Regional Fictions Culture And Identity In Nineteenth Century American Literature:

Regional Fictions Stephanie Foote, 2001-03-29 Out of many one e pluribus unum is the motto of the American nation and it sums up neatly the paradox that Stephanie Foote so deftly identifies in *Regional Fictions* Regionalism the genre that ostensibly challenges or offers an alternative to nationalism in fact characterizes and perhaps even defines the American sense of nationhood In particular Foote argues that the colorful local characters dialects and accents that marked regionalist novels and short stories of the late nineteenth century were key to the genre's conversion of seemingly dangerous political differences such as those posed by disaffected Midwestern farmers or recalcitrant foreign nationals into appealing cultural differences She asserts that many of the most treasured beliefs about the value of local identities still held in the United States today are traceable to the discourses of this regional fiction and she illustrates her contentions with insightful examinations of the work of Sarah Orne Jewett Hamlin Garland Gertrude Atherton George Washington Cable Jacob Riis and others Broadening the definitions of regional writing and its imaginative territory *Regional Fictions* moves beyond literary criticism to comment on the ideology of national local ethnic and racial identity

Community Boundaries and Border Crossings Kristen Lillvis, Robert Miltner, Molly Fuller, 2016-12-21 Globalization and transnationalism have reshaped our communities and their borderlines Communities exceed fixed boundaries existing instead in the liminal spaces where narratives intersect clash or cooperate These liminal

spaces physical and virtual local and global provide opportunities for diversifying discussions on diaspora cultural hybridity and ethnic identity Ethnic women writers make significant contributions to this dialogue regarding the reconfiguration of people and their perimeters A multigenre and multicultural text Community Boundaries and Border Crossings explores the novels short stories essays autobiographies testimonios plays poems and hybrid poetics of established and emerging ethnic women writers This collection of critical essays highlights the new zones of cultural contact and exchange that are defining the twenty first century Each chapter reflects an awareness of cultural changes and challenges engaging readers in a richly productive conversation concerning the interconnectedness of border crossings and community boundaries Secret Histories Kathleen Diffley, Caroline Gebhard, Cheryl Torsney, 2025-03-15 The eighteen essays in this volume explore Constance Fenimore Woolson s prodigious range of place from the Great Lakes to the defeated South and across storied Europe to the Mediterranean Her achievements come alive in this enlightening collection shedding light on the full scope of her professional writing career The first section A Writer s Experiments reveals that Woolson s play with familiar genres and unfamiliar characters began during the 1870s and extended until she died in 1894 Consistently she tested the limits of representing women s labor and their erotic desires The second section Postbellum Souths follows Woolson s travels through a land ravaged by war and injustice Drawing on theories of travel collective memory the Lost Cause religious controversy and a race bound region these essays expose both the smugness of visitors and the agendas of residents that Woolson was among the first postwar writers to portray The third section Through an International Lens considers expatriate perceptions of European and Mediterranean cultures as well as misconceptions about the Gilded Age United States Here and throughout this volume accounts of Woolson s travel sketches mingle with those of her fiction and poetry while her encounters with the writing of other Americans demonstrate how regularly Woolson made her century s literary terrain more subtle and complex

Dear Appalachia Emily Satterwhite, 2011-12-16 Much criticism has been directed at negative stereotypes of Appalachia perpetuated by movies television shows and news media Books on the other hand often draw enthusiastic praise for their celebration of the simplicity and authenticity of the Appalachian region Dear Appalachia Readers Identity and Popular Fiction since 1878 employs the innovative new strategy of examining fan mail reviews and readers geographic affiliations to understand how readers have imagined the region and what purposes these imagined geographies have served for them As Emily Satterwhite traces the changing visions of Appalachia across the decades from the Gilded Age 1865 1895 to the present she finds that every generation has produced an audience hungry for a romantic version of Appalachia According to Satterwhite best selling fiction has portrayed Appalachia as a distinctive place apart from the mainstream United States has offered cosmopolitan white readers a sense of identity and community and has engendered feelings of national and cultural pride Thanks in part to readers faith in authors as authentic representatives of the regions they write about Satterwhite argues regional fiction often plays a role in creating and affirming regional identity By mapping the geographic locations of

fans Dear Appalachia demonstrates that mobile white readers in particular including regional elites have idealized Appalachia as rooted static and protected from commercial society in order to reassure themselves that there remains an authentic America untouched by global currents Investigating texts such as John Fox Jr s The Trail of the Lonesome Pine 1908 Harriette Arnow s The Dollmaker 1954 James Dickey s Deliverance 1970 and Charles Frazier s Cold Mountain 1997 Dear Appalachia moves beyond traditional studies of regional fiction to document the functions of these narratives in the lives of readers revealing not only what people have thought about Appalachia but why

Kitchen Economics Thomas Strychacz, 2020-08-11 An analysis of how nineteenth century women regional writers represent political economic thought WINNER OF THE ELIZABETH AGEE PRIZE IN AMERICAN LITERATURE Readers of late nineteenth century female American authors are familiar with plots characters and households that make a virtue of economizing Scholars often interpret these scenarios in terms of a mythos of parsimony frequently accompanied by a sort of elegiac republicanism whereby self sufficiency and autonomy are put to the service of the greater good a counterworld to the actual economic conditions of the period In Kitchen Economics Women s Regionalist Fiction and Political Economy Thomas Strychacz takes a new approach to the question of how female regionalist fictions represent the economic by situating them within traditions of classical political economic thought Offering case studies of key works by Sarah Orne Jewett Mary Wilkins Freeman Harriet Beecher Stowe Rose Terry Cooke and Alice Dunbar Nelson this study focuses on three complex cultural fables the island commonwealth stadialism or stage theory and feeding the body politic which found formal expression in political economic thought made

their way into endless public debates about the economic turmoil of the late nineteenth century and informed female authors. These works represent counterparts not counterworlds to modernity and their characteristic stance is captured in the complex trope of feminaeconomica. This approach ultimately leads us to reconsider what we mean by the term economic for the emphasis of contemporary neoclassical economics on economic agents given over to infinite wants and complete self interest has caused the sufficiency and common good models of female regionalist authors to be misinterpreted and misvalued. These fictions are nowhere more pertinent to modernity than in their alliance with today's important alternative economic discourses.

California Dreaming Christine Bacareza Balance, Lucy Mae San Pablo Burns, 2020-08-31 *California Dreaming* is a multi genre collection featuring works by Asian American artists based in California. Exploring the places of Asian America through the migration and circulation of the arts, this volume highlights creative processes and the flow of objects to understand the rendering of California's imaginary. Here California is interpreted as both a specific locale and an identity marker that moves linking the state's cultural imaginary, labor and economy with Asia Pacific, the Americas and the world. Together the works in this collection shift previous models and studies of the Golden State as the embodiment of frontier mentality and the discourse of exceptionality to a translocal regional and archipelagic understanding of place and cultural production. The poems, visual essays, short stories, critical essays, interviews, artist statements and performance text excerpts featured in this collection expand notions of where knowledge is produced, directing our attention to the particularity of California's landscape and labor in the production of arts and culture. An interdisciplinary collection, *California Dreaming* foregrounds sensing and imagining place vividly as it hopes to inspire further creative responses to the notion of emplacement. In doing so, *California Dreaming* explores the possibilities imagined by and through Asian American arts and culture today, paving the way for what is yet to be.

The Industrial Revolution in America Kevin Hillstrom, Laurie Collier Hillstrom, 2007-02-22 This three volume set concludes ABC-CLIO's groundbreaking series on the Industrial Revolution as it played out in the United States, offering volumes on the communications industry and the agriculture and meatpacking industries, plus a concluding overview volume on the causes, courses and interconnections among the industries that brought such dramatic change to our lives. The concluding *Overview/Comparison* volume looks at the Industrial Revolution as a whole, revealing the impact of various industries on each other and gauging the revolution's broader social and political legacy in the United States and around the

world **Together by Accident** Stephanie C. Palmer, 2008-12-16 This fascinating account of the regional travel accident motif within American local color literature offers a reassessment of the cultural work done by authors writing during the Gilded Age Stephanie C Palmer shows how events like broken carriage wheels and missed trains were used by local color authors to bring together bourgeois and lower class characters thus giving readers the opportunity to see modernity coming into contact with both rural and urban life Using the works of Sarah Orne Jewett Bret Harte William Dean Howells Elizabeth Stuart Phelps and others Palmer traces the use of the regional travel accident motif and how local color writers employed it to give critiques on class society and modern life Exploring the themes of regional identity modernity and interpersonal relationships *Together by Accident* offers an intriguing evaluation of the innovations and inconveniences associated with life during the industrializing Gilded Age in America **The View from Vermont** Blake A. Harrison, 2006 With its small native population proximity to major metropolitan areas and bucolic rural beauty Vermont was fated to be a tourist mecca forever associated in the popular imagination with maple syrup fall colors and ski bunnies Tourism for good and ill has always been the decisive factor in the conception of rural Vermont What is surprising however is the degree to which we have accepted this notion of rural Vermont as a somehow timeless entity Blake Harrison's rich and rewarding study instead presents the construction of Vermont's landscape as a complex and ever changing dynamic informed by progressive modernist and reformist thought competing views of economic expansion rural and urban prejudice and social exclusion and more recently by land use planning and environmentalism This broad based study includes the early history of Vermont tourism the concomitant abandonment of farms with the rise of the summer home the creation of an unspoiled Vermont from billboards at least the impact of Vermont's ski industry on tradition bound tourism and later efforts to legislate growth and protect an increasingly static ideal of a rural Vermont While grounded within a specific Vermont view Harrison has much to contribute to broader studies of rural places tourism and landscapes in American culture His analysis of how physical landscapes affect and are affected by our imagined landscape and the insight afforded by his juxtaposition of leisure and labor will deeply inform our understanding of rural tourist landscapes for years to come This is a truly interdisciplinary work that will satisfy and challenge historians and geographers alike **The Dream of the Great American Novel** Lawrence Buell, 2014-02-10 The idea of the great American novel continues to thrive almost as vigorously as in its nineteenth century heyday defying 150 years of attempts to dismiss it as amateurish or obsolete In this landmark book the first in many years to take in the whole sweep of national fiction Lawrence Buell reanimates this supposedly antiquated idea demonstrating that its history is a key to the dynamics of national literature and national identity itself The dream of the G A N as Henry James nicknamed it crystallized soon after the Civil War In fresh in depth readings of selected contenders from the 1850s onward in conversation with hundreds of other novels Buell delineates four scripts for G A N candidates One illustrated by *The Scarlet Letter* is the adaptation of the novel's story line by later writers often in ways that are contrary to the original author's own design Other

aspirants including *The Great Gatsby* and *Invisible Man* engage the American Dream of remarkable transformation from humble origins A third script seen in *Uncle Tom's Cabin* and *Beloved* is the family saga that grapples with racial and other social divisions Finally mega novels from *Moby Dick* to *Gravity's Rainbow* feature assemblages of characters who dramatize in microcosm the promise and pitfalls of democracy The canvas of the great American novel is in constant motion reflecting revolutions in fictional fashion the changing face of authorship and the inseparability of high culture from popular As Buell reveals the elusive G A N showcases the myth of the United States as a nation perpetually under construction

Race in American Literature and Culture John Ernest, 2022-06-16 Exploring the unsteady foundations of American literary history *Race in American Literature and Culture* examines the hardening of racial fault lines throughout the nineteenth century and into the twentieth while considering aspects of the literary and interrelated traditions that emerged from this fractured cultural landscape A multicultural study of the influential and complex presence of race in the American imagination the book pushes debate in exciting new directions Offering expert explorations of how the history of race has been represented and written about it shows in what ways those representations and writings have influenced wider American culture Distinguished scholars from African American Latinx Asian American Native American and white American studies foreground the conflicts in question across different traditions and different modes of interpretation and are thus able comprehensively and creatively to address in the volume how and why race has been so central to American literature as a whole

American Women's Regionalist Fiction Monika Elbert, Rita Bode, 2021-01-04 *American Women's Regionalist Fiction* Mapping the Gothic seeks to redress the monolithic vision of American Gothic by analyzing the various sectional or regional attempts to Gothicize what is most claustrophobic or peculiar about local history Since women writers were often relegated to inferior status it is especially compelling to look at women from the Gothic perspective The regionalist Gothic develops along the line of difference and not unity thus emphasizing regional peculiarities or a sense of superiority in terms of regional history natural landscapes immigrant customs folk tales or idiosyncratic ways The essays study the uncanny or the haunting quality of the commonplace as Hawthorne would have it in his introduction to *The House of the Seven Gables* in regionalist Gothic

fiction by a wide range of women writers between ca 1850 and 1930 This collection seeks to examine how if the regionalist perspective is small limited and stultifying and leads to Gothic moments or whether the intersection between local and national leads to a clash that is jarring and Gothic in nature

American Literary Regionalism in a Global Age Philip Joseph, 2007-01-01 In this distinctive book Philip Joseph considers how regional literature can remain relevant in a modern global community Why he asks should we continue to read regionalist fiction in an age of expanding international communications and increasing nonlocal forms of affiliation With this question as a guide Joseph places the regionalist tradition of the late nineteenth and early twentieth centuries at the center of a contemporary conversation about community Part of the challenge Joseph shows is to distinguish between versions of regionalism that speak nostalgically to modern readers and those that might enter actively into a more progressive collective dialogue Examining the works of well known writers including Hamlin Garland Abraham Cahan Willa Cather Zora Neale Hurston and William Faulkner Joseph argues that these regionalist authors share a vision of local communities in open discourse with the external world capable of shaping public thought and policy and also of benefiting from the knowledge and experiences of outsiders Their fiction depicts a range of localities from Jewish American neighborhoods and midwest farming communities to southern African American towns and southwestern mixed race parishes Their characters are often associated with the literary artistic process a method stressing open ended critique that unlike journalistic philosophical or legal processes ensures open dialogue Joseph takes his argument beyond the boundaries of literary scholarship by engaging with art critics such as Lucy Lippard distance learning opponents such as David Noble and civil society proponents such as Robert Putnam and Michael Sandel Like civil society advocates today regionalist writers used the idea of community as a discursive topos and explored how values including home and neighborhood were reconciled with such democratic ideals as individual self determination and collective empowerment

Realism and Regionalism (1860-1910) Roger Lathbury, Jerry Phillips, Michael Anesko, Karen Meyers, 2010 Explores the social cultural and historical contexts of American literature from 1860 to 1910
