Regional Development In A Global Economy The Multinational Corporation Technology And Andean Integration:

Regional Development in a Global Economy Lynn Krieger Mytelka, 1979-01-01 *Transnational Corporations and Regional Economic Integration* Peter Robson, 1993 **The Oxford Handbook of International Business** Alan M. Rugman, Thomas L. Brewer, 2001-08-30 The Handbook comprises 28 original chapters from the world's leading scholars in the field. United, these reflect both the present structure of the field and the major intellectual issues of current and likely future interest. About the Series Oxford Handbooks in Business Management bring together the world's leading scholars on the subject to discuss current research and the latest thinking in a range of interrelated topics including Strategy Organizational Behavior Public Management International Business and many others. Containing completely new essays with extensive referencing to further reading and key ideas, the volumes in hardback or paperback serve as both a thorough introduction to a topic and a useful desk reference for scholars and advanced students alike. *Regional Integration and Foreign Direct Investment* Centre for Economic Policy Research (Great Britain), National Bureau of Economic Research, 1997

Cooperation among Nations Joseph M. Grieco, 2018-08-06 In *Cooperation among Nations* Joseph M. Grieco offers a provocative answer to a fundamental question in world politics: How does the anarchical nature of the international system inhibit the willingness of states to work together even when they share common interests? Grieco examines the capacity of two leading contemporary theories: modern political realism and the newest liberal institutionalism to explain national responses to the non-tariff barrier codes negotiated during the Tokyo Round of international trade talks. According to his interpretation of realist theory, Grieco characterizes states as defensive positionalists. As such, they often fail to cooperate because they fear that a joint endeavor while producing positive gains for all participants might also generate disparities in gains among the partners involved. Grieco demonstrates that this realist concept of defensive state positionalism gives rise to a better understanding of the systemic constraints on international collaboration and of the impact of anarchy on states than is offered by neoliberal institutionalism. Drawing on previously unreported archival materials, Grieco rigorously applies the two theories to an empirical analysis of the cooperative efforts of the United States and the European Community during the 1980s to regulate and reduce non-tariff trade barriers through the General Agreement on Tariffs and Trade. *The Economic Implications of Liberalizing APEC Tariff and Nontariff Barriers to Trade*, 1998 **Multinational Enterprise and Economic Analysis** Richard E. Caves, 2007-07-23 The third edition of *Multinational Enterprise and Economic Analysis* surveys the contributions that economic analysis has made to our understanding of why multinational enterprises exist and what consequences they have for the workings of the national and international economies. It shows how economic analysis can explain multinationals' activity patterns and how economics can shed conceptual light on problems of business policies and managerial decisions arising in practice. It addresses the welfare problems arising from multinationals' activities and the logic of governments' preferences and choices in their dealings with multinationals. Suitable for researchers, graduates and upper

level undergraduates The third edition of this highly accessible book incorporates the many additions to our knowledge of multinationals accumulated in research appearing in the past decade **Integration and Unequal Development** Dudley Seers, Constantine V. Vaitsos, 1980-06-18 **Technological Capabilities and Export Success in Asia** Dieter Ernst, Tom Ganiatsos, Lynn Mytelka, 2003-09-02 What accounts for export success A team of international contributors show that learning and capability formation are critical to sustain competitiveness Through a series of case studies of firms in the textile and garment and electronics industries of five Asian economies Korea Taiwan Thailand Indonesia and Vietnam Technological Capabilities and Export Success in Asia demonstrates that cheap labour combined with currency devaluation is no longer sufficient for export success *Southern Africa After Apartheid* Bertil Odén, 1993 USITC Publication , 1998

Nagel,2016-07-27 This book analyzes various important aspects of methodology and substance regarding economic social and political policy in Latin America directed toward achieving more effective efficient and equitable societal institutions The chapters are authored by experts from within Latin America and also from Latin America research institutes elsewhere The book combines practical policy significance with insightful causal and prescriptive generalizations The emphasis is on the role of governmental decision making and the important but secondary role of the marketplace social groups and engineering **The Reconfiguration of Twenty-first Century Latin American Regionalism** Rowan Lubbock,Ernesto Vivares,2022-11-28 This cutting edge volume brings together a diverse roster of scholars to shed light on the reconfiguration of twenty first century Latin American regionalism Reflecting on both the multiplicity of regional integration across Latin America LA and the theoretically pluralist turn in contemporary scholarship on LA politics and International Relations this edited volume proposes an integrative pluralist methodology to deciphering the complexity of regionalisation projects from both above and below The book charts the contemporary evolution of older regionalisation schemes such as the Common Market of the South MERCOSUR as well as more recent twenty first century

regional innovations including the Bolivarian Alliance for the Peoples of Our America Peoples Trade Treaty ALBA TCP Pacific Alliance AP and the Union of South American Nations UNASUR Complementing this more traditional institutional perspective the book also charts the underexplored dynamics of regionalism from below in the context of region wide networks of political organisation among indigenous and peasant movements Set against the backdrop of a more critical reading of the historical origins of regionalism this volume aims to contribute to the ever growing conversation among scholars within and beyond Latin America on the actors processes contradictions and prospects for regional cooperation In offering a more holistic perspective on Latin American regionalism from above and below this volume will be of interest to both newcomers to the field and more seasoned scholars working within across disciplinary boundaries from International Relations and International Political Economy to Historical Sociology and Institutionalism The chapters in this book were originally published as a special issue of Globalizations
