**The Geopolitics of Energy in South Asia** Marie Lall, 2009. Energy security has become a central concern for all the countries in the Asian region and the search for sufficient sources of energy to fuel economic growth has drastically influenced relations among the South Asian countries as well as their respective relations with their neighbours China, Myanmar, Iran and Afghanistan. The recent nuclear deal between India and the US is also indicative of how energy and power politics are linked and how these new inter linkages underlie relations between states. This book aims to give a South Asian perspective on the geopolitics of energy with a central focus on India. The chapters address how India's global and regional foreign policy making has changed in light of India's search for energy and how this is affecting the relationship on a global level between India and the US as well as on a regional level between India and the other Asian countries. The book also offers views from Pakistan and Bangladesh as well as how this shifting reality is affecting relations between India and Southeast Asia.

**Asian Security Handbook** William M. Carpenter, David G. Wiencek, James R. Lilley, 2019-06-19. Featuring 19 individual country profiles, this volume seeks to shed light on the key political and security factors and geo political trends in the Asia Pacific region that bear monitoring and that will have greater significance in the post Cold War environment.

**Southeast Asian Perspectives on Security** Derek Da Cunha, 2000. The conventional understanding of strategic issues in the modern world has been very much a Western driven phenomenon. That is to say Western strategists, thinkers and writers have tended to establish the principles of strategic concepts and to develop theories around them. While there is utility in much Western strategic thought, it is also apt to note that some of it does not have full relevance or validity when applied to a regional setting that is far removed from the geographical boundaries of the Western world. In that connection, this volume is partly intended to serve as an antidote to much of the Western commentary on Asia Pacific security issues by providing a range of perspectives on those issues from the Southeast Asian point of view. It offers a range of Southeast Asian perspectives on the multifaceted security issues that confront the Asia Pacific region in the post Cold War era. That there is no unitary perspective emanating from the region is symptomatic of the very fluid geopolitical situation that characterizes Asia Pacific security and of equal import, the different

schools of thought that analysts in the region have chosen to subscribe to      **Marginalisation and Human Rights in Southeast Asia** Al Khanif, Khoo Ying Hooi, 2022-12-28 This book analyses marginalisation and human rights in Southeast Asia and offers diverse approaches in understanding the nuances of marginalisation and human rights in the region Throughout the region a whole range of similarities and differences can be observed relating to the Southeast Asian experience of human rights violation with each country maintaining particular aspects reflecting the variability of the use and abuse of political power This book explores the distinct links between marginalisation and human rights for groups exposed to discrimination It focuses on ethnic minorities children indigenous peoples migrant workers refugees academics and people with disabilities This book highlights the disparities in attainment and opportunity of marginalised and minority groups in Southeast Asia to their rights It examines how marginalisation is experienced with case studies ranging from a regional approach to country context Paying attention to how broader socio economic and political structures affect different people's access to or denial of their fundamental human rights and freedoms the book argues that tackling human rights abuses remains a major hurdle for the countries in Southeast Asia Providing a broader conceptual framework on marginalisation and human rights in Southeast Asia and a new assessment of these issues this book will be of interest to readers in the fields of Asian Law Human Rights in Asia and Southeast Asian Studies in particular Southeast Asian Politics      *How Realist Is India's National Security Policy?* Kanti Bajpai, 2023-03-30 In managing national security how Realist is India in terms of cultivating and using power and especially military power A conventional view of India is that it has been uncomfortable with realism or power politics as a guide to policy This volume shows that it has been more realist than is generally recognized and that it has increasingly become comfortable with power in the service of its interests The essays in this volume Examine the different aspects and types of realism in India's national security policy Include a range of perspectives from academics as well as former military officers and diplomats Focus on India's military and foreign policy in dealing with China Pakistan the United States Southeast Asia and West Asia This key volume will be indispensable to scholars and researchers of politics and international relations defence and strategic studies and South Asian studies and to government officials journalists and general readers interested in the external dimensions of India's national security
