Handbook of Mental Health Services for Children, Adolescents, and Families Ric G. Steele, Michael C. Roberts, 2006-03-30 Social economic and theoretical changes in the current clinical landscape are adding up to profound changes in children's services not the least of which is an expanded need for mental health services Professionals novices and veteran clinicians alike wonder how to fill this demand in the present climate of turf wars reorganizations and budget cuts The Handbook of Mental Health Services for Children Adolescents and Families cogently analyzes the issues and provides the answers from current issues and emerging therapeutic trends to new avenues of treatment Thoroughly researched and documented by industry experts it presents the widest range of mental health services available to youth and their families Areas of coverage include Specific modalities in service delivery including inpatient and day treatment facilities pediatric hospitals and community mental health centers as well as rural school and primary care settings Services tailored to special populations such as adolescent sex offenders homeless children and their families children with chronic illness oppositional teens abuse situations and children exposed to traumatic events Details on preventative programs for child abuse substance abuse STD's and gang violence An in depth examination of the latest developments in children's services including therapeutic camping and Internet based treatment Approaches and methods for evaluating service organization delivery and efficacy Few areas of mental health care

demonstrate the need for complementary services as much as child and family practice does With this need firmly in mind the Handbook encourages creativity and collaboration within practice settings and across agencies For clinicians administrators school practitioners and advanced level students this is a reference certain to have lasting impact on the field

Handbook of Pediatric Psychology in School Settings Ronald T. Brown, 2003-09-12 In recent years the escalating costs of health care have caused managed care programs to shift the delivery of pediatric psychological services away from specialized medical centers and into primary care and school settings One result has been a radical expansion of school psychology into issues of clinical intervention health promotion and the assessment of psychotropic medications School psychologists are now expected to either deliver or more likely to provide consultation regarding a wide variety of pediatric psychological services Because this is a recent phenomenon very few school based psychologists or allied health practitioners school counselors and social workers have received training in pediatric psychology The mission of this book is to provide them with a comprehensive and authoritative guide to their newly acquired responsibilities in such areas as psychotherapy psychopharmacology health promotion and prevention of disease This book is appropriate for anyone concerned with issues of pediatric psychology in school settings school psychologists pediatric psychologists clinical child psychologists as well as pediatricians and child psychiatrists
