Psychoanalysis of Aging and Maturity Guillermo Julio Montero, 2020-08-30 As developing countries increasingly confront the issues of an aging population this important book identifies the key period in the life cycle in which changes to the body as well as concomitant psychological developments result in the entering of a new phase of life maturation The author defines the metapsychology of maturation from a

psychoanalytic standpoint detaching it from the concepts of midlife and middle age Supported by clinical examples the book defines the stimuli which are the precursors to this phase before examining the complete set of psychological challenges it entails The author also highlights how maturescence has been illustrated in key literary figures in the 20th century and draws parallels with the mythical cycle of the hero This fascinating and original book will be a essential reading for psychoanalysts psychotherapists and any professional working with issues around aging

Middle Age Christopher Hamilton, 2014-12-05 Middle age for many marks a key period for a radical reappraisal of one's life and way of living The sense of time running out both from the perspective that one's life has ground to a halt and from the point of view of the greater closeness of death and the sense of loneliness engendered by the compromised and wasteful nature of life become ever clearer in mid life and can lead to a period of dramatic self doubt In this book the philosopher Christopher Hamilton early 40s explores the moods emotions and experiences of middle age in the contemporary world seeking to describe and analyze that period of life philosophically Hamilton draws on his own personal experiences of turning 40 as well as a wide range of sources from the philosophical writings of Schopenhauer Nietzsche Hegel Heidegger to the literature of Tolstoy Dostoevsky Conrad and the films of Woody Allen to offer us a philosophy of middle age Some of the many fascinating themes explored include the strong sense of nostalgia experienced in mid life of loss for one's youth and of regret the sense that life has become boring the recognition that one can never fully escape feelings of guilt and central to the experience of middle age the question of what is the point of going on at all In the light of the melancholy wisdom of mid life Hamilton suggests that pleasure becomes much more important than at previous stages of life and he shows that the enjoyment of pleasure can be something noble Insightful entertaining and thought provoking *Middle Age* is fascinating reading and for anyone heading for a mid life crisis it is much cheaper than buying a sports car

Midlife Myths and Realities William Van Hoose, 1985-04 The middle years in life are often associated with disturbing terms such as midlife crisis and middle aged crazy But these catchy terms are only misleading myths Dr Van Hoose claims citing research and case histories to support this positive look at midlife Midlife is a time filled with opportunity for personal fulfillment Most midlife age people are more independent and financially secure than they have ever been before Midlife adults are reaching the peak of productivity and they occupy most of the positions of power and influence in our society This common sense and upbeat look at midlife should dispel the fears so many people share as they approach middle age
