**Improving Your Waterfront**, 1980      Interior Urbanism Charles Rice, 2016-02-25 Vast interior spaces have become ubiquitous in the contemporary city The soaring atriums and concourses of mega hotels shopping malls and transport interchanges define an increasingly normal experience of being inside in a city Yet such spaces are also subject to intense criticism and claims that they can destroy the quality of a city's authentic life on the outside Interior Urbanism explores the roots of this contemporary tension between inside and outside identifying and analysing the concept of interior urbanism and tracing its history back to the works of John Portman and Associates in 1960s and 70s America Portman increasingly recognised as an influential yet understudied figure was responsible for projects such as Peachtree Center in Atlanta and the Los Angeles Bonaventure Hotel developments that employed vast internal atriums to define a world of possibilities not just for hotels and commercial spaces but for the future of the American downtown amid the upheavals of the 1960s and 70s The book analyses Portman's architecture in order to reconsider major contexts of debate in architecture and urbanism in this period including the massive expansion of a commercial imperative in architecture shifts in the governance and development of cities amid social and economic instability the rise of postmodernism and critical urban studies and the defence of the street and public space amid the continual upheavals of urban development In this way the book reconsiders the American city at a crucial time in its development identifying lessons for how we consider the forces at work and the spaces produced in cities in the present      *The Palgrave Encyclopedia of Urban and Regional Futures* Robert C. Brears, 2023-01-13 While urban settlements are the drivers of the global economy and centres of learning culture and innovation and nations rely on competitive dynamic regions for their economic social and environmental objectives urban centres and regions face a myriad of challenges that impact the ways in which people live and work create wealth and interact and connect with places Rapid urbanisation is resulting in urban sprawl rising emissions urban poverty and high unemployment rates housing affordability issues lack of urban investment low urban financial and governance capacities rising inequality and urban crimes environmental degradation increasing vulnerability to natural disasters and so forth At the regional level low employment low wage growth scarce financial resources climate change waste and pollution and rising urban peri urban competition etc are impacting the ability of regions to meet socio economic development goals while protecting biodiversity The response to these challenges has typically been the application of inadequate or piecemeal solutions often as a result of fragmented

decision making and competing priorities with numerous economic environmental and social consequences In response there is a growing movement towards viewing cities and regions as complex and sociotechnical in nature with people and communities interacting with one another and with objects such as roads buildings transport links etc within a range of urban and regional settings or contexts This comprehensive MRW will provide readers with expert interdisciplinary knowledge on how urban centres and regions in locations of varying climates lifestyles income levels and stages development are creating synergies and reducing trade offs in the development of resilient resource efficient environmentally friendly liveable socially equitable integrated and technology enabled centres and regions

Best Development Practices Reid Ewing, 2019-12-17 The author draws upon case examples of some of today's most acclaimed developments in this book and recommends best practice guidelines to help developers create vibrant livable communities and still make money For years Florida's planners and developers have had to deal with some of the most difficult growth management problems Now planners and developers across the nation can benefit from the valuable lessons Florida offers on combating urban sprawl Ewing first searched the state for the best contemporary developments then distilled their lessons into guidelines for directing new development and assessing the quality of existing development The 43 practices outlined in this exciting book cover four areas of development land use transportation the environment and housing They apply to a broad range of development projects including small planned communities residential subdivisions and commercial centers The book's recommendations are based upon the experiences of successful developers and supported by empirical research The proof lies in the compelling real world examples Ewing highlights throughout the text Illustrated with dozens of photographs and written in a lively style this book is must reading for all those seeking better ways to plan and design communities Developers will find proven feasible land development regulations and benchmarks against which to evaluate development proposals

Shopping Centers Peter Viereck, 2017-07-05 Are there potentials in central city revitalization What role will the federal government play in determining future retail locational choices Shopping center development has never been more popular or more hazardous than it is today Retail distribution in the United States has greater efficiency than anywhere else in the world a tribute to the adaptability and rationalization of systems which have characterized the field The pressures of the future however require greater exertion if they are to be adequately met The industry drive to the new middle markets may change the face of small city America or it may lead to a blind alley As central cities aided by EDA Economic Development Administration and UDAG Urban Development Action Grant gird up for revitalization in the face of reduced real buying power these issues take on increased vigor A whole new legal fabric is evolving in the development of major commercial facilities Does it mark the path of the future or is it an ineffectual last gasp effort to reshape the basic overwhelming trend lines of American life How do we get a grasp on these parameters Whether city planner economic or marketing consultant investor or developer much of our future depends on the answers The authorities brought together for
