States in the Twentieth Century Günter Bischof, 2014-04-28 After the breakup of the Habsburg Monarchy the Austrian American relationship was characterized by a dwarf confronting a giant America continued to be a heaven for a better life for many Austrian emigrants For the growing American preponderant position in the world after World War I the small Austrian Republic was insignificant And yet there were times when Austria mattered geopolitically During the post World War II occupation of Austria the U S helped reconstruct Austria economically and was the biggest champion of its independence During the Cold War the U S frequently used Austria as a mediator site of summit meetings American mass production models consumerism and popular culture were adopted by Austrian youth Americanization and American preponderance also produced anti Americanism With the end of the Cold War and Austria s accession to the European Union it once again lost significance for Washington s geopolitics

Americanization and Anti-americanism Alexander Stephan, 2007-08-01 The ongoing discussions about globalization American hegemony and September 11 and its aftermath have moved the debate about the export of American culture and cultural anti Americanism to center stage of world politics At such a time it is crucial to understand the process of culture transfer and its effects on local societies and their attitudes toward the United States This volume presents Germany as a case study of the impact of American culture throughout a period characterized by a totalitarian system two unusually destructive wars massive ethnic cleansing and economic disaster Drawing on examples from history culture studies film radio and the arts the authors explore the political and cultural parameters of Americanization and anti Americanism as reflected in the reception and rejection of American popular culture and more generally in European American relations in the American Century
