The Casa del Deán Penny C. Morrill,2023-09-15 The Casa del De n in Puebla Mexico is one of few surviving sixteenth century residences in the Americas Built in 1580 by Tom s de la Plaza the Dean of the Cathedral the house was decorated with at least three magnificent murals two of which survive Their rediscovery in the 1950s and restoration in 2010 revealed works of art that rival European masterpieces of the early Renaissance while incorporating indigenous elements that identify them with Amerindian visual traditions Extensively illustrated with new color photographs of the murals The Casa del De n presents a thorough iconographic analysis of the paintings and an enlightening discussion of the relationship between Tom s de la Plaza and the indigenous artists whom he commissioned Penny Morrill skillfully traces how native painters trained by the Franciscans used images from Classical mythology found in Flemish and Italian prints and illustrated books from France as well as animal images and glyphic traditions with pre Columbian origins to create murals that are reflective of Don Tom s s erudition and his role in evangelizing among the Amerindians She demonstrates how the importance given to rhetoric by both the Spaniards and the Nahuas became a bridge of communication between these two distinct and highly evolved cultures This pioneering study of the Casa del De n mural cycle adds an important new chapter to the study of colonial Latin American art as it increases our understanding of the process by which imagery in the New World took on Christian meaning

Building Yanhuitlan Alessia Frassani, 2017-10-12 Through years of fieldwork in the state of Oaxaca Mexico art historian and archaeologist Alessia Frassani formulated a compelling question How did Mesoamerican society maintain its distinctive cultural heritage despite colonization by the Spanish In Building Yanhuitlan she focuses on an imposing structure a sixteenth century Dominican monastery complex in the village of Yanhuitlan For centuries the buildings have served a central role in the village landscape and the lives of its people Ostensibly there is nothing indigenous about the complex or the artwork inside So how does such a place fit within the Mixteca where Frassani acknowledges a continuity of indigenous culture in the towns plazas markets churches and rural surroundings To understand the monastery complex and Mesoamerican cultural heritage in the wake of conquest Frassani calls for a shifting definition of indigenous identity one that acknowledges the ways indigenous peoples actively took part in the development of post conquest Mesoamerican culture Frassani relates the history of Yanhuitlan by examining the rich store of art and architecture in the town s church and convent bolstering her account with more than 100 color and black and white illustrations She presents the first two centuries of the church complex s construction works maintenance and decorations as the product of cultural political and economic negotiation between Mixtec caciques Spanish encomenderos and Dominican friars The author then ties the village s present day religious celebrations to the colonial past and traces the cult of specific images through these celebrations history Cultural artifacts Frassani demonstrates do not need pre Hispanic origins to be considered genuinely Mesoamerican the processes attached to their appropriation are more meaningful than their having any pre Hispanic past Based on original and unpublished documents and punctuated with stunning photography Building Yanhuitlan combines archival and ethnographic work with visual analysis to make an innovative statement regarding artistic forms and to tell the story of a remarkable community

Ritual Human Sacrifice in Mesoamerica Rubén G. Mendoza,Linda Hansen,2024-03-01 This edited volume addresses the environmental and cultural underpinnings of the kind of social conflict that spawned the origins and elaboration of ritualized human and animal sacrifice in Mesoamerica The chapters variously document the place of cultural evolution and social complexity in the origins and elaboration of ritual human sacrifice cannibalism and trophy taking across a broad spectrum of Mesoamerican cultural and social contexts that first saw the light of day before 2600 BCE and rapidly developed and proliferated across the Mesoamerican world in the centuries to follow They study the developments in sacrifice rituals through the centuries into the first millennium CE when the Mexica Aztec and their allies had elevated ritual human sacrifice such that they produced a plethora of sacrificial acts modes and manners of death and associated deities to articulate the necro cultures and blood tribute of the times The chapters further study present day rites of Amerindian communities from throughout Mesoamerica that include paying homage to the deities of earth and sky through sacrifice and consumption of animal surrogates The interdisciplinary effort undertaken by this international cadre of scientists including anthropologists bioarchaeologists art historians ethnohistorians iconographers and religious studies experts provides a particularly rich forum for launching an interrogation into the role of conflict environment and social complexity in the emergence and persistence of ritual violence and human sacrifice in the Mesoamerican world
