Regional Competitiveness And Skills:

OECD Regional Development Studies Regional Competitiveness and Skills OECD,1997-12-12 Regional policies are increasingly focusing on human resources and their orientation towards market demand and improvement of partnerships This volume casts a new light on these issues providing a useful source of information and inspiration for regional actors and their national partners Regional Competitiveness Ron Martin,Michael Kitson,Peter Tyler,2012-11-12 There is now a wide

spread interest in regions as a key focus in the organization and governance of economic growth and wealth creation This important book considers the factors that influence and shape the competitive performance of regions This is not just an issue of academic interest and debate but also of increasing policy deliberation and action However as the readings in this book make clear the very idea of regional competitiveness is itself complex and contentious Many academics and policy makers have used the concept without fully considering what is meant by the term and how it can be measured Policy formulation has tended to rush ahead of understanding and analysis and the purpose of this book is to close this important gap in understanding This book was previously published as a special issue of Regional Studies Knowledge Intensive

Business Services and Regional Competitiveness João J. M. Ferreira,Mário L. Raposo,Cristina I. Fernandes,Marcus Dejardin,2016-04-20 Research interest in the service sector has boomed in recent years as deindustrialisation became entrenched Instead of being regarded as merely supplementary to traditional industry and manufacturing services have generated progressively rising levels of growth in developed economies while at the same time coming to be recognised as major drivers of innovation Among the factors which have helped service companies notch up swifter growth rates than all other sectors are the outsourcing of such services by other sectors including the development of information and communication technologies and changes to the regulatory legal and market frameworks as well as globalisation and internationalisation The result is a cluster of highly innovative firms which can loosely be grouped under the heading of Knowledge Intensive Business Services KIBS Knowledge Intensive Business Services and Regional Competitiveness charts the development of these firms and explores their success through four mutually linked parts KIBS and industrial dynamics KIBS and their context KIBS and their contribution to regional competitiveness and economic development and finally KIBS and public policy This book is suitable for researchers and policy makers interested in the rise of these influential actors and their influence on regional competitiveness **Crossing the Next Regional Frontier: Information and Analytics**

Linking Regional Competitiveness to Investment in a Knowledge-Based Economy , Critical Reflections on Regional Competitiveness Gillian Bristow,2010-04-05 The book is structured into three parts Part 1 introduces the concept of regional competitiveness by tracing its origins and exploring its different meanings in regional economic development This will critically engage with political economy approaches to understanding the nature and dominance of the competitiveness discourse Part 2 interrogates the pursuit of regional competitiveness in policy and practice This critically evaluates the

degree to which the pursuit of competitiveness is encouraging convergence in policy agendas in regions through an examination of key determinants of policy sameness and difference notably benchmarking and devolved governance Part 3 explores the limitations to regional competitiveness and explores whether and how its predominance in the policy discourse might be challenged by alternative agendas such as sustainable development and wellbeing This focuses on the developing qualitative character of regional development *Regional Competitiveness Towards Climate Change* Agnieszka Karman,Urszula Bronisz,Jarosław Banaś,Andrzej Miszczuk,2024-11-06 This book analyzes the competitiveness of European regions and presents forecasts for 2030 and 2100 under different climate scenarios It examines the economic impact of climate change from a regional economic perspective and sheds light on various factors that influence regional competitiveness and development Furthermore the authors derive reflections on EU climate policy and policy recommendations from the empirical results which will help both scientists and regional decision makers to implement policy measures and develop successful adaptation processes for the regions and countries of the EU to climate change

Theories of Endogenous Regional Growth Börje Johansson, Charlie Karlsson, Roger R. Stough, 2012-12-06 During the last two decades a new growth theory has emerged often labelled endogenous economic growth The contributions in the book develop these advances into a theoretical framework for endogenous regional economic growth and explain the implications for regional economic policies in the perspective of the new century Endogenous growth models can reflect increasing returns and hence refer more adequately to empirical observations than earlier models and the models become policy relevant because in endogenous growth models policy matters Such policies comprise efforts to stimulate the growth of knowledge intensity of the labour supply and knowledge production in the form of R D

The New Competitive Advantage Michael Best, 2001-07-12 This book addresses the sustained resurgence of American economy and the firms regions and technologies that are driving this growth Michael Best develops a new model of technology management and regional innovation based on the principle of systems integration The principle of systems integration is manifest in the organizational capability of firms individually and networked to foster rapid technological change Application of the principle of systems integration to business organization means integrating an

ongoing technology management capability into a production system The effect is a network or cluster of entrepreneurial firms in which design is decentralized within the enterprise and diffused amongst networked enterprises It is a business model ideally suited to product led strategies and technological innovation The combination of entrepreneurial firms and inter firm networks is shown to foster a range of dynamic cluster processes which in turn underlie the growth of Silicon Valley and the unexpected resurgence of Boston's Route 128 The general character of the capabilities and innovation perspective is illustrated with applications to regions at different levels of industrial development The implications for policy making are profound technology management is a powerful lever for both fostering growth and shaping competitive advantage Moreover it offers a framework for addressing the challenge of ecologically sustainable growth Complex product systems such as energy transportation and health are a consequence of past and present technology R D choices and corresponding investments in technical education Thus capability and skill development policies shape what is on offer in the marketplace
