*No Magic Bullet* Allan M. Brandt, 2020 The epidemic of AIDS and herpes virus has called into question not only the ability of the medical profession to treat venereal disease but also its willingness to do so *No Magic Bullet* a perceptive analysis of the treatment of venereal diseases since the 1880s places these questions in critical historical perspective Beginning with Victorian hysteria about syphilis and continuing to contemporary treatment of AIDS Allan Brandt recounts the various medical military and public health responses to venereal diseases that have arisen over the years Brandt demonstrates that Americans tendency to view sexually transmitted disease as both a punishment for sexual misconduct and an index of social decay has seriously impeded efforts to develop magic bullets the miracle drugs that would effectively halt the spread of infection For this 35th Anniversary Edition Brandt reflects on recent scholarship the persistence of sexually transmitted diseases and the trajectory of the HIV epidemic as they have informed contemporary conceptions of biomedicine and global health

**Gay Bathhouses and Public Health Policy** Diane Binson, William J Woods, 2013-09-13 Explore the impact of AIDS on the gay bathhouse culture Public health policy on bathhouses has been limited and poorly documented This book the first to be published on this timely and important topic will

help you become knowledgeable about gay bathhouses Unlike most other places where men have sex in public gay bathhouses are subject to government imposed health regulations Gay Bathhouses and Public Health Policy examines the bathhouse environment and how it differs from other public sex environments It describes public policies that have been implemented discussing policies for HIV prevention testing and intervention issues related to civil liberties and the legal aspects of these policies This essential book also includes a fascinating chapter about other types of sex businessesbookstores theaters and sex clubsand how public policy affected them in the early years of the HIV AIDS epidemic Helpful tables and figures make the information in this well referenced book easy to access and understand From the editors From a public health perspective the baths first came to attention as a result of an exponential increase in sexually transmitted infections among men in the 1970s The spread of these infections among gay men stimulated the public health community to seek ways to combat them Although there appears to have been some mention of closing bathhouses as an approach the predominant message was to educate test and treat Of course AIDS was a different matter in a different time By early 1984 the once rare call for closure had gained a powerful voice as well as support in powerful gay circles The tension between the baths and public health that resulted from the closure debates continues to exist in some cities but there are also a number of examples of health professionals from local health departments and academic institutions who have established good relationships with owners and managers of bathhouses Today 40 of bathhouses in the United States offer HIV testing which typically requires collaboration either with the local health department or with community based organizations that run outreach HIV testing programs Gay Bathhouses and Public Health Policy will inform you about the unique relationship between bathhouse patrons and the environment within which they engage in sexual activities the history of gay bathhouses in the United States including their transformation from Turkish baths Russian baths public baths health resorts and spas into gay institutions the San Francisco bathhouse battles of 1984 and their impact on civil liberties AIDS awareness and health policy the legal aspects of regulating bathhouseshighlighting cases from 1984 to 1995 where the government sought to close a sex facilitating business or where such a business sought to invalidate laws and ordinances banning sexual activity an uncensored 1984 report from Coming Up magazine on sexual activity at bathhouses how the city of Seattle designed and implemented an HIV counseling and testing program for bathhouses and more **American Literary Studies** Michael A.
