Model Of Making Literary Criticism And Its Theology:

A Model of Making Ruth Etchells,1983 The Oxford Handbook of English Literature and Theology Andrew Hass,David Jasper,Elisabeth Jay,2007-03-15 A defining volume of essays in which leading international scholars apply an interdisciplinary approach to the long and evolving relationship between English Literature and Theology **English Literature, Theology and the Curriculum** Liam Francis Gearon,1999-01-10 The Theology in Dialogue Series explores the relationship between theology and different secular academic disciplines which appear within the degree programs of colleges and universities Each volume begins with a chapter and a reply providing a thoughtful justification for the interaction of theology and the particular subject This is followed by a theoretical analysis of this interaction and a range of case studies illustrating the situation in the classroom English Literature Theology and the Curriculum explores the nature and authority of religious writings and their influence on secular literature What makes it distinctive is the manner in which it investigates the textual dynamic between the two disciplines by combining both theory and case study in a single collection of writings It discusses interdisciplinary dialogue offers case studies on literature and theology from Anglo Saxon verse to the twentieth century novel and looks at curriculum considerations The eminence and breadth of the contributors is outstanding Praise for English Literature Theology and the Curriculum A superbly rich collection as valuable to those involved in literary studies as to theologians It breathes life and real engagement Times Educational Supplement Fascinating and scholarly collection This is an excellent book Though some of the chapters are better than others none is a dud Its contributors and editor are to be congratulated Journal of Beliefs and Values These substantial essays deserve more extensive comment than a brief review permits Liam Gearon s chapter prompted this reviewer to embark on a reading of Brian Moore s work a rewarding undertaking for which his chapter proved an invaluable guide International Journal of Children s Spirituality Perhaps what is most noteworthy about Liam Gearon s edited volume is that it combines theory with practical applications and concludes with reflections on the implications for teaching ample food for thought for instructors designing courses in literature theology or interdisciplinary subjects Teaching Theology *Toward a Theology of Beauty* Jo Ann Davidson,2008 Over the centuries theological studies have grappled with the comprehension of Truth and Goodness However theology unlike philosophy has neglected serious scrutiny of the study of Beauty or Aesthetics Jo Ann Davidson s *Toward a Theology of Beauty* investigates this omission **'Tikkun Olam' --To Mend the World** Jason Goroncy,2013-12-04 Tikkun Olam To Mend the World is premised on the conviction that artists and theologians have things to learn from one another things about the complex interrelationality of life and about a coherence of things given and sustained by God The ten essays compiled in this volume seek to attend to the lives burdens and hopes that characterize human life in a world broken but unforgotten in travail but moving towards the freedom promised by a faithful Creator They reflect on whether the world wounded as it is by war by hatred by exploitation by neglect by reason and by human imagination itself can be healed Can there be repair And

can art and theology tell the truth of the world's woundedness and still speak of its hope Voicing Creation's Praise Jeremy Begbie, 1991-01-01 An introduction to the theology of art and the art of theology **Public Theology: Exploring Expressions of the Christian Faith** Bonnie Miriam Jacob, Editor, 2020-09-06 This book is an important step in clarifying the issues that come up when addressing the public square. It is an early effort towards a coherent theological frame for engagement in socio-political issues, this time rooted in the richness of a multi-faith context like that of India. While the church is the primary social context in which the saving power of God is made visible, this book equally insists that it is in the larger arena of what God is doing in the world that the kingdom's historic presence is felt. It is a fitting tribute to a man who has spent much of his life opening up the spaces where the Word is in vital conversation with the larger world. Melba Padilla Maggay PhD Institute for Studies in Asian Church and Culture ISACC **Resounding Truth (Engaging Culture)** Jeremy S. Begbie, 2007-12-01 Christianity Today 2008 Book Award Theology Ethics Even fallen humans compose beautiful symphonies; music that touches emotions as nothing else can. *Resounding Truth* shows Christians how to uncover the Gospel message found in the many melodies that surround us. Theologian and musician Jeremy Begbie believes our divinely inspired imagination reveals opportunity for sincere heartfelt praise. With practical examples, lucid explanations, and an accessible bibliography, this book will help music lovers discover how God's diversity shines through sound. Begbie helps readers see the Master of Song and experience the harmony of heavenly hope ThirdWay, 1984-07 Monthly current affairs magazine from a Christian perspective with a focus on politics, society, economics, and culture The Voice of Jesus Stephen I. Wright, 2007-10-01 This book explores what it means to seek the voice of Jesus in his parables through the interpretive keys of literary tropes. Through a detailed discussion of significant periods of parable interpretation with reference to six narrative parables peculiar to Luke's Gospel, it demonstrates the continued necessity of a creative response to an intention when confronted with figures of speech. Drawing on the long tradition of interpretation, a fresh hearing of the tone of the parables as exemplary tales is suggested, rooted in both the conditions of Jesus's contemporary culture and the Old Testament Scriptures **An Introduction to Literature, Criticism and Theory** Andrew Bennett, Nicholas Royle, 2023-03-23 Lively, original, and highly readable, *An Introduction to Literature, Criticism and Theory* is the essential guide to literary studies. Starting at *The Beginning* and concluding with *The End*, chapters range from the familiar such as Character, Narrative, and The Author to the more unusual such as *Secrets*, *Pleasure*, and *Ghosts*. Now in its sixth edition, Bennett and Royle's classic textbook successfully illuminates complex ideas by engaging directly with literary works, so that a reading of *Jane Eyre* opens up ways of thinking about racial difference, for example, while Chaucer, Monty Python, and Hilary Mantel are all invoked in a discussion of literature and laughter. The sixth edition has been revised and updated throughout. In addition, four new chapters, *Literature Loss*, *Human*, and *Migrant*, engage with exciting recent developments in literary studies. As well as fully up-to-date further reading sections at the end of each chapter, the book contains a comprehensive bibliography and an invaluable

glossary of key literary terms A breath of fresh air in a field that can often seem dry and dauntingly theoretical this book will open the reader's eyes to the exhilarating possibilities of reading and studying literature

A Theology of Criticism

Michael P. Murphy, 2008-01-09 A number of critics and scholars argue for the notion of a distinctly Catholic variety of imagination not as a matter of doctrine or even of belief but rather as an artistic sensibility They figure the blend of intellectual emotional spiritual and ethical assumptions that proceed from Catholic belief constitutes a vision of reality that necessarily informs the artist's imaginative expression The notion of a Catholic imagination however has lacked thematic and theological coherence To articulate this intuition is to cross the problematic interdisciplinary borders between theology and literature and although scholars have developed useful methods for undertaking such interdisciplinary border crossings relatively few have been devoted to a serious examination of the theological aesthetic upon which these other aesthetics might hinge In *A Theology of Criticism* Michael Patrick Murphy proposes a new framework to better define the concept of a Catholic imagination He explores the many ways in which the theological work of Hans Urs von Balthasar 1905-1988 can provide the model content and optic for distinguishing this type of imagination from others Since Balthasar views art and literature precisely as theologies Murphy surveys a broad array of poetry drama fiction and film and sets it against central aspects of Balthasar's theological program In doing so Murphy seeks to develop a theology of criticism This interdisciplinary work recovers the legitimate place of a distinct theological imagination in critical theory showing that Balthasar's voice both challenges and complements contemporary developments Murphy also contends that postmodern interpretive methodology with its careful critique of entrenched philosophical assumptions and reiterated codes of meaning is not the threat to theological meaning that many fear On the contrary by juxtaposing postmodern critical methodologies against Balthasar's visionary theological range a space is made available for literary critics and theologians alike More important the critic is provided with the tools to assess challenge and celebrate the theological imagination as it is depicted today

for Human Flourishing Celucien L. Joseph,2022-09-14 This book explores the interconnection of theological education and Christian scholarship cultural and theological hermeneutics pedagogy and community knowledge democracy and citizenship Yet the three major disciplines or discourses covered in this work include multicultural education theology and hermeneutics through the lens of human flourishing and the concept of the good life From this angle this project is written from three different methods and approaches that intersect with each other a theology of contextualization a hermeneutics of interculturality and a pedagogy of cultural literacy and transformative community knowledge The book advances the idea that theological education should be the starting point to foster candid conversations about the importance of democracy and human rights civic engagement and the political life inclusion and diversity and pluralism and difference in our multicultural society The book uses the tools of multicultural education and cultural knowledge to enhance democracy and promote fundamental human virtues that would sustain the good life and human flourishing in the world in the Aristotelian sense and in the Socratic idea of local and world citizenship Finally this text offers an alternative vision to contemporary theological education to deconstruct the white male and Eurocentric narratives of theological education and Christian scholarship

Ever Hear of Feuerbach? Mark Ellingsen,2020-10-13 Christianity is in decline in North America and Europe Polls indicate that in the US the fastest growing segment of the American population is the religiously unaffiliated the so called Nones Why is this happening Mark Ellingsen calls our attention to a previously overlooked reason the flawed theology and Christian education material used in most mainline churches These approaches forfeit the transcendence of God They logically fall prey to the claim of German philosopher Ludwig Feuerbach and his student Karl Marx that Christianity is nothing more than a bunch of teachings that human beings have made up Insofar as this is a message the public has been

hearing little wonder Christianity in America and Europe is losing ground Though his main concern is to get church and academy talking about this problem and to prod us to do something about it Ellingsen proposes a way out of this mess Drawing on insights from the neo orthodox postliberal progressive evangelical and black church traditions he offers a proposal that succeeds in making clear that God is more than how we experience him He invites readers to explore with him the exciting possibility that a theological use of the scientific method could be employed to make a case for the plausibility of Christian faith
