Ghaly FACS, MD, 2019-08-26 This is the twelfth book of the series Christianity and the Human Brain It integrates the neuroscience and the Bible the Holy Book of our Lord Jesus My love for our Lord Jesus Christ abides with my lifetime passion for neurosurgery and medicine my continual obsession of spiritual connectivity of the Holy Spirit to the human brain that indeed separates mankind from all other living creation It has been my belief that the human brain does not limit itself to the physical skull but rather extends in a nonphysical form to the outside spiritual world even while living on earth In other words a big part of the human brain is actually outside the skull and the body As I perform brain surgeries for three decades I realize my theory is so true The majestic human brain can't be just the 1 500 grams of jelled matter inside the skull The human journey therefore is transforming the human brain to become a brain of a man of God and the hand of man to a hand of a man of God The spiritual human brain never dies only the flesh It is the center of my calling and unrelenting meditations while roaming in the heartfelt spirit lacking the physical proof that science demand of me My life is dedicated to my Lord Jesus patients and residents As a physician I have reached the top in America I am a professor of both neurological surgery and anesthesiology and I am well published in famous medical journals As an academic teacher I trained for more than thirty four years graduating thousands of trainee But all is nothing as I strive for the Christian holiness and fullness In a weeping healthcare with many patients falling victims I included actual patients miracles testimonials and sincere quotes as a testament to the Almighty and the dire need for faith and integral goodhearted medicine This book is full of many vibrant stories that I love to share It is timely since I consider my generation soon will be viewed obsolete to the future generations and what will remain are the books I authored The book is a text of wealth covering broad and diverse topics of my life's journey in 134 chapters and organized over 14 sections So many chapters are written about my special love for Lord Jesus Christ and His children In poems deep reflections and spiritual release of mind I wrote extensively In fact I shut my senses and impersonated the human brains of the men of God and the children of the Most High in their prominent biblical stories A special section is dedicated to the mothers newborns and little children While my soul is grieving a section is designated on the ongoing Christian persecution especially the genocide of Christians in my country Egypt the ancient region of the Middle East and the oldest historic continent of Africa Furthermore I wrote some of my dreams and thoughts that I couldn't otherwise convey for one reason and another such as neuroscience in aerospace and some of the timely touching subjects like drug overdose human trafficking and healthcare crises Few chapters included are about my personal views and introducing spirituality into the recent turmoil in politics Friends human life starts with love

and ends with eternal love for our Savior It is never enough to share our love write about love and talk about actual love stories of heavenly roses joy Christmas healing touch miracles and our calling for his purpose This is what my twelfth book is all about

Education Is Freedom: The Future Is in Your Hands James W. Keyes,2024-02-27 Education is Freedom explores the transformative power of education and its ability to liberate individuals and societies from the constraints of ignorance inequality and oppression In this book author James Keyes explores the ways education empowers people to take control of their lives to pursue their dreams and to contribute to the world in meaningful and fulfilling ways He provides a roadmap to the why what and how of learning The book outlines the importance of education for all mankind the power of education to change our world and the wisdom to unlock our personal freedom while preserving our democracy Where does humanity go to school Democracy across the world is at risk With the polarization of today s society the foundational right to freedom of speech is now being challenged from all sides The truth is under siege as misinformation and hostility have replaced critical thinking and civil discourse Our freedom of self determination has a prerequisite an informed electorate If that electorate is armed with false information or is influenced by outside forces their actions and reactions can put democracy in jeopardy Today more than ever we must nurture the education knowledge and wisdom of individuals to discern right from wrong truth from fiction and success from failure If learning is the key to success then how can humanity advance its own cause Our forefathers recognized that an educated populace was the very foundation of democracy Education is a self help guide for humanity that allows us to individually and collectively understand the roadmap to freedom For the individual education is the one common denominator that separates those who are free from the ones trapped in their own reality Someone can take your money your material things your job but they can t take away what you know With knowledge you can replace anything lost you can be free to explore the world you are beholden to no one Whatever challenges or adversity you face in life embracing a learning mentality will empower you and set you free Humanity must indeed go back to school because the future is in our hands
