Missionary Methods: St. Paul's or Ours? Missionary Methods Roland Allen, 2015-07-13 Excerpt from Missionary Methods St Paul's or Ours a Study of the Church in the Four Provinces In no branch of human knowledge has there been a more lively increase of the spirit or research during the past few years than in the study of Theology Many points of doctrine have been passing afresh through the crucible re statement is a popular cry and in some directions a real requirement of the age the additions to our actual materials both as regards ancient manuscripts and archaeological discoveries have never before been so great as in recent years linguistic knowledge has advanced with the fuller possibilities provided by the constant addition of more data for comparative study cuneiform inscriptions have been deciphered and forgotten peoples records and even tongues revealed anew as the outcome of diligent skilful and devoted study Scholars have specialized to so great an extent that many conclusions are less speculative than they were while many more aids are thus available for arriving at a general judgment and in some directions at least the time for drawing such general conclusions and so making practical use of such specialized research seems to have come or to be close at hand Many people therefore including the large mass of the parochial clergy and students desire to have in an accessible form a review of the results of this flood of new light on many topics that are of living and vital interest to the Faith and at the same time practical questions by which is really denoted merely the application of faith to life and to the needs of the day have certainly lost none of their interest but rather loom larger than

ever if the Church is adequately to fulfil her Mission It thus seems an appropriate time for the issue of a new series of theological works which shall aim at presenting a general survey of the present position of thought and knowledge in various branches of the wide field which is included in the study of divinity About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works **Missionary Methods, St. Paul's Or Ours** Roland Allen,2019-06-19 Roland Allen discusses how to conducts successful missions comparing his own church s methods with the historical descriptions of the famous missionary of yore St Paul Comprehensive and instructional this book seeks to show the interested reader how an effective Christian mission is planned and undertaken Practical elements include the selection of a location and an evaluation of the social and moral condition of the local area The author attempts to draw comparisons with St Paul s own circumstances the world is shown to have moved on in many respects with conditions such as slavery far rarer in modernity than the distant past Chapters are dedicated to matters such as the teaching of the gospels the classic Christian missionary texts to instruct upon are those of Matthew Mark Luke and John A expert narration of Christ s life and lessons reliably told from memory and sufficient to capture and hold the interest of listeners is shown to be of essential use on most any mission **Paul's Missionary Methods** Robert L. Payne,2013-06-15 One hundred years ago Roland Allen authored his landmark study Missionary Methods St Paul s or Ours The 2012 annual conference of the Evangelical Missiological Society celebrated this centennial by addressing this ever relevant topic The present volume brings to readers insights from that conference examining the theological foundations historical precedence and practical challenges regarding missionary methods Missiologists missionary practitioners and strategic leaders alike will benefit from these essays which give fresh perspective on methods for fulfilling the Great Commission in our day **Paul's Understanding of the Church's Mission** Robert L. Plummer,2006-06-01 Did Paul expect his churches to engage in evangelistic activity which mirrored his own Or have modern readers of the Bible wrongly

projected Paul's apostolic passion upon the communities that he founded. Such is the charge of several recent authors and if their thesis is correct nothing could have larger implications for how the modern church engages in mission. In this book Robert L. Plummer engages in a careful study of Paul's letters to determine if the apostle expected the communities to which he wrote to engage in outward directed missionary activity. Plummer helpfully summarizes the discussion to date on the debated issue, judiciously handles contested texts and provides a way forward in addressing this critical question. While admitting that Paul rarely explicitly commands the communities he founded to evangelize, Plummer amasses significant incidental data to provide a convincing case that Paul did indeed expect his churches to engage in outward directed missionary activity. Throughout the study Plummer progressively builds a theological basis for the church's mission that is both compelling and distinctively Pauline.
