Posey, Lawrence S. Wrightsman, 2005-07-07 In its roughly 25 years of existence the trial consulting profession has grown dramatically in membership recognition and breadth of practice What began as a small activist group of social scientists volunteering their expertise to assist in the defense of Vietnam War protestors has evolved into a diverse set of professionals from a range of educational and professional

backgrounds In spite of such enormous growth the work of trial consultants has gone largely unexamined Trial Consulting takes an in depth look at the primary activities of trial consultants including witness preparation focus groups and mock trials jury selection change of venue surveys and attorney presentation style It also examines the profession s struggle to define itself resisting certification and licensure requirements and settling instead for a set of practice standards The authors draw upon empirical and other scholarly work in the social sciences recommended best practices from trial lawyers and the written and spoken recommendations and reflections of the trial consultants themselves Addressing a broad spectrum of topics ranging from handwriting analysis to medical malpractice cases they also suggest reforms for improving the profession and the efficacy of the trial consultant in the courtroom The result is a critical analysis of what trial consulting truly adds to and detracts from the administration of justice This book is an indispensable guide for practicing and aspiring trial consultants as well as the judges attorneys and psychologists who work with them Trial Consulting provides a thought provoking statement on the state of the profession and students and professionals alike will benefit from the challenges it offers

Richard L. Wiener, Brian H. Bornstein, 2011-05-06 This volume will be a handbook that treats trial consulting as applied psychology. The purpose of the volume will be to collect the viewpoints of leaders in the field of psychology and law who apply the discipline's theoretical models, methods, and ethics to assist litigators to try cases in the most effective way possible. As a whole, the collection of chapters will describe the theory, business, and mechanics of trial consulting for those interested in learning and practicing the profession. However, it will do so from the perspective of organized theories of jury decision making. In other words, the work of juror researchers will inform the recommendations and suggestions in the handbook. The volume consists of six sections, each pertaining to a different topic. Multiple chapters with different authors will cover each topic. The topics and corresponding seven sections will be: 1. An Introduction to the Theory and Psychology of Jury Decision Making; 2. Applied Research Methodologies for Trial Consultants; 3. Education and Ethical Considerations for Trial Consultants; 4. Preparing and Cross Examining Witnesses; 5. Technology and Demonstrative Evidence at Trial; and 6. Special Topics in Trial Consulting. Each section will begin with the editors' short introduction reviewing that section and explaining its goals, objectives, and content. Separate individuals recognized as leaders in their areas will write the remaining chapters in each section. These individuals come from the fields of both psychology and law and represent viewpoints on these topics from a practice-oriented perspective but a perspective that emerges from research results. They are affiliated with a number of academic institutions including University of Nebraska, John Jay College of Criminal Justice, University of Texas, University of Chicago, Simon Fraser University, and private law firms.
