Zabecki, 1999 First Published in 1999 Routledge is an imprint of Taylor Francis an informa company The Encyclopedia of Weapons of World War II Chris Bishop, 2002 The encyclopedia of weapons of world war II is the most detailed and authoritative compendium of the weapons of mankind s greatest conflict ever published It is a must for the military enthusiast and all those interested in World War II **The Era of World War II** Roy Barnard, US Army Military History Institute, William Joseph Burns, Duane Ryan, 1977 **The American Eagle Squadrons of the Royal Air Force** Timothy S. Good, 2020-04-16 While the United States sought to remain neutral in the early years of World War II some Americans did not This book is the first to provide the operational records and combat reports of the three American Eagle Royal Air Force squadrons units comprised of volunteer American pilots who served with the British prior to the U S entering the war The records tell the story of the more than 200 pilots who against federal law flew with the British in their fight against Nazi Germany While some Americans served individually in other RAF units these three squadrons the 71st 121st and 133rd were the only ones organized exclusively for Americans They were the first of dozens of American fighter squadrons that would soar over Europe Allied Fighters of World War II Bill Gunston, 1992 **A History of the Mediterranean Air War, 1940-1945** Christopher Shores, Russell Guest, 2025-09-30 In 1943 Allied bombers from Italy launched strategic attacks on Axis oil fields factories and Danube supply routes Following the inter Allied Casablanca Conference in January 1943 the outline for the Combined Bomber Offensive was agreed and resulted in early February with the Casablanca Directive This required the progressive destruction and dislocation of the German military industrial and economic systems and the undermining of the morale of the German people to a point where their capacity for armed resistance is fatally weakened This directive was clarified in June when the Combined Chiefs of Staff issued the Pointblank Directive that stated that the highest priority targets were the fighter aircraft factories to ensure that in the coming invasion of France the enemy would not have air superiority When these directives were issued it was envisaged that

as well as attacks by RAF Bomber Command and the US 8th Air Force based in England the strategic bomber forces in Italy would begin operations once suitable bases were available After the Allied landings in Italy and resulting collapse of the Italian fascist regime a network of bomber bases was hastily developed Thus on 1 November 1943 the US 15th Air Force was formed to conduct the daylight bombing offensive against strategic targets in southern Germany and across southeastern Europe Key among these were the Rumanian oilfields and traffic along the River Danube This new formation was joined by the smaller but highly effective 205 Group RAF that was trained and equipped for night bombing so mirroring their equivalent British based formations The damaging attacks on the Reich s oil supplies and the highly effective Danube mining campaign conducted at night by 205 Group delivered huge strategic effect The latter reduced vital oil and goods traffic into the Reich to a trickle but also dislocated the supply and logistics train into the southern part of the Eastern Front so giving manifest support to the Soviets In this volume the early months of this hugely significant air campaign are described in minute and original detail and are accompanied by hundreds of hitherto unpublished photographs In combating these attacks Germany s Axis allies such as Hungary Rumania Bulgaria and Slovakia were encountered for the first time by the Western Allies
