## **Regional Economic Problems Comparative Experiences Of Some Market Economics Studies In Economics:**

Regional Economic Problems Alfred John Brown, 1977

**Regional Economic Problems** A. J. Brown, E. M.

Burrows, 2017-08-25 Originally published in 1977 This book provides the first concise non technical account of what the main kinds of regional problems are how they arise and the kinds of policy which have been used to tackle them in the UK USA and Western Europe The book starts with a discussion of why regional problems really are situations which call for special action followed by a short preliminary classification of problem regions including those in the less developed countries then on to a more detailed survey of the origins and experience of selected problem regions in the more developed market economies The authors focus on four broad kinds of problem region agricultural regions coal mining regions old textile regions and so called congested regions They conclude with a selective survey of regional policies in these more advanced economies distinguishing and comparing the main trends and the different national styles The Value of Applied

Economics Kenneth Button, 2017-12-29 This biography of the applied English economist Arthur A J Brown an English economist from the late 1930s to the 1980s sets his work in the context of the Great Depression the emergence of Oxford University as a centre of applied economic research the contraction of British colonialism in Africa the enlarging of the UK university system the post war arms race the UK joining the Common Market and significant changes in the industrial structure of Britain **Routledge Library Editions: Economic Geography** Various, 2021-06-23 The books in this set

originally published between 1968 and 1992 introduce the reader to the many lines of thought in the literature on economic geography and tie these various aspects together within the concept of the economy As well as providing a comprehensive overview of the Western European economy since the Second World War and including specific studies and assessments of the Dutch and Italian economies these volumes examine the economic factors that have shaped cities and patterns of urbanization **Regional Economic Impact Analysis and Project Evaluation** H. Craig Davis, 1990 This book provides a

non technical introduction to the fundamental principles and techniques of regional impact and evaluation analysis The book is written for readers who have a minimal background in mathematics and economics and so the materials listed in the bibliographies have been chosen for their accessibility to such readers References to relevant papers of a more technical nature are indicated in notes in each reference Unlike existing texts which usually concentrate on regional impact or evaluation analysis Regional Economic Impact Analysis and Project Evaluation offers an extensive introduction to both these subjects since both are critical to the study and practice of regional economic analysis Two case studies intended as illustrations of practical applications are included in each of the six chapters that deal with specific principles or techniques While many of the case studies and much of the literature cited in the bibliographies is Canadian a substantial portion is from the United States and Great Britain demonstrating that the principles and techniques discussed in this book are universally applicable **A Bibliography of British History, 1914-1989** Keith Robbins, American Historical Association, Royal

Historical Society (Great Britain),1996 Containing over 25 000 entries this unique volume will be absolutely indispensable for all those with an interest in Britain in the twentieth century Accessibly arranged by theme with helpful introductions to each chapter a huge range of topics is covered There is a comprehensive index     Regions in Recession and Resurgence Michael Chisholm,2015-03-27 The world economy has undergone rapid evolution in recent decades along with changes in the importance of industries and their organization and sharp changes in the fortunes of regions There are differences of opinion regarding the mainsprings of change and development and the role of governments in fostering national output In order to show the relevance of these changes to regional economies the book focuses on the different schools of economic thought from the neo classical through Keynesian to Marxist radical ideas and monetarist supply side thinking providing a brief description of their structure in non spatial terms The way these theories map into contrasting ideas regarding the mechanisms of regional economic growth is then explained The book concentrates on developed economies and explicitly seeks to confront theory with fact fact with theory Bringing together non spatial economic theory regional growth theory and relevant empirical data this book is intended for students in geography and regional economics but will also be of interest for those studying politics and government     The Atlantic Community Antoni Kukliński,Krzysztof Pawłowski,2010     An Introduction to Industrial Economics P.J. Devine,N. Lee,R.M. Jones,W.J. Tyson,2018-01-12 This updated and expanded 1985 edition of the classic 1974 work covers deindustrialisation industrial and competition policy the public enterprise sector regional and urban policy and privatisation as well as focussing on the firm and the industrial sector in all its facets It remains the key work on industrial economics     **The Political Economy of Uneven Development** Shaoguang Wang,Angang Hu,1999 Exploring one of the most dynamic and contested regions of the world this series includes works on political economic cultural and social changes in modern and contemporary Asia and the Pacific     Reading in General Studies ,1987     **Journal of Economic Studies** ,1976     **Bulletin of the United States Bureau of Labor Statistics** ,1913     **Area Wage Survey** ,1982     **Selection of Recent Books Published in Great Britain**1940-Apr. 1941 ,1978     **Macroeconomics** John Evans-Pritchard,1985     **Economic Books** ,1978     *Economica* ,1978     **The Publishers' Trade List Annual** ,1977     *Occupational Outlook Handbook* ,1992 Describes 250 occupations which cover approximately 107 million jobs
