Hon. Charles James Fox Charles James Fox,1788 **Titans** Dick Leonard,Mark Garnett,2019-02-28 Charles James Fox and William Pitt the Younger were the two political giants of their day the greatest of orators and the fiercest of rivals But did the two men have anything in common Each was a younger son of distinguished fathers who themselves had been bitter rivals for power a generation earlier and each came to prominence at a very young age Temperamentally however they could hardly have been more different Fox was genial tolerant gregarious self indulgent rash a reckless gambler and a drinking companion of the Prince of Wales later the Prince Regent and George IV whereas Pitt was cautious self controlled though also a heavy drinker calculating ruthless and misanthropic Their fates were heavily influenced by their respective relationships with George III who formed an insensate hostility to Fox using unconstitutional means to exclude him from power while favouring Pitt whom he appointed as Prime Minister at the age of 24 and maintained in office for 17 years plus a further two years in his second administration The result was that Fox enjoyed only three very short periods as Foreign Minister and was effectively Leader of the Opposition for a record 23 years But he did achieve a late triumph when following the death of Pitt he became the dominant member of the Government of All the Talents and lived long enough to be able to introduce the bill which abolished the slave trade Featuring a wide cast of characters this book sheds new light on the political landscape of Georgian England and two of the leading political players of the age *The Rhetorologue* John Demosthenes N. Ruffin,1922 *the fox-north coalition* , [Every Monument Will Fall](#) Dan Hicks,2025-05-01 An extraordinary intervention If you want to understand the stakes and the limitations of contemporary conflict over culture and colonial history this bold provocative book is an indispensable resource Paul Gilroy founding Director of the Sarah Parker Remond Centre for the Study of Race and Racism at UCL Hicks must read book describes how it was possible for a human skull to be made into a drinking cup and used in a genteel Oxford college well into the 21st century as if empire were an

eternal state of nature Read it to learn new ways to be anti racist abolitionist and to tell other stories than those commemorated by the monuments that surround us from statues to museums and the police Nicholas Mirzoeff author of *White Sight* Brave and clear sighted Hicks opens up an extraordinary conversation between the past and the present This is a book about falling statues but so much more It s about how we ve been lied to and how we can approach the past with honesty Hicks asks whether history and archaeology should be used to justify actions we know impinge on the rights of others or to understand ourselves better Alice Roberts bestselling author of *Crypt* Dan Hicks writes with grace and fierce focus about what we choose to remember and why in our patterns of thought our institutions and the built environment in which we live Eyal Weizman director of Forensic Architecture *The culture war is over If you want it to be It wasn t even a culture war it was a war on culture* A sustained attack Dan Hicks argues in the form of the weaponisation of civic museums public art and even universities and one that has a deeper history than you might think *Tracing the origins of contemporary conflicts over art heritage memory and colonialism Every Monument Will Fall* joins the dots between the building of statues the founding of academic disciplines like archaeology and anthropology and the warehousing of stolen art and human skulls in museums including the one in which he is a curator Part history part biography part excavation the story runs from the Yorkshire wolds to the Crimean War from southern Ireland to the frontline of the American Civil War from the City of London to the University of Oxford revealing enduring legacies of militarism slavery racism and white supremacy hardwired into the heart of our cultural institutions *Every Monument Will Fall* offers an urgent reappraisal of how we think about culture and how to find hope remembrance and reconciliation in the fragments of an unfinished violent past Refusing to choose between pulling down every statue or living in a past that we can never change the book makes the case for allowing monuments to fall once in a while even those that are hard to see as monuments rebuilding a memory culture that is in step with our times
