Mitchell Beazley Pocket Guide Opera:

Opera George Henry Hubert Lascelles Earl of Harewood, 2009 *Hi-fi News & Record Review*, 1994 Opera on CD 1995 Julian Haylock, Alexander Waugh, 1994 **Books Magazine**, 1995 **The Marriage between Perfume and the Lyric Stage** Mary May Robertson, 2023-09-22 But what is this scent of balmy air What this ray of light in my tomb I seem to see an angel amid a scent of roses sings Florestan in Fidelio Beethoven's only opera The role of scents smells fragrances and odours in opera has long been neglected just as how much opera and its stars have influenced the world of perfumery from the nineteenth century to the present day In the first book length study on the topic Professor Mary May Robertson explores the relationship between opera perfumes and their respective protagonists in order to map out the previously undiscussed connection between the two Through compelling close readings of librettos and rigorous research through thousands of bottles of perfume the reader will come to appreciate and recognise the influences and exchanges between operas and perfumes and their ultimate marriage in the previously unrecognised genre of Operatic Perfumes which is to say perfumes named after operas composers and their divas International Who's who in Classical Music, 2009 Popular Music Roman Iwaschkin, 2016-04-14 This is a comprehensive guide to popular music literature first published in 1986 Its main focus is on American and British works but it includes significant works from other countries making it truly international in scope

Whitaker's Books in Print, 1998 *Opera on CD* 1996 Julian Haylock, Alexander Waugh, 1995 This unique portable and easy to use handbook gives authoritative recommendations for every single opera and operetta available on CD It includes over 500 works in total each accompanied by a thumb nail synopsis of the plot Opera on CD 1994 Julian Haylock, Alexander Waugh, 1993 *Europe*, 2000 The western edge of the Asian land mass the smallest of the continents the old continent is many worlds in one From the arid hillsides of Spain to the icy solitudes of the Far north or Iceland where ice and fire have existed side by side since the dawn of time Europe offers a unique range of natural settings The sandy or rocky coasts of the Mediterranean and the Atlantic the high peaks of the Alps the volcanoes of the Auvergne or Italy great plains such as the Hungarian Puszta immense forests such as the Black Forest of Germany Europe is all of these The Literary Review, 1994 **Multimodal Stylistics of the Novel** Nina Nørgaard, 2018-10-08 This book advocates for a new analytical framework that extends our understanding of multimodal meaning making in the novel Integrating theoretical traditions from stylistics and the influential social semiotic approach to multimodal communication developed by Kress and van Leeuwen Nørgaard applies this method of analysis in order to build on existing stylistic practices that look at linguistic features in the novel to encompass other semiotic resources found in the form such as typography layout images paper and book cover design The volume grounds the discussion with supporting examples from novels that feature experimentation with multiple semiotic resources as well as more traditional novels furthering the argument that all novels are inherently multimodal Offering new insights and tools for unpacking multimodal meaning making in this critical literary genre this volume is an

indispensable resource for graduate students and researchers in multimodality stylistics and literary studies Historical Dictionary of Opera Scott L. Balthazar, 2013-07-05 Opera has been around ever since the late 16th century and it is still going strong in the sense that operas are performed around the world at present and known by infinitely more persons than just those who attend performances On the other hand it has enjoyed periods in the past when more operas were produced to greater acclaim Those periods inevitably have pride of place in this Historical Dictionary of Opera as do exceptional singers and others who combine to fashion the opera whether or not they appear on stage But this volume looks even further afield considering the cities which were and still are opera centers literary works which were turned into librettos and types of pieces and genres While some of the former can be found on the web or in other sources most of the latter cannot and it is impossible to have the whole picture without them Indeed this book has an amazingly broad scope The dictionary section with about 340 entries covers the topics mentioned above but obviously focuses most on composers not just the likes of Mozart Verdi and Wagner but others who are scarcely remembered but made notable contributions Of course there are the divas but others singers as well and some of the most familiar operas Don Giovanni Tosca and more Technical terms also abound and reference to different genres from antimasque to zarzuela Since opera has been around so long the chronology is rather lengthy since it has a lot of ground to cover and the introduction sets the scene for the rest This book should not be an end but rather a beginning so it has a substantial bibliography for readers seeking more specific or specialized works It is an excellent access point for readers interested in opera Harrods Book of Fine Wine Joanna Simon, 1990 Twenty four of the world's top writers on wine have joined forces to create a unique and beautiful guide to fine wine It portrays the world of wine through a series of profiles of great wine estates and the people who run them *Gramophone*, 1996 **The British National Bibliography** Arthur James Wells, 2001 **Yearbook of Corpus Linguistics and Pragmatics 2014** Jesús Romero-Trillo, 2014-06-02 The Yearbook of Corpus Linguistics and Pragmatics addresses the interface between the two disciplines and offers a platform to scholars who combine both methodologies to present rigorous and interdisciplinary findings about language in real use Corpus linguistics and Pragmatics have traditionally represented two paths of scientific thought parallel but often mutually exclusive and excluding Corpus Linguistics can offer a meticulous methodology based on mathematics and statistics while Pragmatics is characterized by its effort in the interpretation of intended meaning in real language This series will give readers insight into how pragmatics can be used to explain real corpus data and also how corpora can illustrate pragmatic intuitions The present volume Yearbook of Corpus Linguistics and Pragmatics 2014 New Empirical and Theoretical Paradigms in Corpus Pragmatics proposes innovative research models in the liaison between pragmatics and corpus linguistics to explain language in current cultural and social contexts *International Who's Who of Authors and Writers 2008* Europa Publications, 2007-08-23 An invaluable source of information on the personalities and organizations of the literary world **Bookseller and the Stationery Trades' Journal**, 1980
