarriages of justice in the history of the Irish state      *Missing* Barry Cummins, 2003 Examines the cases of Ireland's women and children who have vanished in sinister and mysterious circumstances. Looking at who may be responsible for these disappearances, this book outlines the fact that some of Ireland's most cold and calculating killers have not been caught.

Geoforensics Alastair Ruffell, Jennifer McKinley, 2008-10-13 This book is a comprehensive introduction to the application of geoscience to criminal investigations. Clearly structured throughout, the text follows a path from the large-scale application of remote sensing, landforms and geophysics in the first half to the increasingly small-scale examination of rock and soils to trace amounts of material. The two scales of investigation are linked by geoscience applications to forensics that can be applied at a range of dimensions. These include the use of topographic mapping, x-ray imaging, geophysics and remote sensing in assessing whether sediment, rocks or concrete may have hidden or buried materials inside, for example drugs, weapons, bodies. This book describes the wider application of many different geoscience-based methods in assisting law enforcers with investigations such as international and national crimes of genocide and pollution, terrorism and domestic crime as well as accident investigation. The text makes a clear link to the increasingly important aspects of the spatial distribution of geoscience materials, be it soil sampling or the distribution of mud spatter on clothing. Geographic Information Science and geostatistics. A comprehensive introduction to the application of geoscience to criminal investigation. Examples taken from an environmental and humanitarian perspective in addition to the terrorist and domestic criminal cases more regularly discussed. A chapter on the use of GIS in criminalistics and information on unusual applications and methods, for example underwater scene mapping and extraterrestrial applications. Material on how geoscience methods and applications are used at a crime scene. Accompanying website including key images and references to further material. An invaluable text for both undergraduate and postgraduate students taking general forensic science degrees or geoscience courses. The whole book is peppered with useful and appropriate examples from the authors' wide experiences and also from the wider literature. An essential purchase for any forensic science department as well as for any law enforcement organisation. Lorna Dawson, Macaulay Institute      *Moments that Changed Us* Colum Kenny, 2005 A fascinating look at moments and events in Ireland's recent past that gives a unique insight into the transformation of Ireland. interprets Ireland and the Irish for the twenty first century      *The Lost (Paula Maguire 1)* Claire McGowan,2013-04-11 Not everyone who s missing is lost Hard hitting and unputdownable THE LOST follows Forensic psychologist Maguire back to her hometown in the search for two missing girls This exhilarating introduction to the Paula Maguire series by Claire McGowan is sure to grip fans of Elly Griffiths and LJ Ross Claire McGowan is a knockout new talent Lee Child When two teenage girls go missing along the Irish border forensic psychologist Paula Maguire has to return to the hometown she left years before Swirling with rumour and secrets the town is gripped by fear of a serial killer But the truth could be even darker Not everyone who s lost wants to be found Surrounded by people and places she tried to forget Paula digs into the cases as the truth twists further away What s the link with two other disappearances from 1985 And why does everything lead back to the town s dark past including the reasons her own mother went missing years before Nothing is what it seems As the shocking truth is revealed Paula learns that sometimes it s better not to find what you ve lost What readers are saying about The Lost Well written and keeps you guessing The best book I have read this year Fantastic read Had me gripped from start to finish I just couldn t put it down Highly recommended Compelling and thrilling Claire McGowan has a clever ease of storytelling that draws you in and leaves you wanting more

**The Guarding of Ireland - The Garda Síochána and the Irish State 1960-2014** Conor Brady,2014-09-26 A very timely analysis of the Garda Síochána the Irish police force as it navigates one of the most difficult years since its foundation It is a story marked by success and failure by attempted reform and resistance to change by outstanding individual performance and deplorable lapses in discipline More than an account of policing and politics this is the story of the Republic s troubled coming of age In this excellent history of the Garda Síochána the Irish police force Conor Brady the most authoritative historian of Irish policing explores its successes its failures and the biggest challenges it has faced from 1960 to 2014 and looks at the recent spate of crises around the Garda Síochána Ombudsman Commission GSOC leading to the resignation of Justice Minister Alan Shatter and Garda Commissioner Martin Callinan that have rocked the force to its very core Beginning with one of the Garda s greatest tests maintaining the security of the Irish State during the Northern crisis and the Troubles Brady goes on to chronicle the emergence of guns in Irish criminal life and the rapid expansion of the domestic drug trade and related gangland warfare focussing on the interactions of the Garda and major Irish crime kingpins including Martin the General Cahill Gerard the Monk Hutch and John Gilligan alleged killer of Veronica Guerin Acknowledged as one of the successes of the independent Irish State the Garda Síochána has not been without its flaws and its failings and the author does not shy away from exploring these The Guarding of Ireland comprehensively covers the recent crisis surrounding the alleged bugging of the Garda Síochána Ombudsman Commission GSOC privacy concerns in relation to the recording of Garda phone calls and the penalty points whistle blower controversy that led to the resignation of Garda Commissioner Martin Callinan and Justice Minister Alan Shatter Other fascinating subjects explored are how the supposed operational independence of the organisation has led to clashes with those in

political authority from Charlie Haughey to Desmond O Malley the difficulties surrounding structural reform and the author's thesis that there is a distinct correlation between the political health of the State and the way its police discharge their functions. *The Guarding of Ireland* focuses on Irish policing from 1969 which saw both the publication of the Conroy report and the commencement of the Troubles up to the current and ongoing scandals that this year have led to the resignation of both a commissioner and a minister for justice. *The Guarding of Ireland* is hellip as much an analysis of the politics of policing as it is of the policing itself. The Troubles, the modernisation of the force and the rise in crime, drugs and organised crime are all documented in a style that is detailed but still engaging. Vicky Conway, *The Irish Times Weekend Review*. *The Guarding of Ireland* traces the history of An Garda Siochana from 1960 to the present day. It is a fascinating narrative that should be compulsory reading for anybody associated with the current attempts to reform the force and how it is governed. For every vignette of personal heroism like that of Garda Michael Reynolds for every case of dedicated public service from individual members there are also examples of a culture that leaves much to be desired. What emerges from these pages is that the culture within the force is attributable to a great extent to attitudes and oversight from its political masters. In this regard nothing looms as large as the darkest days of the Troubles. Mick Clifford, *Irish Examiner*.

**Winning from Downunder** Noel Tunney, 2010. *WINNING FROM DOWNUNDER* discusses the three advantages namely Leadership, Largesse and Luck enjoyed by the U.S.A. and Australia that brought the Japanese conquest of South East Asia and much of the Pacific to an end. The book gives insights into the personalities of the senior leaders of the Allies as revealed by their own actions and by the opinions expressed by their contemporaries. Some contentious topics are analysed such as what did Churchill and Roosevelt know about the Japanese plans before Pearl Harbour, the facts behind L.B. Johnson's visit to Australia and his receipt of a Silver Star Medal and whether or not there was a Brisbane Line defense planned for Australia. When discussing the Atomic Bombing, the Women who went to War, the Heroism and the Brutality of War, this book is faithful to Lord Byron's belief that there are deeds that should not pass away and names that should not be forgotten and the observation of Sir George MacAuley Trevelyan referring to the impelling poetry of truth in *Historical Study*.

**Transitional Justice and the 'Disappeared' of Northern Ireland** Lauren Dempster, 2019-06-11. This book employs a transitional justice lens to address the disappearances that occurred during the Northern Ireland conflict or Troubles and the post conflict response to these disappearances. Despite an extensive literature around dealing with the past in Northern Ireland as well as a substantial body of scholarship on disappearances in other national contexts there has been little scholarly scrutiny of disappearances in post conflict Northern Ireland. Although the Good Friday Agreement brought relative peace to Northern Ireland no provision was made for the establishment of some form of overarching truth and reconciliation commission aimed at comprehensively addressing the legacy of violence. Nevertheless a mechanism to recover the remains of the disappeared, the Independent Commission for the Location of Victims' Remains (ICLVR) was established and has in fact proven to be quite effective. As a

result the reactions of key constituencies to the disappearances can be used as a prism through which to comprehensively explore issues of relevance to transitional justice scholars and practitioners Pursuing an interdisciplinary approach and based on extensive empirical research this book provides a multifaceted exploration of the responses of these constituencies to the practice of disappearing It engages with transitional justice themes including silence memory truth acknowledgement and apology Key issues examined include the mobilisation efforts of families of the disappeared efforts by a former non state armed group to address its legacy of violence the utility of a limited immunity mechanism to incentivise information provision and the interplay between silence and memory in the shaping of a collective societal understanding of the disappeared

**American Book Publishing Record ,2004      The Downfall of the Spanish Armada in Ireland Ken**

Douglas,2009-09-25 The English navy inflicted a narrow defeat on the Armada but it was the Irish coast that encompassed its downfall Heed that coast The Duke of Medina Sidonia wanted only to guide La Felissima Armada home safely In the North Sea he issued sailing instructions which if they had been followed would have given the Armada a safety margin of at least 300 miles He particularly ordered them to take great heed lest you fall upon the island of Ireland for fear of the harm that may happen unto you upon that coast They were in no doubt that Ireland was to be avoided His words proved to be more than a warning they were a prophecy which was inexorably fulfilled A siren of alluring beauty the Irish coast also conceals deadly danger Destiny was to conspire to transform it into an instrument of terrible destruction and tragic loss of life In the Atlantic the Armada encountered continuous southerly winds and unknown ocean currents It was two centuries before it became possible to calculate longitude at sea and they were unaware that they had not sailed far enough westwards to give themselves the prescribed safety margin They became separated and lost and when they at last turned southwards scattered groups unintentionally descended on Ireland arriving at fourteen different locations from Donegal to Kerry Many found shelter but a few were lost But on 21 September 1588 fourteen ships were destroyed by hurricane force winds the only occasion during the entire voyage when ships were completely destroyed by the weather A most extreme and cruel storm the Irish described it The Spanish recorded that in the morning it began to blow from the west with a most terrible fury bright and with little rain Ships that had stayed at sea survived In Donegal Bay the galleass Girona had sheltered with about 1 000 men In October Don Alonso de Leyva arrived with almost 1 000 more His entourage included young men from all the noble families of Spain After being repaired the Girona departed for Scotland at the end of October overloaded with 1 300 survivors She so nearly got there but foundered near the Giant s Causeway with the loss of de Leyva and the flower of Spanish nobility In all 24 Spanish ships were lost in Ireland and about 5 000 men died far greater losses than had been suffered in the English Channel The English navy inflicted a narrow defeat on the Armada but it was the Irish coast that encompassed its downfall Long before it had been surveyed and charted when it was almost as unknown to mariners as the surface of the moon for a few brief months in the autumn of 1588 the Irish coast was caught in the headlights of history      **Pushing Back John**
