The Oxford Handbook of Africa and Economics Célestin Monga, Justin Yifu Lin, 2015-07-02 A popular myth about the travails of Africa holds that the continent's long history of poor economic performance reflects the inability of its leaders and policymakers to fulfill the long list of preconditions to be met before sustained growth can be achieved These conditions are said to vary from the necessary quantity and quality of physical and human capital to the appropriate institutions and business environments While intellectually charming and often elegantly formulated that conventional wisdom is actually contradicted by historical evidence and common sense It also suggests a form of intellectual mimicry that posits a unique path to prosperity for all countries regardless of their level of development and economic structure In fact the argument underlining that reasoning is tautological and the policy prescriptions derived from it are fatally teleological low income countries are by definition those where such ingredients are missing None of today's high income countries started its growth process with the required and complete list of growth ingredients Unless one truly

believes that the continent of Africa and most developing countries are ruled predominantly if not exclusively by plutocrats with a high propensity for sadomasochism the conventional view must be re examined debated and questioned This volume the second of the IOxford Handbook of Africa and Economics reassesses the economic policies and practices observed across the continent since independence It offers a collection of analyses by some of the leading economists and development thinkers of our time and reflects a wide range of perspectives and viewpoints Africa s emergence as a potential economic powerhouse in the years and decades ahead amply justifies the scope and ambition of the book

Human Rights in Nigeria's External Relations in the Age of General Muhammadu Buhari and His Successors Philip C. Aka, 2024-07-17 Under the Fourth Republic since 1999 the challenge Nigerian leaders face like never before is how to create a state that matches the expectations of their diverse peoples at home and abroad Taking this proposition as starting point this book advances proposals for a human right policy referred to alternately in the work as principled foreign policy for Nigeria under the Fourth Republic taking advantage of the inestimable opportunity afforded by General Muhammadu Buhari s departure from the political scene on May 29 2023 after the famine domestically and externally wrought by his two terms of office as President It is a broad ranging argument draped in the less arcane constitutional vocabulary and material of human rights for thoroughgoing reforms at home and abroad as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Buhari s departure marks the end of military teleguidance of Nigerian politics under the Fourth Republic in the camouflage of democratic rule a birthmark of remote control dating back to the first military intervention in the country in January 1966 These momentous events within Nigeria coincide with equally epoch making developments in the UK Nigeria s former colonial overlord with ripple effects in Nigeria signified by the death of Queen Elizabeth II after seven decades on the throne and the emergence of Prince Charles as King of England A new monarch in Britain adds to the opportunity that falls open for the reconfiguration of Nigeria s external relations with ramifications for the application of human rights in those relations Despite its known disabilities Nigeria has the potential infrastructure including its sizable population to conduct a human right policy if its leaders rationalize the country s resources more wisely

Developmental Regionalism and the Political Economy of Africa's Integration Gabila Nubong, 2023-05-18 In *Developmental Regionalism and the Political Economy of Africa's Integration* Gabila Nubong argues that there are opportunities to transform the continent and the structural nature of its economies Nubong revisits some of the earlier debates of Africa's industrialization and explores avenues of leveraging current opportunities to industrialize by focusing on integrating unbundled global production value chains This book proposes that Africa should shift its development paradigm to pursue a model of regional corporation that combines integration and development objectives together coined as Developmental Regionalism This approach would move African countries up global production value chains with the transformation of their minerals and the diversification of their economies through avenues of industrialization that unbundle production processes and increase servicification of manufacturing Nubong argues that with breaking away from the proverbial resource curse and taking advantage of its demographic dividend and growing economies Africa can chart a different future for itself within a developmental regionalism paradigm

The Palgrave Handbook of African Political Economy Samuel Ojo Oloruntoba, Toyin Falola, 2020-06-23 This handbook constitutes a specialist single compendium that analyses African political economy in its theoretical historical and policy dimensions It emphasizes the uniqueness of African political economy within a global capitalist system that is ever changing and complex Chapters in the book discuss how domestic and international political economic forces have shaped and continue to shape development outcomes on the continent Contributors also provoke new thinking on theories and policies to better position the continent's economy to be a critical global force The uniqueness of the handbook lies in linking theory and praxis with the past future and various dimensions of the political economy of Africa

Human Rights in Nigeria's External Relations Philip Aka, 2016-12-20 This book is a broad ranging argument for thorough reforms at home and abroad in Nigeria as the only antidote to the nation building dilemmas Nigeria confronts in the first quarter of the twenty first century Because of its enormous material and human endowments Nigeria is dubbed the Giant of Africa It is a moniker many of its leaders take seriously Yet Nigeria is a state rife with instability some of it periodically erupting into violence Given still ongoing national security challenges in the land that notoriously includes a bloody religion oriented terrorism the Fourth Republic since 1999 the longest period of continuous democratic rule since independence key to the timeline of this book has not been insulated from the spell of instability The main argument of this work is that internationally agreed upon ethical standards embedded in human rights can save Nigeria This book is a methodologically and theoretically grounded seminal discourse on Nigerian foreign relations that spells out the human rights or lack thereof in those relations including underlying and impinging domestic forces This work is set around six issues of application embedded in a temple of Nigeria's human rights foreign policy comprising two steps and four pillars reconstructed national interest increased human rights at home redesigned peacekeeping reshaped

foreign policy machinery increased bilateralism in foreign relations and the use of ECOWAS as human rights tool Although focused on the period since independence for proper understanding of events from the past that shape the current patterns of politics in the land this book also embodies a historical background chapter that overviews the pre colonial and colonial eras Tulsa Journal of Comparative & International Law ,2003 Policy Implications of Ecowas in Regional Development Dr. Joseph K. Manboah-Rockson,2019-06-06 Policy Implications of ECOWAS in Regional Development is an analytical study of the policies and programs impeding the transformation of the Economic Community of West African States ECOWAS into a cohesive entity What is questionable throughout this book is the specific paradigm of regional integration adopted by West African countries similar to the European Union but which is not working as envisaged A linear textbook model demonstrates an integration to do with the preoccupation with tariff liberalization as not being the most effective means of addressing the challenges of smallness marginalization and under development in West Africa The fundamental issue and underlying problem in West Africa is that of economically socially and politically weak states These weak states lack the institutional capacity to make and effectively implement policies and regulations meant to drive the integration process More to these assertions are that there is much evidence of strong political commitment to regional integration but very poor performance on the implementation of commitments that is there is no political will to commit to regional integration Fostering Trade in Africa Gbadebo O.A. Odularu,Mena Hassan,Musibau Adetunji Babatunde,2020-03-09 This book discusses trade relations and facilitation issues at both the regional and the continental African level highlighting the increasing business opportunities and challenges that confront Africa in the digital age It also examines the effects of trade policies and other policy instruments on Africa s economic development and presents workable policy measures for a more business friendly ecosystem Discussing various topics including trade relations between African countries African and international trade agreements and trade liberalization policies the book appeals to scholars of economics business and management as well as professionals and policymakers interested in fostering free trade and sustainable business development in Africa **African Studies Review** ,2001 *Access to Medicines and Vaccines in the South* Stephen Kingah,2011 How can developing countries maximize some of the beneficial rules and policies provided to them by the EU and international organizations to reduce public health plight in terms of inadequate access to medicines and vaccines The author identifies ways in which policy makers and legislators can optimally use extant rules to enhance healthcare provision Monitoring Regional Integration in Southern Africa Yearbook ,2006 **Globalisation and Labour Market Adjustment** D. Greenaway,R. Upward,P. Wright,2008-04-17 Although economists have long pointed to the aggregate gains from increased economic integration the popular perception of globalization is much more pessimistic Workers feel less secure in their jobs and fear wage losses and unemployment This book explores these issues and asks whether the concerns are warranted **Journal of Economic Literature** ,2000 **Civil Society, Governance, and Regional Integration in Africa** Hippolyt A.
