Multigenerational Online Behavior and Media Use: Concepts, Methodologies, Tools, and Applications Management Association, Information Resources, 2019-02-01 The rapid evolution of technology continuously changes the way people interact work and learn By examining these advances from a sociological perspective researchers can further understand the impact of cyberspace on human behavior interaction and cognition Multigenerational Online Behavior and Media Use Concepts Methodologies Tools and Applications is a vital reference source covering the impact of social networking platforms on a variety of relationships including those between individuals governments citizens businesses and consumers The publication also highlights the negative behavioral physical and mental effects of increased online usage and screen time such as mental health issues internet addiction and body image Showcasing a range of topics including online dating smartphone dependency and cyberbullying this multi volume book is ideally designed for sociologists psychologists computer scientists engineers communication specialists academicians researchers and graduate level students seeking current research on media usage and its behavioral effects Computerization Movements and Technology Diffusion Margaret S. Elliott, Kenneth L. Kraemer, 2008 Computerization movement CM refers to a special kind of social and technological movement that promotes the adoption of computing within organizations and society Through theoretical analyses systematic empirical studies field based studies and case studies of specific technologies the book shows CMs to be driven by Utopian visions of technology that become part of the ether within society The empirical studies presented here show the need for designers users and the media to be aware that CM rhetoric can propose grand visions that never become part of a reality and reinforce the need for critical and scholarly review of promising new technologies Back cover **Youth, Media and Culture in the Asia Pacific Region** Usha M. Rodrigues, Belinda Smaill, 2009-05-05 Youth Media and Culture in the Asia Pacific Region presents an analysis of youth media activities in a diverse but geographically connected Asia Pacific region The region which is spatially connected by its colonial and imperial past is becoming a significant player in the globalized world In this context youth situated in these economically politically and socially structured communities are redefining their locales through their patterns of media use The discourse of youth in this disparate region is manifest in the media through their identity articulations and social activism The book illustrates that these youth subcultures in the Asia Pacific are part of the well marketed global consumerism culture and yet at other times independent of the commodifying impetus of global capital It draws on case studies to examine some of the media practices youth in the region are engaged in and elucidates the process of social change taking place in some Asia Pacific nations This book contributes to the important and growing field of youth media studies The regionalization of media research is necessarily recuperated here bringing large populations of media users into a frame of reference that allows critical reflection on the new waves of use and sociality in the Asia Pacific region Stephanie Hemelryk Donald Professor of International Studies UTS **Mobile Communication** Scott Campbell, Rich

Ling,2017-09-05 Mobile Communication covers a wide range of topics These include the replacement of co present interaction with mediated contact and analysis of mobile based cohesion and gender The authors also explore the role of media choice and its effect on the quality as well as quantity of social cohesion Other topics include mobile communication and communities of interest and mobile communication cohesion and youth This volume brings together scholars from around the world to consider how mobile communication both builds and destroys our sense of social cohesion There is no question that uses of technology can lead to increased cohesion within personal communities For example this volume includes research on caravan couples in Australia factory workers in China young couples in Germany citizens in Slovenia and sports clubs in Ireland It also includes research on drunken calls between university students in the US calls of international students in Switzerland and communications between immigrant women in Melbourne Australia However the contributors also argue that as social networks become inundated with mobile communication users these users may become increasingly isolated and social division can ensue Mobile Media Practices, Presence and Politics Kathleen M.

Cumiskey,Larissa Hjorth,2013-08-29 As an example of convergence the mobile phone especially in the form of smartphone is now ushering in new promises of seamlessness between engagement with technology and everyday common experiences This seamlessness is not only about how one transitions between the worlds of the device and the physical environment but it also captures the transition and convergences between devices as well i e laptop to smartphone smartphone to tablet This volume argues however that these transitions are far from seamless We see divisions between online and offline virtual and actual here and there taking on different cartographies emergent forms of seams It is these seams that this volume acknowledges challenges and explores socially culturally technologically and historically as we move to a deeper understanding of the role and impact of mobile communication s saturation throughout the world *Multi-Platform*

*Advertising Strategies in the Global Marketplace* Yang, Kenneth C.
