## **Modality In Grammar And Discourse Typological Studies In Language:**

Modality in Grammar and Discourse Joan L. Bybee, Suzanne Fleischman, 1995-08-21 This volume brings together a collection of 18 papers that look into the expression of modality in the grammars of natural languages with an emphasis on its manifestations in naturally occurring discourse Though the individual contributions reflect a diversity of languages of synchronic and diachronic foci and of theoretical orientations all within the broad domain of functional linguistics they nonetheless converge around a number of key issues the relationship between mood and modality the delineation of modal categories and their nomenclature the grounding of modality in interactive discourse the elusive category irrealis and the relationship of modal notions and categories to other categories of grammar

**A Grammar of Semelai** Nicole Kruspe, 2004-04-08 Semelai is a previously undescribed and endangered Aslian Mon Khmer language of the Malay Peninsula This book the first in depth description of an Aslian language provides a comprehensive reference grammar of Semelai Semelai intertwines two types of morphological system a concatenative system of prefixes suffixes and a circumfix acquired through extended contact with Malay and a nonconcatenative system of prefixes and infixes including infix reduplication inherited from Mon Khmer There are distinctive word classes Nominals Verbs and Expressives the latter iconic utterances which simultaneously provide information about the predicate and its arguments Semelai has many derivational processes which change word class or affect transitivity and it combines both head marking and dependent marking profiles It also has a rich phonemic system of 20 vowels and 32 consonants Nicole Kruspe's discussion is complemented with a generous number of illustrative examples and texts creating a reference work that will be welcomed by descriptivists and typologists alike

**Usage-based Approaches to Japanese Grammar** Kaori Kabata, Tsuyoshi Ono, 2014-06-15 This volume brings together papers that take usage based approaches to study the nature of human language with a focus on the grammar of Japanese The 12 chapters provide a rich array of data and methodologies with topics ranging from phonology modality and grammatical morphemes to sentential construction and discourse level phenomena such as turn taking speech register and language change As a whole they demonstrate that usage based linguistics illuminates various phenomena in the language that could not have been well accounted for by resorting solely to a formal theory such as the Universal Grammar based approach Reflecting theoretical methodological and technological advancements made in and outside the field of cognitive functional linguistics in recent years the papers contained in this volume both individually and collectively have significant implications towards linguistics in general and Japanese linguistics in particular as we as Japanese language teaching

**Clause Linking and Clause Hierarchy** Isabelle Bril, 2010 This collective volume explores clause linkage strategies in a cross linguistic perspective with greater emphasis on subordination Part I presents some theoretical

reassessment of syntactic terminologies and distinctive criteria for subordination as well as typological methods based on sets of variables and statistics allowing cross linguistic comparability Part II deals with strategies relating to clause chaining conjunctive conjugations converbial constructions masdars Part III centers on the interaction between the syntax pragmatics and semantics of clause linking and subordination in relation to information structure to referential hierarchy and correlative constructions Part IV presents insights in the clause linking and subordinating functions of some TAM markers verbal inflectional morphology and conjugation systems which may also interact with information hierarchy via the backgrounding effects and lack of illocutionary force of some aspect and mood forms The volume is of particular interest to linguists and typologists working on clause linkage systems and on the interface between syntax pragmatics and semantics

**ModalityAspect Interfaces** Werner Abraham, Elisabeth Leiss, 2008-06-26 The main topics pursued in this volume are based on empirical insights derived from Germanic logical and typological dispositions about aspect modality links These are probed in a variety of non related languages The logically establishable links are the following Modal verbs are aspect sensitive in the selection of their infinitival complements embedded infinitival perfectivity implies root modal reading whereas embedded infinitival imperfectivity triggers epistemic readings However in marked contexts such as negated ones the aspectual affinities of modal verbs are neutralized or even subject to markedness inversion All of this suggests that languages that do not or only partially bestow upon full modal verb paradigms seek to express modal variations in terms of their aspect oppositions This typological tenet is investigated in a variety of languages from Indo European German Slavic Armenian African Asian Amerindian and Creoles Seeming deviations and idiosyncrasies in the interaction between aspect and modality turn out to be highly rule based

**Complementizer Semantics in European Languages** Kasper Boye, Petar Kehayov, 2016-07-11 Complementizers may be defined as conjunctions that have the function of identifying clauses as complements In recent years it has become increasingly clear that they have additional functions Some of these functions are semantic in the sense that they represent conventional contributions to the meanings of the complements The present book puts a focus to these semantic complementizer functions

*A Grammar of Papapana* Ellen Smith-Dennis, 2021-01-18 This monograph is not only the first comprehensive grammar of Papapana a previously undocumented and under described endangered language but the first full reference grammar of any Oceanic language of Bougainville Papua New Guinea despite this region displaying considerable linguistic innovation and language contact phenomena with numerous typologically significant features This book describes Papapana on various levels including phonology morphology and syntax in noun phrases and the verb complex and syntax at the clause and sentence level Throughout the grammar the described phenomena are related to the current research on typological and Oceanic linguistics Typologically unusual features of Papapana include multiple reduplication inverse number marking in the noun phrase and postverbal subject indexing The book also describes the sociolinguistic and historical context within which Papapana is spoken and highlights linguistic

changes resulting from language contact The monograph fills an important gap in terms of grammatical descriptions of Bougainville Oceanic languages and makes a significant contribution to the field of Oceanic linguistics and to future comparative linguistic and typological research      **A Grammar of Belep** Chelsea McCracken,2019-10-21 This reference grammar provides a full grammatical description of the previously undocumented Austronesian language variety known as Belep Belep is spoken by approximately 1600 people in New Caledonia primarily in the Belep Isles This book is the first full length English language description of a Northern New Caledonian language It fills a gap and provides an important addition to the literature on these languages      **Compulsion and Control in Ancient Egypt** Alexandre Loktionov,2023-12-07 How did the Ancient Egyptians maintain control of their state Topics include the controlling function of temples and theology state borders scribal administration visual representation patronage and the Egyptian language itself with reference to all periods of Egyptian history from the Old Kingdom to Coptic times      *Spoken Corpora and Linguistic Studies* Tommaso Raso,Heliana Mello,2014-11-14 The authors of this book share a common interest in the following topics the importance of corpora compilation for the empirical study of human language the importance of pragmatic categories such as emotion attitude illocution and information structure in linguistic theory and a passionate belief in the central role of prosody for the analysis of speech Four distinct sections spoken corpora compilation spoken corpora annotation prosody and syntax and information structure give the book the structure in which the authors present innovative methodologies that focus on the compilation of third generation spoken corpora multilevel spoken corpora annotation and its functions and additionally a debate is initiated about the reference unit in the study of spoken language via information structure The book is accompanied by a web site with a rich array of audio video files The web site can be found at the following address DOI 10 1075 scl 61 media

*Certainty-uncertainty - and the Attitudinal Space in Between* Sibilla Cantarini,Werner Abraham,Elisabeth Leiss,2014-11-15 The selected papers of this volume cover five main topics namely Certainty The conceptual differential Un Certainty as attitudinality Dialogical exchange and speech acts Onomasiology and Applications in exegesis and religious discourse By examining the general theme of the communication of certainty and uncertainty from different scientific fields theoretical approaches and perspectives this compendium of state of the art research papers provides both an interdisciplinary comparison of the latest investigations methods and findings and new advances and theoretical insights with a common focus on human communication      *Markedness in Canaanite and Hebrew Verbs* Paul D. Korchin,2018-08-14 Semitic linguistics is arguably involved in its own version of a maximalist versus minimalist controversy with respect to verbal morphology Dissent persists about whether and to what degree the Northwest Semitic verb paradigms underlying languages such as Biblical Hebrew and Amarna Canaanite yaqtul yaqtulu yaqtula are themselves determinative of tense aspect mood values as opposed to extra verbal structures ranging from syntax to discourse To label a verb form as marked or unmarked for these values is to evoke a bountiful yet nebulous complex of theories about how language is built and employed

But Semitists have often unwittingly bleached markedness terms of their full historical and technical significance reducing them to generic appellations that are invoked in sporadic and nearly random fashions By applying markedness to Semitic morphology in a consistent and rigorous manner this innovative book brings to bear a venerable linguistic construct on a persistent philological crux in order to achieve deeper clarity in the structures and workings of Canaanite and Hebrew verbs Korchin's arguments hold relevance for translating and interpreting nearly every sentence in ancient texts such as the Hebrew Bible and the Amarna letters

The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose Hélène M. Dallaire, 2014-10-30 During the past century numerous books and articles have appeared on the verbal system of Semitic languages Thanks to the discovery of Ugaritic texts Akkadian tablets Canaanite letters found at Tell el Amarna in Egypt Hebrew and Aramaic inscriptions and the Dead Sea Scrolls our understanding of the phonology morphology and syntax of the Semitic languages has increased substantially Dallaire focuses primarily on prose texts in Biblical Hebrew and Amarna Canaanite in which the verbal system morphemes syntax expresses nuances of wishes desires requests and commands According to her volitional concepts are found in every language and are expressed through verbal morphemes syntagmas intonation syntax and other linguistic means The Syntax of Volitives in Biblical Hebrew and Amarna Canaanite Prose attempts to answer the following questions Do volitives function in a similar way in Biblical Hebrew and Amarna Canaanite Where and why is there overlap in morphology and syntax between these two languages What morphological and syntactical differences exist between the volitional expressions of the languages In attempting to answer these questions the author bears in mind the fact that within each of these two languages scribes from different areas used specific dialectal and scribal traditions for example northern versus southern peripheral versus central

Space in Tense Kyung-Sook Chung, 2012-07-18 This monograph explores the tense aspect mood and evidentiality of Korean which has a rich verbal inflectional system and proposes novel treatments within the framework of compositional semantics One of the major contributions is the demonstration that Korean has two types of deictic tense simple deictic and spatial deictic tense Spatial deictic tense refers to the notion of the speaker's perceptual field or deictic range as well as to temporality functioning to set up a condition for a systematic evidential distinction The research in this volume shows that the basic paradigm of evidentiality of Korean derives from the standard TMA system combined with the notion of space This volume also shows that perfect and past tense utilize different primitives The intended readership of this volume extends beyond Koreanists to scholars interested specifically in tense mood aspect and evidentiality as well as in general theories of grammar and semantics pragmatics

**Re-Assessing Modalising Expressions** Pascal Hohaus, Rainer Schulze, 2020-11-15 Mood modality and evidentiality are popular and dynamic areas in linguistics Re Assessing Modalising Expressions Categories co text and context focuses on the specific issue of the ways language users express permission obligation volition intention possibility and ability necessity and prediction linguistically Using a range of evidence and corpus data collected from different sources the authors of this volume examine

the distribution and functions of a range of patterns involving modalising expressions as predominantly found in standard American English British English or Hong Kong English but also in Japanese The authors are particularly interested in addressing co textual manifestations of modalising expressions as well as their distribution across different text types and thus filling a gap research was unable to plug in the past Thoughts on categorising or re categorising modalising expressions initiate and complement a multi perspectival enterprise that is intended to bring research in this area a step forward

**World Lexicon of Grammaticalization** Tania Kouteva,Bernd Heine,Bo Hong,2019-08-08 Based on analysis of more than 1 000 languages this volume reconstructs more than 500 processes of grammatical change in the languages of the world

*Children's Language* Keith E. Nelson,Ayhan Aksu-Koç,2005-04-11 This volume presents chapters that all speak to issues of children s lang acquisition from a distinctly interactionist perspective that reflects the complexity of the task the sophistication of methods used to study it For graduate

**The Pragmatics of Modals in Shakespeare** Minako Nakayasu,2009 Modals and related phenomena are without doubt one of the most complicated issues in the grammar of language This study provides a reappraisal of the modals in Shakespeare s language from the pragmatic viewpoint both micropragmatic and macropragmatic The material selected for analysis are modals SHALL SHOULD WILL WOULD and their contracted forms Micropragmatic aspects such as speech acts seem relatively easily accessible to historical researchers however this study moves further into the macropragmatic dimensions of language use than the earlier ones and covers politeness dialogue and discourse analysis

*Pragmatics at its Interfaces* Stavros Assimakopoulos,2017-02-20 All of the papers included in this volume offer some novel and or updated perspective on issues of central importance in pragmatics suggesting original ways in which research in the particular areas they adhere to could advance Apart from the obvious aim of motivating further discussion on the topics it touches on a central objective of this volume is to underline that research in pragmatics can and does substantially inform research in numerous other fields of enquiry namely philosophy cognitive science linguistics and conversation analysis revealing in this way the truly interdisciplinary nature of pragmatics theorizing In this respect and given that most of the contributions in this volume are from leading scholars in their respective fields it is clearly expected that the ideas put forth in this volume will have a profound and long lasting impact for future research in the area
