*Global Smarts* Sheida Hodge, 2000-04-18 It may not surprise you to learn that seventy percent of cross border joint ventures fail within the first three years But did you know that the reason most commonly cited by transnational executives for this phenomenal failure rate isn't geopolitics global competition or economic volatility but culture clash As one frustrated transnational manager quipped How are you supposed to get all your ducks in a row when half of them think they're turtles Why despite the vast sums spent each year on cross cultural executive training do so many well laid business plans continue to fall apart under the strain of cultural differences Author Sheida Hodge finds the answer in the training itself which typically focuses on the ten percent of the iceberg above the surface how to bow or shake hands whether to cross your legs what gestures to use Much more dangerous is the ninety percent of the iceberg that is under water the deep seated cultural values on which unsuspecting executives routinely founder In this book as in her world renowned training courses and seminars Hodge departs from the common practice of drilling readers in the do's and don'ts of doing business in various cultures She concentrates instead on helping you build cross cultural competence by acquainting you with the basic values beliefs and biases that inform the business styles in most Asian Latin American and European cultures Rather than simply offering tips on how to eat and what colors to wear which do appear in abundance throughout the book she coaches you in a proven set of strategies and skills that will enable you to successfully navigate the people dimension of doing business virtually anywhere in the world For Hodge learning to see past one's own cultural hobbyhorses

while avoiding getting trampled by everyone else's is the first big step toward succeeding in global business. Thus most of her discussions of specific cultural differences start by exploring values and business practices that seem natural to North Americans and go on to show how they differ from values and practices in other cultures. To better illustrate her points she has included anecdotes throughout told by managers from North America and around the world that provide vivid, sometimes hilarious, object lessons in how minor cultural frictions and misunderstandings can mushroom into major business disasters. A complete guide to building solid cross border business relationships, *Global Smarts* is must reading for all managers and entrepreneurs in today's global business world. Proven strategies for breaking down cultural barriers and building prosperous business relationships anywhere in the world. American executives need to know how to communicate effectively with their associates around the world to remain competitive. In *Global Smarts*, Sheida Hodge, a successful international entrepreneur and one of the most sought after cross cultural business trainers, shares her proven strategies for successfully dealing with such issues as language barriers, culture shock, international negotiation tactics, and how to establish trust on a cross cultural basis. Unlike other authors who merely list the various do's and don'ts of doing business in specific regions, Hodge helps you to develop a high degree of cross cultural competency that translates into an unbeatable competitive edge virtually anywhere in the world. Packed with practical insider tips and eye opening anecdotes from cross cultural managers from the United States and other countries, this thoroughly engaging guide is an indispensable resource for anyone doing business in today's global business world.

*Global Citizens* Marjorie Mayo, 2008-02-29. The dawn of the twenty first century has been accompanied by an upsurge of anti capitalist campaigning challenging the very basis of the New World Economic order. Dramatic events such as the protests from Seattle to Genoa have captured media headlines. But media headlines leave key questions unanswered: questions about the ultimate significance of the challenges posed by global social movements and the development of civil society, both South and North. This book sets out to explore the lessons from these experiences of social mobilisation. How can non governmental organisations, community based organisations, and the labour and trade union movement develop effective campaigning alliances without becoming institutionalised and incorporated themselves? How can they maintain an effective balance between winning immediate gains without losing sight of longer term strategies for transformation? How can they work with celebrities to gain media attention without losing control of the message? And how can social movements develop organisational forms that are genuinely representative and democratically accountable globally? These questions are explored

through case studies of particular networks movements and campaigns to tackle the causes of social inequality and social injustice It concludes by exploring lessons for building global challenges to neo liberal agendas and developing more transformatory approaches      **Theory and Practice of Case Method of Instruction** B. Bhattacharyya,2009 With reference to India      **International Human Resource Management in Japanese Firms** T. Keeley,2001-09-25 This book examines possibly the greatest challenge facing Japanese multinationals as they continue to expand their foreign direct investment how to integrate local managers into the management process of overseas subsidiaries as well as in that of the parent companies themselves In the majority of Japanese subsidiaries management control has remained in the hands of Japanese managers at extremely high cost but now Japanese firms are being forced to consider integrating local nationals into the management process of their companies a process which may yield significant competitive advantage
